Sendmail 813 Companion:

sendmail Bryan Costales, Claus Assmann, George Jansen, Gregory Neil Shapiro, 2007-10-26 A classic O'Reilly title since 1993 *sendmail* now covers Versions 8.10 through 8.14 of this email routing program including dozens of new features, options, and macros. This edition also takes a more nuts and bolts approach than its predecessors. It includes both an administration handbook and a reference guide that provide you with clear options for installing, configuring, and managing *sendmail*'s latest versions and companion programs. The *sendmail* program has withstood the test of time because of its ability to solve the mail routing needs of all sites, large or small, complex or simple. But it's also difficult to configure and even more difficult to understand. That's why this book has proven valuable since the dawn of email. With it, you will be able to configure the program to meet any need so that you never again have to call in a *sendmail* guru to bail you out. *sendmail* includes the following sections: **Some Basics** is especially useful for people new to the program. It covers the basic concepts underlying mail delivery and the roles *sendmail* plays in that delivery. **Administration** covers all aspects of handling *sendmail*, from downloading and installing new releases to managing mailing lists and aliases. **Configuration Reference** contains a heavily cross-referenced guide for configuring and tuning *sendmail*. Every arcane detail of *sendmail* is listed alphabetically. **Appendices** contain more detail about *sendmail* than you may ever need. This edition also includes new material on SSL and AUTH and a new chapter on Milters. If you're interested in what has changed since the last edition, one appendix categorizes the many improvements of *sendmail*'s intervening versions by chapter, complete with references to the appropriate sections and page numbers in the book. With *sendmail*, system administrators, programmers, network engineers, and even inexperienced users will be able to match this challenging but necessary utility to the needs of their network. **Word 4 Companion** Gena Berg Cobb, Judy Mynhier, Allan McGuffey, 1989 Version 4.0 for Macintosh, all user levels. *Headquarters USA*, 2003.

Headquarters USA 2004 Omnigraphics, Incorporated, 2003-10 Presents over 112,000 entries with addresses and phone, fax, and toll-free numbers as well as Web addresses and stock symbols of businesses, organizations, foundations, agencies, libraries, institutions, military bases, and media outlets. **American Rifleman**, 1953.

Headquarters USA 2006 Omnigraphics, Incorporated, 2005-09 Business Phone Book USA, 2000.

Sendmail 813 Companion Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has be much more evident than ever. They have the capability to inspire, provoke, and ignite change.
