Achieving Consistency in Sentencing Lyndon Harris, 2022-08-29 The Sentencing Council of England and Wales has as its core aim to promote consistency in sentencing with a developed system of appellate guidance at sentencing in addition to a

narrative guidelines system which is now two decades old As such there is much to analyse and many lessons to be learned for England and Wales and other jurisdictions Consistency in sentencing is widely regarded to be an essential component of a fair sentencing system but what does consistency mean exactly In *Achieving Consistency in Sentencing* the author maintains that consistency incorporates both substantive and procedural elements focussing upon the proper application of principle The notion of comparing like cases is rejected as simplistic impractical and unprincipled Lyndon Harris argues that a more principled approach reconciles the tension between consistency and individualised justice which has been suggested to exist The author uses clear empirical evidence of inconsistency in sentencing to emphasize the crucial need for discretion during the sentencing exercise which he argues should be structured in a way that encourages sentences to be imposed in accordance with the principles underpinning the scheme while maintaining the ability to individualise sentences Using England and Wales as a case study this work analyses various methods of structuring discretion The latter part of the book examines the interplay between the primary givers of guidance Parliament the Court of Appeal Criminal Division and the Sentencing Council and draws conclusions good and bad as to ways in which consistency can be achieved Lyndon Harris identifies lessons to be learned while pointing out the strengths and deficiencies in the various devices used to guide sentencing judges when they are required to exercise their discretion The book draws attention to the need for greater flexibility and structure while emphasising the work that needs to be done to address racial and gender inconsistencies in sentencing Thus while providing a theoretically sound critique of the concept this monograph is of direct practical relevance to those studying or practising in sentencing systems worldwide

**Defendants and Victims in International Criminal Justice** Juan Perez-Leon-Acevedo, Joanna Nicholson, 2020-04-29. This volume considers a variety of key issues pertaining to the rights of defendants and victims at International Criminal Courts, ICTs and explores how best to balance and enhance the rights of both in order to ensure the effectiveness and efficiency of international criminal proceedings. The rights of victims are becoming an increasingly important issue at ICTs. Yet at the same time this has to be achieved without having a detrimental impact upon on the rights of the defence and the efficiency of the courts. This book provides analyses of issues on the rights of both the accused and the victims. By discussing matters concerning these two pivotal actors in international criminal justice within the same volume, the work highlights that there are intrinsic and intense conflicting and converging relationships between victims and the accused, particularly in terms of their rights. While most of the chapters focus mainly on either the accused or the victims, others discuss both at the same time. The work strikes a fine balance between on the one hand classic topics on the rights of the accused and the rights of the victims and on the other topics which have been largely unexplored and/or which require new angles or perspectives. Additionally, there are some chapters which approach both the rights of the accused and the rights of the victims in new contexts and/or under novel perspectives. The book as a whole provides a discussion of the two sides of this important coin of international criminal justice. The work will be an essential resource for academics, practitioners and students with an interest

in the field of international criminal law It will also be of interest to human rights scholars who are working with the rights of victims and the accused     Federal Sentencing and Forfeiture Guide Roger William Haines,1991
