He would have preferred it is true to do what most other priests did for he hated singularity in any shape but this was not a sufficient reason for running the risk of even partial failure before mixed congregations in a town where he was a stranger and at a time when from various causes the no popery feeling was particularly strong Neither does the change though he was past middle life when he made it seem to have been a difficulty to him Apparently he soon discovered that the thoughts that he had in his mind when he entered the pulpit developed themselves and took new shapes while he was speaking for the Notes which are now being published were for the most part written out not before but after the sermon About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
