The African Correspondence of Sir Joseph

Banks, 1767-1820 Neil Chambers, 2024-06-21 This edition brings together in three fully edited volumes the correspondence and associated papers of Sir Joseph Banks regarding European and especially British exploration of Africa from 1767 1820 for the first time publishing this globally scattered material in one place thereby revolutionizing its availability and understanding of the activities of a key figure who helped organize and publish a series of missions to penetrate the African interior mainly from West Africa and by crossing the Sahara from Cairo and Tripoli Banks was a founder in 1788 of the African Association which mounted many of these missions including those of Mungo Park to explore the River Niger and J L Burckhardt exploring Syria Arabia and Egypt At the time little was known about the African interior its peoples kingdoms and resources and the aim of the African Association under Banks was to discover what lay there to make contact with and study its societies to map them and their lands and help establish trading links Banks also maintained a lively correspondence with British diplomatic representatives in North Africa such as James Mario Matra at Tangier and Henry Salt in Cairo who were a rich source of news Moreover as unofficial director of the royal gardens at Kew he sent pioneering plant collectors to gather plants in South Africa vastly boosting knowledge of this region's important flora At home he corresponded with politicians government officials entrepreneurs navigators naturalists and campaigners like William Wilberforce about a great range of issues surrounding Africa This work is multi disciplinary and will stand alongside existing series of Banks's correspondence published by Neil Chambers Scientific Correspondence 2007 Indian and Pacific Correspondence 2007 14 It will appeal to scholars of African history in the Early Modern Period to those studying exploration and collecting as well as those interested in natural history the history of science geography cartography and the Enlightenment An Introduction detailed Calendar of Correspondents Timelines for each volume and a comprehensive Index supplement the footnotes to nearly 800 documents included in this fascinating and comprehensive new series

Freedom's Debt William A. Pettigrew, 2013-12-30 In the years following the Glorious Revolution independent slave traders challenged the charter of the Royal African Company by asserting their natural rights as Britons to trade freely in enslaved Africans In this comprehensive history of the rise and fall of the RAC William A Pettigrew grounds the transatlantic slave trade in politics not economic forces analyzing the ideological arguments of the RAC and its opponents in Parliament and in public debate Ultimately Pettigrew powerfully reasons that freedom became the rallying cry for those who wished to participate in the slave trade and therefore bolstered the expansion of the largest intercontinental forced migration in history Unlike previous histories of the RAC Pettigrew's study pursues the Company's story beyond the trade's complete deregulation in 1712 to its demise in 1752 Opening the trade led to its escalation which provided a reliable supply of enslaved Africans to the mainland American colonies thus playing a critical

part in entrenching African slavery as the colonies preferred solution to the American problem of labor supply **The Colonial Magazine and Commercial-maritime Journal** ,1840 **Journal of the African Society** African Society,1925

Fisher's Colonial Magazine and Commercial-maritime Journal ,1840 **Africans and Europeans in West Africa** Harvey M. Feinberg,1989 Dynamics of International Business Andrea Colli,2015-12-22 The Dynamics of International Business offers a comparative chronological overview of the strategic and structural evolution of international firms Organized around eras of global economic development the text synthesizes research on the internationalization of firms highlighting crucial turning points in the evolution of the international economy A particular emphasis is placed on the relationship between historical evidence and the theoretical frameworks available for its interpretation Each period is illustrated by a selection of short case studies from a variety of industry sectors including the Levant Company Nestl Singer Saint Gobain and NEC An essential textbook for courses in business and economic history this book will also be a valuable resource for scholars and students of international business more generally **The British Empire** Mark Doyle,2018-06-29 An essential starting point for anyone wanting to learn about life in the largest empire in history this two volume work encapsulates the imperial experience from the 16th 21st centuries From early sixteenth century explorations to the handover of Hong Kong in 1997 the British Empire controlled outposts on every continent spreading its people and ideas across the globe and profiting mightily in the process The present state of our world from its increasing interconnectedness to its vast inequalities and from the successful democracies of North America to the troubled regimes of Africa and the Middle East can be traced in large part to the way in which Great Britain expanded and controlled its empire The British Empire A Historical Encyclopedia addresses a broader range of topics than do most other surveys of the empire covering not only major political and military developments but also topics that have only recently come to serious scholarly attention such as women s and gender history art and architecture indigenous histories and perspectives and the construction of colonial knowledge and ideologies By going beyond the headline events of the British Empire this captivating work communicates the British imperial experience in its totality British Paternalism and Africa, 1920-1940 Penelope Hetherington,2023-11-06 British Paternalism and Africa 1978 is a study of the beliefs and assumptions of members of the British intelligentsia who concerned themselves with British African politics in the period between the wars The journals and books published in Britain during this period were used as source material to discover the attitudes of politicians missionaries administrators and others concerning African issues In the two decades before the Second World War the debate about the future of the African colonies still seemed to be the preserve of Europeans anxious to influence British politics according to their own particular brand of paternalism It is argued that some writers still used arguments about Britain s civilizing mission while others emphasised the need for a period of reconstruction of African society to be carried out before independence could be granted Only the Marxist Leninist writers rejected doctrines which implied the necessity for continued European presence in Africa

