Separation Anxiety:

Separation Anxiety in Children and Adolescents Andrew R. Eisen, Charles E. Schaefer, 2007-02-13 This volume presents a unique research based approach to treating the prevalent distressing yet highly treatable problem of separation anxiety. The authors provide step by step guidelines for planning and implementing the entire process of therapy with children, adolescents and their families from intake and assessment through coping skills training, cognitive behavioral interventions and relapse prevention. Comprehensive case examples illustrate the complexities of building strong relationships with families under stress and effectively intervening with 3 to 17 year olds across multiple situations, day and night and setting home, extracurricular, school and camp. The book is written for maximum accessibility for clinicians from any background, even those with limited cognitive behavioral therapy experience. **Helping Your Child Overcome**

Schneider, 2021-07-15 Imagine you are a hot air balloon pilot flying high in the sky. Where would you want to go? What do you think the view would be like from up high? Hot air balloon pilots have wonderful adventures where they get to see things they have never seen before and learn all about the world outside. Flying a hot air balloon sounds like a lot of fun to some kids. But for other kids, the idea of flying off on their own away from their parents or homes doesn't sound like fun at all. What to Do When You Don't Want to Be Apart guides children and their parents through the emotions underlying separation anxiety using strategies and techniques based on cognitive behavioral principles. This interactive self help book is the complete resource for educating, motivating and empowering children to overcome separation anxiety so they can become the confident pilots of their very own hot air balloons. Includes an Introduction to Parents and Caregivers. This book is part of the Magination Press What to Do Guides for Kids series and includes an Introduction to Parents and Caregivers. What to Do Guides for Kids are interactive self help books designed to guide 6-12 year olds and their parents through the cognitive behavioral techniques most often used in the treatment of various psychological concerns. Engaging, encouraging and easy to follow, these books educate, motivate and empower children to work towards change. **Separation Anxiety** Christian Rivera, 2015

Separation anxiety disorder (SAD) is a common childhood anxiety disorder characterised by extreme anxiety in children due to the fear of separation from the primary attachment figure or from home. The authors of this book examine separation anxiety and sleep problems in infants, provide information on the pathophysiology of SAD and how it can affect the communication skills of children. Furthermore, separation anxiety can also occur in adults. The authors examine separation anxiety in parents of adolescent daughters and potential treatment options for adult separation anxiety disorder based on contemporary psychodynamic models. *Traumatic Grief* Selby Jacobs, 2016-03-23 First published in 1999, Routledge is an imprint of
