Beginnings of the Semiotics of Culture Silvi Salupere,Peeter Torop,Kalevi Kull,2013 A landmark of Tartu semiotics for nearly half of a century now is the semiotics of culture The semiotic study of cultures was at the centre of interest in Juri Lotman s group and in the Tartu Moscow semiotics school in general In 1973 the collective manifesto Theses on the Semiotic Study of Cultures was written under the leadership of Juri Lotman together with his Moscow colleagues Vjacheslav Ivanov Vladimir Toporov Aleksandr Pjatigorskij and Boris Uspenskij This marked the real birth of the research field called the semiotics of culture This volume contains the republication of Proposals for the programme of the 4th Summer School on secondary modelling systems written by J Lotman 1970 and the Theses on the semiotic study of cultures 1973 as well as a Postscriptum to Theses written by J Lotman and B Uspenskij 1979 Both the Proposals and the Theses are presented in English Russian and Estonian the Postscriptum only in English The background and the further role of these texts is described in the accompanying article by Peeter Torop and Silvi Salupere

Communication Games Eduardo Neiva,2011-12-22 Communication Games is a new and radical interpretation of the relationship between culture and communication It explores the idea that culture and communication studies should be seen predominantly in relation to

struggles and conflicts within the social arena. It criticizes the conventional heritage of the social sciences and humanities. Culture and communication are conceived not merely as means of integrating social actors but as semiotic ways of providing fitness indicators that allow for the resolution of competition between individuals. From the perspective of Peircean semiotics and the Darwinian understanding of life processes, Communication Games redefines culture in terms of Darwin's notion of sexual selection. Moving on from the realization that sexual selection creates individual organisms with conflicting interests, Communication Games emphasizes the contribution of game theory to semiotics and communication studies. The book demonstrates how cooperation and shared conventions eventually emerge and how conflicts are resolved through the display of costly and inflated signs. It is from these inflated signs and the escalation of excessive messages that cultures gain a certain degree of stability. Communication Games proposes a new way of understanding culture, communication and semiotic exchange in terms of game theory.

Art, Culture, and the Semiotics of Meaning Jackson Barry, 1999

Do the arts mean? Do all the arts mean? Do they all mean in the same way? Does an art work mean in the same way in which a street sign means? More importantly, do all art works mean in a semiotically interesting way? This book argues for the importance of those formal meanings in the arts which most effectively enrich our knowledge of the way things are and train our cognitive faculties to deal with them. Jackson Barry examines the meaning of art works as read through their material and formal constituents using a semiotic approach which clarifies the historical and cultural forces molding these sensorially elaborated signs. Medieval wheel of fortune diagrams, a Shakespeare play, non-objective painting and a stage set for Tennessee Williams' *A Streetcar Named Desire* all demonstrate the interplay between concepts struggling for expression and the available matter and form for their manifestation. At the end, the author considers the biological basis for art as defined in contemporary cognitive science.