Africa and the Expansion of International Society John Anthony Pella, Jr, 2014-08-21 This book explores the West Central African role in and experience during the expansion of international society Building upon theoretical contributions from the English School of international relations historical sociology and sociology it departs from Euro centric assumptions by analysing how West Central Africa and West Central Africans were integral to the ways in which Europe and Africa came together from the fifteenth century through to the twentieth Initially diverse scholarship concerned with the expansion of international society is examined revealing how the process has often been understood as one dictated by Europeans From there a new approach is developed one which is better able to examine the expansion as an interactive process between individuals and which puts the African experience at the heart of study The empirical research that follows this draws upon primary sources to introduce a number of historically significant and ground breaking cases into international relations including the international relations of West Central Africa before the European arrival the emergence and growth of the trans Atlantic slave trade the attempts to civilize Africa and the scramble to colonize Africa This book argues that the expansion of international society was driven by individual interaction and was shaped by both Africans and Europeans This book will be of interest to students and scholars of international relations international relations theory history African politics the English school and constructivism Author John Anthony Pella introduces his book African and the Expansion of International Society Surrendering the Savannah [http www routledge com politics articles featured_author_john_anthony_pella](http://www.routledge.com/politics/articles/featured_author_john_anthony_pella)

Labour and Living Standards in Pre-Colonial West Africa Klas Rönnbäck, 2015-11-19 Sub Saharan Africa is the poorest region in the world But its current status has skewed our understanding of the economy before colonization R nnb ck reconstructs the living standards of the population at a time when the Atlantic slave trade brought money and men into the area enriching our understanding of West African economic development *The British Transatlantic Slave Trade Vol 1* Kenneth Morgan, Robin Law, David Ryden, J R Oldfield, 2022-01-26 Contains primary texts relating to the British slave trade in the 17th and 18th century The first volume contains two 18th century texts covering the slave trade in Africa Volume two focuses on the work of the Royal African company and volumes three and four focus on the abolitionists struggle **The British Transatlantic Slave Trade Vol 2** Kenneth Morgan, Robin Law, David Ryden, J R Oldfield, 2021-12-16 Contains primary texts relating to the British slave trade in the 17th and 18th century The first volume contains two 18th century texts covering the slave trade in Africa Volume two focuses on the work of the Royal African company and volumes three and four focus on the abolitionists struggle **The Capital and the Colonies** Nuala Zahedieh, 2010-06-17 This book describes how the mercantile system was made to work as London established itself as the capital of the Atlantic empire *Moral Capital* Christopher Leslie Brown, 2012-12-01 Revisiting the origins of the British antislavery movement of the late eighteenth century Christopher Leslie Brown challenges prevailing scholarly arguments that locate the roots of abolitionism in economic determinism or bourgeois humanitarianism Brown instead connects the shift

from sentiment to action to changing views of empire and nation in Britain at the time particularly the anxieties and dislocations spurred by the American Revolution The debate over the political rights of the North American colonies pushed slavery to the fore Brown argues giving antislavery organizing the moral legitimacy in Britain it had never had before The first emancipation schemes were dependent on efforts to strengthen the role of the imperial state in an era of weakening overseas authority By looking at the initial public contest over slavery Brown connects disparate strands of the British Atlantic world and brings into focus shifting developments in British identity attitudes toward Africa definitions of imperial mission the rise of Anglican evangelicalism and Quaker activism Demonstrating how challenges to the slave system could serve as a mark of virtue rather than evidence of eccentricity Brown shows that the abolitionist movement derived its power from a profound yearning for moral worth in the aftermath of defeat and American independence Thus abolitionism proved to be a cause for the abolitionists themselves as much as for enslaved Africans British Engineers and Africa, 1875-1914 Casper Andersen, 2015-10-06 Using a wide range of primary sources that include correspondence diaries technical reports institutional minutes and periodicals Andersen reconstructs the networks and activities of Britain's engineers while focusing on London as a centre of imperial expansion *United Service Magazine and Naval Military Journal* ,1840
