## Sensual Sovereigns:

Sovereign Masculinity Bonnie Mann, 2014-02 Through examining practices of torture extra judicial assassination and first person accounts of soldiers on the ground Bonnie Mann develops a new theory of gender **Jacques Derrida** Claire Colebrook, 2014-10-17 Jacques Derrida Key Concepts presents a broad overview and engagement with the full range of Derrida's work from the early phenomenological thinking to his preoccupations with key themes such as technology psychoanalysis friendship Marxism racism and sexism to his ethico political writings and his deconstruction of democracy Presenting both an examination of the key concepts central to his thinking and a broader study of how that thinking shifted over a lifetime the book offers the reader a clear systematic and fresh examination of the astounding breadth of Derrida's philosophy **Sovereign Virtue** Ronald Dworkin, 2002-03-01 Dworkin argues that equality freedom and individual responsibility are not in conflict but flow from and into one another as facets of the same humanist conception of life and politics He applies his principles to contemporary controversies such as the distribution of health care affirmative action assisted suicide and genetic engineering **Sovereign Love** Dené Logan, MFT, 2024-05-28 From couples therapist Den Logan comes a new perspective on understanding our inner masculine and feminine energetics as the key to experiencing fulfillment in our partnerships Does something feel off about your intimate relationships If you haven't been able to pin down exactly what you aren't alone While attempting to connect the dots of her own experience to the patterns she observes within the relationships of her clients couples therapist Den Logan came to a vital understanding in the search for relational fulfillment the answer often lies in the inherent interplay of the masculine and feminine energy that everyone possesses Both masculine and feminine polarities are present in every person and relationship When we're out of touch with the energetics within ourselves and those around us it can create an internal struggle and sense of disharmony in our partnerships Understanding these dynamics is the key to ending the unspoken war of the sexes that plays out far too often in our relationships Logan says Thankfully we have the power to work with these polarities first within ourselves and then within our relationships In *Sovereign Love* Logan helps us understand how to integrate masculine and feminine energetics so we can move away from the codependent transactional views of what relationships should be toward an interdependent mutually balanced state where both partners are present self-aware and strong in Self Here you'll discover What energetics you've been operating from and why The polarities that are being created in your partnerships How to take personal responsibility for shifting your own energy to a more integrated place Logan shares revelations and techniques to support you in experiencing the wholehearted satiating kind of love that is rooted in self-awareness and interdependence By unpacking the historical cultural and highly individual reasons why we love the way we do she explains we can understand our motivations and consciously choose to love in a way that serves our growth our values and our personal sovereignty Sovereign Nations, Carnal States Kam Shapiro, 2018-08-06 *Sovereign Nations Carnal States* is an extraordinarily synthetic intellectual

tour de force Kam Shapiro uses the body as a lens to focus on often overlooked dimensions of modern sovereignty He provides a novel perspective on one of the most important problems in contemporary political theory the conflict between the demands of political sovereignty exemplified in the nation state and the economic and cultural dislocations of modern society It is often assumed that classical political theory conceives of the body as an instrument subordinated to a rational subject In contrast Shapiro argues that thinkers from Augustine to Hegel and Carl Schmitt have conceptualized the body as a resource to supplement standard modes of political affiliation and moral agency Drawing on critical readings of Augustine Derrida Hegel Schmitt and Benjamin Shapiro develops what he refers to as a political somatics The author is preoccupied by the way desire and habit are the conditions of possibility for meaningful political affiliation but he also shows how they constantly risk being held hostage to contingency Both he concludes are important resources for democratic politics Shapiro marshals both historical and contemporary philosophical accounts of embodiment in order to explain an important contemporary political question How is the nation state able to cohere as a functioning political unit despite internal differences and the vagaries of the market
