Russia, Eurasian States, and Eastern Europe, 1998 Merle Wesley Shoemaker, 1998-08 *New Developments in the Biology of Chrysomelidae* Pierre Jolivet, Jorge Santiago-Blay, Michael Schmitt, 2021-10-25 This book summarizes what is actually known about the biology of Leaf Beetles. It is the most recent study in the field. As we are well aware, Chrysomelidae, one of the three largest families of beetles, are of great economic importance since they can be a serious pest to crops or, on the other hand, can be used to destroy imported weeds. This is due to the selectivity of their feeding preferences. In this way, Chrysomelidae are an invaluable tool for studying plant selection mechanisms. The many and varied topics dealt with in this book cover almost all aspects of phylogeny, classification, paleontology, parasitology, biogeography, defenses, population biology, genetics, and biological control, as well as many other subjects. The most renowned specialists in these fields have been chosen to put together a diverse state-of-the-art publication. Few beetle families have been studied in such detail as the Chrysomelids. This is not only due to their economic importance but also to their incredible variety of forms and behaviors. There are no less than 40,000 species currently in existence worldwide, but probably 100,000 species have existed since the Jurassic when they first came into being with the Cycadoids and other primitive plant families, later to diversify during the Cretaceous with the advent of flowering plants.

Eurasia's New Frontiers Thomas W. Simons, 2008 In *Eurasia's New Frontiers*, Thomas W. Simons Jr., a veteran U.S. diplomat, scholar, and with extensive experience in the Communist and post-Communist worlds, assays the main post-1991 developments in the fifteen successor states to the USSR and composes Eurasia. He makes a compelling case that the United States can play a large role in shaping the future of this vast and strategic region at less cost than during Soviet times. This can be achieved, however, only if U.S. policy focuses on Eurasia's fledgling individual Nation states.
