Compulsory Compassion Annalise E. Acorn, 2004

Restorative justice is often touted as the humane and politically progressive alternative to the rigid philosophy of retributive punishment that underpins many of the world's judicial systems Emotionally seductive its rhetoric appeals to a desire for a right relation among individuals and communities and offers us a vision of justice that allows for the mutual healing of victim and offender and with it a sense of communal repair In *Compulsory Compassion* Annalise Acorn a one time advocate for restorative justice deconstructs the rhetoric of the restorative movement Drawing from diverse legal literary philosophical and autobiographical sources she questions the fundamental assumptions behind that rhetoric that we can trust wrongdoers performances of contrition that healing lies in a respectful face to face encounter between victim and offender and that the restorative idea of right relation holds the key to a reconciliation of justice and accountability on the one hand with love and

Martin, 2019-10-15

What if the job of police was to cultivate the political will of a community to live with itself rather than enforce law keep order or fight crime In *Sentiment Reason and Law* Jeffrey T Martin describes a world where that is the case The Republic of China on Taiwan spent nearly four decades as a single party state under dictatorial rule 1949 1987 before transitioning to liberal democracy Here Martin describes the social life of a neighborhood police station during the first rotation in executive power following the democratic transition He shows an apparent paradox of how a strong democratic order was built on a foundation of weak police powers and demonstrates how that was made possible by the continuity of an illiberal idea of policing His conclusion from this paradox is that the purpose of the police was to cultivate the political will of the community rather than enforce laws and keep order As *Sentiment Reason and Law* shows the police force in Taiwan exists as an anthropological fact bringing an order of reality that is always simultaneously and inseparably meaningful and material Martin unveils the power of this fact demonstrating how the politics of sentiment that took shape under autocratic rule continued to operate in everyday policing in the early phase of the democratic transformation even as a more democratic mode of public reason and the ultimate power of legal right were becoming more significant
