Creative Engagements with Ecologies of Place Mary Modeen, Iain Biggs, 2020-12-28 This book explores an exciting range of creative engagements with ecologies of place using geopoetics deep mapping and slow residency to propose broadly based collaborations in a form of disciplinary agnosticism Providing a radical alternative to current notions of interdisciplinarity this book demonstrates the breadth of new creative approaches and attitudes that now challenge assumptions of the solitary

genius and a culture of possessive individualism Drawing upon a multiplicity of perspectives the book builds on a variety of differing creative approaches contrasting ways in which both visual art and the concept of the artist are shifting through engagement with ecologies of place Through examples of specific established practices in the UK Australia and the USA and other emergent practices from across the world it provides the reader with a rich illustration of the ways in which ensemble creative undertakings are reactivating art s relationship with place and transforming the role of the artist This book will be of interest to artists art educators environmental activists cultural geographers place based philosophers and postgraduate students and to all those concerned with the revival of place through creative work in the twenty first century **All Hell**
