Curricular Contexts, Themes And Dimensions In Primary Schools Gajendra K. Verma, 2005-06-21 The final volume of four the authors consider how the concerns of ethnic groups may be addressed within the framework of the National Curriculum Despite the indecision surrounding primary school curriculum it remains that the multicultural nature of the population and of schools will develop **A Century of Change in Music Education** Stephanie Pitts, 2019-01-04 Published in 2000 Education in our schools is a constant feature of media headlines often blamed for many of society's ills Perceived throughout the ages as civilizing force music has a fundamental role to play in education yet the last twenty years have seen a consistent erosion of the time and money made available to music teachers in our schools This book is a timely reminder of how we have arrived at the current debates and challenges of music education Stephanie Pitts charts the history of music teaching in British secondary schools over the course of the twentieth century Each chapter looks at a significant period of music education history in which the ideas and practices of a generation were established and refined The main educational publications of each decade are examined from the early by MacPherson Somervell and Yorke Trotter to the more recent thinking of Paynter and Swanwick The shifting perceptions of music in the school curriculum are nowhere better highlighted than in the changing focus on children's engagement with music from the musical appreciation lessons of the 1920s and 1930s to the post war concentration on performance and the 1970s emphasis on improvisation and composition There and many other trends are discussed in the book allowing today's music educators to see their own practice in its historical context **National and Transnational Elite Influences on Education** Romuald Normand, Leif Moos, Luís Miguel

Change is a state of the art collection of the most important ideas and evidence of educational change The book brings together some of the most influential thinkers and writers on educational change It deals with issues like educational innovation reform restructuring culture building inspection school review and change management It asks why some people resist change and what their resistance means It looks at how men and women older teachers and younger teachers experience change differently It looks at the positive aspects of change but does not hesitate to raise uncomfortable questions about many aspects of educational change either It looks critically and controversially at the social economic cultural and political forces that are driving educational change School leaders system administration teacher leaders consultants facilitators educational researchers staff developers and change agents of all kinds will find this book an indispensable resource for guiding them to both classic and cutting edge understandings of educational change no other work provides as comprehensive coverage of the field of educational change *Education, Reform and the State* John Furlong, Robert Phillips, 2002-11 This book supplies the definitive contemporary history of education policy in the late twentieth century Some of the leading educationalists reflect on the major legislative and structural changes in the field over the last 25 years **The National Curriculum** Michael Barber, Chris Woodhead, Sheila Dainton, 1996 **Equality in the Primary School** Dave Hill, Leena Helavaara Robertson, 2011-11-24 Drawing on a wealth of knowledge from a diverse group of contributors this volume addresses the importance of going beyond equal opportunities The contributors provide a compelling argument for promoting equality in primary schools Issues covered include social class race gender sexual orientation disability and special educational needs with reference to all subjects taught at primary school level **War Words: Language, History and the Disciplining of English** Urszula Clark, 2021-10-01 Debates about the nature of literacy and literacy practices have been conducted extensively in the last fifteen years or so The fact that both previous and current British governments have effectively suppressed any real debate makes the publication of this book both timely and important Here Urszula Clark stresses the underlying ideological character of such debates and shows that they have deep historical roots She also makes the point that issues regarding the relationship between language and identity especially national identity become sharply focused at times of crisis in that identity By undertaking a comparison with other major English speaking countries most notably Australia New Zealand and the USA Clark shows how these times of crisis reverberate around the globe
