Semiotic Investigations Towards An Effective Semiotics:

Semiotic Investigations A. W. McHoul, 1996-01-01 In *Semiotic Investigations* Alec McHoul develops a theory of meaning that he calls effective semiotics a theory that investigates the ways in which signs have meaning by virtue of their actual uses McHoul expounds his theory of effective semiotics of meaning as use in a series of provocative chapters on diverse topics He begins by examining the relations between semiotics and history and between semiotics and specific communities He elaborates on the nature of these relations by demonstrating the effective semiotics of a particular photograph from the 1880s episodes from the film *Singin in the Rain* and the Batman comics literary works children s primers popular accounts of science and many other objects artifacts and experiences *Semiotic Investigations* advances its own comprehensive theory of signs while ably examining works by such distinguished philosophers and theorists as Nietzsche Wittgenstein Derrida Foucault Habermas Lyotard Kuhn and others Yet the book is also down to earth and clearly written with an eye towards a startling range of ordinary and uncommon experiences It will be required reading for linguists philosophers semioticians anthropologists literary theorists and students of cultural studies

Semiotic Theory of Learning

Andrew Stables, Winfried Nöth, Alin Olteanu, Sébastien Pesce, Eetu Pikkarainen, 2018-05-15 *Semiotic Theory of Learning* asks what learning is and what brings it about challenging the hegemony of psychological and sociological constructions of learning in order to develop a burgeoning literature in semiotics as an educational foundation Drawing on theoretical research and its application in empirical studies the book attempts to avoid the problematization of the distinction between theory and practice in semiotics It covers topics such as signs significance and semiosis the ontology of learning the limits of learning ecosemiotics ecology and sexuality The book is written by five of the key figures in the semiotics field each committed to the belief that living is a process of interaction through acts of signification with a signifying environment While the authors are agreed on the value of semiotic frameworks the book aims not to present an entirely coherent line in every respect but rather to reflect ongoing scholarship and debates in the area In light of this the book offers a range of possible interpretations of major semiotic theorists unsettling assumptions while offering a fresh and still developing series of perspectives on learning from academics grounded in semiotics *Semiotic Theory of Learning* is a timely and valuable text that will be of great interest to academics researchers and postgraduates working in the fields of educational studies semiotics psychology philosophy applied linguistics and media studies

Jacob, Menahem, and Mimoun Marcel Benabou, 2001-09-01 1998 National Jewish Book Award Winner for Autobiography Memoir A dry wit and surprising pathos infuse this family epic which turns out to be merely the telling of Benabou's failed attempt at creating his literary masterpiece The reader shares his initial hopefulness as he details his younger self's ambitious plans for a family epic founded in memory supplemented by ever growing mountains of scholarly documentation and formally grounded in a literary model of the past that ultimately eludes him In telling the stories of his three selected ancestors Jacob Menahem and Mimoun Benabou notices that his youthful project has not disappeared He's decided to let his book tell itself he'll merely hitch himself to the story and go along for the ride in this artistic tour de force by turns playful and serious

Kirkus Reviews Jacob Menahem and Mimoun delves into Marcel Benabou's uncommon family history while reflecting on the mysteries of memory the past and writing Born in Morocco in 1939 to a Jewish family Benabou left his home at age seventeen to study ancient history in Paris Benabou's memoir returns to his childhood in Morocco to his parents their home and the Jewish community in Meknes At the same time he accounts for all that has changed including his very different life in Paris and the disappearance of the world of his childhood He notes how he has turned from his family's wish that he become a rabbi to his absorption as an adult in several millennia of secular literature And he worries about how his family epic an epic meant to include the history of Morocco's Jews has become a book about himself and his inability to write the great book he has long imagined the book one owes oneself and the world The impossibility of fully recovering the past hovers over his memories And the impossibility of writing a book about that past is also there an impossibility that Benabou acknowledges delineates and in a real if also provisional sense transcends In his inspired attention to that impossibility Benabou has written a book that transforms absence into presence and the past into rich matter for the present Marcel Benabou lives in Paris and pursues his

Bluestockings Now! Deborah Heller, 2016-03-03 Bringing together top specialists in the field this edited volume challenges the theory that the eighteenth century British intellectual women known as the Bluestockings were an isolated phenomenon spanning the period from the 1750s through the 1790s On the contrary the contributors suggest the Bluestockings can be conceptualized as belonging to a chain of interconnected networks taking their origin at a threshold moment in print media and communications development and extending into the present The collection begins with a definition of the Bluestockings as a social role rather than a fixed group a movement rather than a static phenomenon an evolving dynamic reaching into our late modern era Essays include a rare transcript of a Bluestocking conversation new previously unknown Bluestockings brought to light for the first time and descriptions of Bluestocking activity in the realms of natural history arts and crafts theatre industry travel and international connections The concluding essay argues that the Blues reimagined and practiced women's work in ways that adapted to and altered the course of modernity decisively putting a female imprint on economic social and cultural modernization Demonstrating how the role of the Bluestocking has evolved through different historical configurations yet has structurally remained the same the collection traces the influence of the Blues on the Romantic Period through the nineteenth century and proposes the reinvention of Bluestocking practice in the present Questions of English Jeanne Gerlach, Annette Patterson, Robin Peel, 2002-11-01 The impact and content of English

as a subject on the curriculum is once more the subject of lively debate *Questions of English* sets out to map the development of English as a subject and how it has come to encompass the diversity of ideas that currently characterise it Drawing on a combination of historical analysis and recent research findings Robin Peel Annette Patterson and Jeanne Gerlach bring together and compare important new insights on curriculum development and teaching practice from England Australia and the United States They also discuss the development of teacher training highlighting the variety of ways in which teachers build their own beliefs and knowledge about English **The Oxford Handbook of British Romanticism** David Duff, 2018

