of the social environment in creating disadvantage and to issues of power and privilege and of the systemic oppression of disabled people This book provides an introduction to the expanding body of critical work on disability by theorists from a range of perspectives illustrating ways in which their theories and insights contest or support assumptions within rehabilitation theory The book argues for a cross fertilisation of ideas and challenges hierarchies of power in which nurses and therapists privilege their own assumptions perspectives and knowledge while overlooking or ignoring the perspectives both of disabled people and of other theorists Provides an accessible introduction to current theoretical perspectives on disability Demonstrates how these theoretical perspectives can inform a practitioner s approach to rehabilitation Relevant for all the rehabilitation and health care professions **Anthropologists in the Field** Lynne Hume,Jane Mulcock,2004-12-14

facilitation that can be used in policy development to better cater to disabled service users needs as well as furthering the theoretical understanding of sexual rights and sexual citizenship this book will be of interest to professionals in disability services and policy makers as well as academics and students working in the following subject areas Disability Studies Sociology Social Policy Sexuality Studies Sexology Social Work Nursing Occupational Therapy and Public Health

Recapturing the Personal Irving Epstein, 2006-12-01

In this volume contributors discuss both the theoretical and practical applications of an embodied knowledge perspective using the field of education as an exemplar It should be noted that while the theorists whose writings are discussed in these pages have made seminal contributions to the sociology of the body literature it is not possible nor is it our goal to comprehensively review the theoretical discourse of everyone who has written in the area Our more modest aim is to give our audience a sampling of what some of the important theoretical positions entail To that end we turn to the writings of the three social and cultural theorists whose work is given the greatest degree of attention in the volume Foucault Bourdieu and Butler and will briefly summarize their views

"The Poor, the Crippled, the Blind, and the Lame" Louise A. Gosbell, 2018-08-03 The New Testament gospels feature numerous social exchanges between Jesus and people with various physical and sensory disabilities Despite this traditional biblical scholarship has not seen these people as agents in their own right but existing only to highlight the actions of Jesus as a miracle worker In this study Louise A Gosbell uses disability as a lens through which to explore a number of these passages anew Using the cultural model of disability as the theoretical basis she explores the way that the gospel writers as with other writers of the ancient world used the language of disability as a means of understanding organising and interpreting the experiences of humanity Her investigation highlights the ways in which the gospel writers reinforce and reflect as well as subvert culturally driven constructions of disability in the ancient world

The Hermeneutical Spirit Amos Yong, 2017-11-06 In the contemporary biblical studies climate

proposals regarding the theological interpretation of Scripture are contested particularly but not only because they privilege encourage and foster ecclesial or other forms of normative commitments as part and parcel of the hermeneutical horizon through which scriptural texts are read and understood Within this context confessional approaches have been emerging including some from within the nascent pentecostal theological tradition This volume builds on the author s previous work in theological method to suggest a pentecostal perspective on theological interpretation that is rooted in the conviction that all Christian reading of sacred Scripture is post Pentecost meaning after the Day of Pentecost outpouring of the Spirit on all flesh in anticipation of the coming reign of God In that respect such a pentecostal interpretative perspective is not parochially for those within the modern day movement bearing that name but is arguably apostolic in following after the scriptural imagination of the earliest disciples of Jesus the messiah and therefore has ecumenical and missional purchase across space and time The Hermeneutical Spirit thus provides close readings of various texts across the scriptural canon as a model for Christian theological interpretation of Scripture suitable for the twenty first century global context

Culture - Theory - Disability Anne Waldschmidt,Hanjo Berressem,Moritz Ingwersen,2017-04-10 Which theoretical and methodological approaches of contemporary cultural criticism resonate within the field of disability studies What can cultural studies gain by incorporating disability more fully into its toolbox for critical analysis Culture Theory Disability features contributions by leading international cultural disability studies scholars which are complemented with a diverse range of responses from across the humanities spectrum This essential volume encourages the problematization of disability in connection with critical theories of literary and cultural representation aesthetics politics science and technology sociology and philosophy It includes essays by Lennard J Davis Rosemarie Garland Thomson Dan Goodley Robert McRuer and Margrit Shildrick **Disability and Culture: The usefulness of Davis' argument about the relationship between the concept of normalcy and cultural production** Leila Fielding,2012-10-19 Essay from the year 2012 in the subject Cultural Studies Basics and Definitions grade 1 1 First Class language English abstract Disability is a natural part of the human condition Almost everyone you cross paths with will possess some form of deviance from the socially enforced ideological norm whether or not they choose to let this be apparent Every person will at some point experience some form of impairment or disability during their lives be it brought on by disease depression old age injury or deterioration Disabilities are less the property of persons than they are moments in a cultural focus Everyone in any culture is subject to being labelled and disabled Yet despite the temporality of ability disability is still marginalised distorted and concealed within mainstream culture Types and categories of disability are extensive escalating and erratic It is therefore absurd that society clings to the notion of normalcy like an anxious child clutching its mother s hand People are disabled by culture as well as by society Depending on how difference is perceived and acknowledged people can be enabled or disabled by those around them

Disabilities are therefore manufactured by society and represented by culture **Culture - Theory - Disability :**

David Bolt, 2025-11-25 In the disability community which can have multiple meanings in itself we often experience poignant moments in sociocultural discourse Our pathways to knowledge and understanding of identity are defined by life's landmarks many of which resonate with what thereby become formative figures or artefacts This mapping of key moments involves recognising and reflecting upon cultural stations of disability More than being demarcations of disruption to the normative social order cultural stations of disability sometimes pertain to its very epitome They hold something of a moment in discourse with which identification is paramount but variously emotive They may capture feelings of liberation to which we joyfully return difficult memories that we revisit to ponder or the nadir of modernity from which we can only hope to learn In this edited volume an international gathering of contributors finds and defines dozens of cultural stations of disability in music art film television programs literature sitcom activism sport performance organisations places and events Cultural Stations of Disability A Moment in Discourse will be of interest to interdisciplinary readers in disability studies humour
