Michael Shermer

Sensing The Omega Voyaging To The Afterlife:

Heavens on Earth Michael Shermer, 2018-01-09 A scientific exploration into humanity's obsession with the afterlife and quest for immortality from the bestselling author and skeptic Michael Shermer In his most ambitious work yet Shermer sets out to discover what drives humans belief in life after death focusing on recent scientific attempts to achieve immortality along with utopian attempts to create heaven on earth For millennia religions have concocted numerous manifestations of heaven and the afterlife and though no one has ever returned from such a place to report what it is really like or that it even exists today science and technology are being used to try to make it happen in our lifetime From radical life extension to cryonic suspension to mind uploading Shermer considers how realistic these attempts are from a proper skeptical perspective **Heavens on Earth** concludes with an uplifting paean to purpose and progress and how we can live well in the here and now whether or not there is a hereafter *British Books in Print* ,1979

The Omega Portal ,2021-07-05 In the fascinating read **The Omega Portal** two friends get together over a weekend to record conversations about one of them having a life changing near death experience that opened up ongoing seeings and understandings about Greater Reality the nature of Consciousness itself and how to connect more deeply with our True Essence even during challenging times Excerpted From the Introduction So the short version is you had a serious medical situation in the last year that led to your heart stopping and during that time you had a very impactful near death experience to say the least in which you found yourself in a Light filled Space deeply connecting with a Multidimensional Being which you now call the Omega Being or the Omega Consciousness or just Omega And you not only had some amazing experiences and had a lot of really intriguing information come in but through that a communication portal somehow opened so that you now regularly have communication sessions you call them bridging sessions with this Being during which you receive what to me are also really fascinating information downloads about a variety of topics including a map or model of how Multidimensional Reality is basically set up And today and tomorrow we're having what we're calling a marathon weekend where we're going to go into a lot of this in a lot more depth and then I'm planning to transcribe it and turn it into a book And this might be a good place to mention since it will be an anonymous book just to have some bare minimal orientation of who's talking we're both American or Canadian males between the ages of 30 and 65 How's that for vague There goes our anonymity Sorry how inconsiderate of me Next up we agreed on an outline of four main topics So today we'll be talking about your near death experience and this portal or bridge that opened for you during it then we'll move into the second main topic which is your ongoing bridging sessions where you relax in a chair and plug back in to that connection and information comes in about more subtle levels of reality about consciousness and about a variety of other topics and I've found some of those really interesting and impactful so I'm looking forward to drilling deeper into them And then we'll divide tomorrow between two other general topics The afternoon will focus on how during your near death experience one of the things that happened was

you were flooded with scenes and information about a possible future One potential way the future could look Then tomorrow evening s topic a few times you ve talked about some practices or processes that the Omega Consciousness has given you during your bridging sessions and well first some of the background you laid out for one of those in particular the one you call Influencing Your Unfolding was really interesting to me and got into some territory we hadn t talked about before around the connection between consciousness and reality and some other things so I wanted us to get into that And second it seemed good to designate some time for you to go into some of those practices in case any readers find them helpful So I m sure we ll stray into other territory at times and I ve got my list of questions at the ready about things we ve talked about that to me were especially intriguing or fascinating as well as some things I haven t asked you yet but that s the basic layout I suggested for the weekend and you said sure Yeah we ll see what actually happens best laid plans but that feels like a good basic outline Alright then let s go ahead and dive in First up your near death experience