This Handbook provides a comprehensive overview of British Romantic literature and an authoritative guide to all aspects of the movement including its historical cultural and intellectual contexts and its connections with the literature and thought of other countries All the major Romantic writers are covered alongside lesser known writers *The Mobilities Paradigm*

Marcel Endres, Katharina Manderscheid, Christophe Mincke, 2016-05-12 Over the last two decades the conceptualisation and empirical analysis of mobilities of people objects and symbols has become an important strand of social science Yet the

increasing importance of mobilities in all parts of the social does not only happen as observable practices in the material world but also takes place against the background of changing discourses scientific theories and conceptualisations and knowledge Within the formation of these mobilities discourses the social sciences constitute a relevant actor Focussing on mobility as an object of knowledge from a Foucauldian perspective rather than a given entity within the historical contingency of movement this book asks How do discourses and ideologies structure the normative substance social meanings and the lived reality of mobilities What are the real world effects of on the will and the ability to be mobile And how do these lived realities in turn invigorate or interfere with certain discourses and ideologies of mobility **Molecular**

Biology in Narrative Form Priya Hays, Priya Venkatesan Hays, 2006 Molecular Biology in Narrative Form is a groundbreaking interdisciplinary study that shows a connection between molecular biology and French narrative theory and from a unique perspective bridges the gap between two disciplines that seem mutually exclusive With many new insights on the link between science in the form of DNA a set of codes and literature in the form of language another set of codes this book looks at modern experimental science within the framework of semiotics Priya Venkatesan reveals the extraordinary parallel between the work of scientists and the work of narratologists who develop narrative paradigms and analyze literary texts Molecular Biology in Narrative Form will be a useful resource for scientists and literary theorists interested in the epistemological workings of science as well as anyone that desires to explore the linkages between scientific theory and literary analysis *Semantics and the Body* Horst Ruthrof, 1997-12-06 In traditional semantics the human body tends to be ignored in the process of constructing meaning Horst Ruthrof argues by contrast that the body is an integral part of this hermeneutic activity Strictly language based theories and theories which conflate formal and natural languages run into problems when they describe how we communicate in cultural settings Semantics and the Body proposes that language is no more than a symbolic grid which does not signify at all unless it is brought to life by non linguistic signs Ruthrof reviews and analyses various orthodox theories of meaning from the views of Gottlob Frege at the beginning of the twentieth century to those of theorists in the postmodern period then offers an alternative approach of his own His theory features corporeal semantics and holds that meaning has ultimately to do with the body and that the meaning of linguistic expressions is indeterminate without the aid of visual tactile olfactory and other bodily signs This approach also remedies what Ruthrof sees also as a loss of interpretive will in the postmodern era Pedagogy in many fields could be enriched by a systemic integration of non verbal semiosis into the linguistically dominated syllabus Those involved in discourse analysis literature art criticism film theory pedagogy and philosophy will find the implications of Ruthrof's study considerable **Give the Word:**

Responses to Werner Hamacher's "95 Theses on Philology" Werner Hamacher, 2019-06-19 Werner Hamacher's witty and elliptical 95 Theses on Philology challenges the humanities and particularly academic philology that assume language to be a given entity rather than an event In Give the Word eleven scholars of literature and philosophy Susan Bernstein Mich le

Cohen Halimi Peter Fenves Sean Gurd Daniel Heller Roazen Jan Plug Gerhard Richter Avital Ronell Thomas Schestag Ann Smock and Vincent van Gerven Oei take up the challenge presented by Hamacher's theses. At the close Hamacher responds to them in a spirited text that elaborates on the context of his 95 Theses and its rich theoretical and philosophical ramifications. The 95 Theses included in this volume makes this collection a rich resource for the study and practice of radical philology. Hamacher's philology interrupts and transforms parting with tradition precisely in order to remain faithful to its radical but increasingly occluded core. The contributors test Hamacher's break with philology in a variety of ways attempting a philological practice that does not take language as an object of knowledge study or even love. Thus in responding to Hamacher's Theses the authors approach language that because it can never be an object of any kind awakens an unfamiliar desire. Taken together these essays problematize philological ontology in a movement toward radical reconceptualizations of labor action and historical time.

Palimpsests Gérard Genette, 1997-01-01 A palimpsest is a written document usually on vellum or parchment that has been written upon several times often with remnants of erased writing still visible. Originally published in France in 1982, Gérard Genette's *PALIMPSESTS* examines the manifold relationships a text may have with prior texts on the same document.

Counterfactual Romanticism Damian Walford Davies, 2019-09-18 Innovatively extending counterfactual thought experiments from history and the social sciences to literary historiography, criticism and theory, *Counterfactual Romanticism* reveals the ways in which the shapes of Romanticism are conditioned by that which did not come to pass. Exploring various modalities of counterfactual speculation and inquiry across a range of Romantic period authors, genres and concerns, this collection offers a radical new purchase on literary history, on the relationship between history and fiction, and on our historicist methods to date, and thus on the Romanticisms we think we have inherited. *Counterfactual Romanticism* provides a ground-breaking method of re-reading literary pasts and our own reading presents in the process. Literary production, texts and reading practices are unfossilised and defamiliarised.
