Watching the World Change David Friend, 2009-02-03 The terrorist attack on the World Trade Center was the most universally observed news event in human history That the event was so visual is owing to the people who facing disaster took photographs of it imperiled office workers horrified tourists professional photographers risking their lives Conceived by Osama bin Laden as the toppling of an image of America right before the world's eyes the tragedy swiftly came to be defined by photography as families posted snapshots of their loved ones police sought terrorists faces on security camera videotapes and officials recorded the devastation and identified the dead In *Watching the World Change* David Friend tells the stories behind fifty of the images that altered our sense of our world forever from the happenstance shots taken by bystanders as the first tower was struck to the scene of three firemen raising the Stars and Stripes at the site He tells unforgettable stories of photographers and rescuers victims and survivors He shows how advances in television digital photography and the Internet produced an effect whereby more than two billion people saw the terrible events as they happened He explores the controversy about whether images of 9/11 are redemptive or exploitative and he shows how photographs help us to witness to grieve and finally to understand the unimaginable

9/11 and the War on Terror David Holloway, 2008-05-19 This interdisciplinary study of how 9/11 and the war on terror were represented during the Bush era shows how culture often functioned as a vital resource for citizens attempting to make sense of momentous historical events that frequently seemed beyond their influence or control Illustrated throughout the book discusses representation of 9/11 and the war on terror in Hollywood film the 9/11 novel mass media visual art and photography political discourse and revisionist historical accounts of American empire between the September 11 attacks and the Congressional midterm elections in 2006 As well as prompting an international security crisis and a crisis in international governance and law David Holloway suggests the culture of the time also points to a crisis unfolding in the institutions and processes of republican democracy in the United States His book offers a cultural and ideological history of the period

Touching Photographs Margaret Olin, 2012-05-21 Photography does more than simply represent the world It acts in the world connecting people to form relationships and shaping relationships to create communities In this beautiful book Margaret Olin explores photography's ability to touch us through a series of essays that shed new light on photography's role in the world Olin investigates the publication of photographs in mass media

and literature the hanging of exhibitions the posting of photocopied photographs of lost loved ones in public spaces and the intense photographic activity of tourists at their destinations She moves from intimate relationships between viewers and photographs to interactions around larger communities analyzing how photography affects the way people handle cataclysmic events like 9 11 Along the way she shows us James VanDerZee s Harlem funeral portraits dusts off Roland Barthes s family album takes us into Walker Evans and James Agee s photo text Let Us Now Praise Famous Men and logs onto online photo albums With over one hundred illustrations Touching Photographs is an insightful contribution to the theory of photography visual studies and art history **Terror, Culture, Politics** Daniel J. Sherman, Terry Nardin, 2006 Taking a critical look at the politics of American culture in the wake of the 2001 terrorist attacks contributors offer a multi disciplinary approach in their examination of how our existing cultural patterns have shaped our response to it Trauma and the Memory of Politics Jenny Edkins, 2003-07-31 In this interesting study Jenny Edkins explores how we remember traumatic events such as wars famines genocides and terrorism and questions the assumed role of commemorations as simply reinforcing state and nationhood Taking examples from the World Wars Vietnam the Holocaust Kosovo and September 11th Edkins offers a thorough discussion of practices of memory such as memorials museums remembrance ceremonies the diagnosis of post traumatic stress and the act of bearing witness She examines the implications of these commemorations in terms of language political power sovereignty and nationalism She argues that some forms of remembering do not ignore the horror of what happened but rather use memory to promote change and to challenge the political systems that produced the violence of wars and genocides in the first place This wide ranging study embraces literature history politics and international relations and makes a significant contribution to the study of memory Liberty Means Freedom for All Steven H. Propp, 2012-11 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science It s an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his sett led view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand s philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christi an Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own

developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved
