Michael Lennon, 2022-11-01 This book of essays by Norman Mailer's biographer Dr J Michael Lennon collect personal and literary reminiscences insights and investigations from the last half century Through the rising action of his life in literature Lennon's remembrances track the influence not only of his literary pater familias Norman Mailer but his actual father a booze bitten blue collar bibliophile with his own reputation for genius and how together these mentors forged and focused the 20th literary vision Lennon takes to the work of some of the greatest writers of the Twentieth Century from Baldwin and Bishop to Didion and DeLillo and not least Mailer himself *A Historical Guide to Ralph Ellison* Steven C. Tracy, 2004-05-13 Ralph Ellison has been a controversial figure both lionized and vilified since he seemed to burst onto the national literary scene in 1952 with the publication of *Invisible Man* In this volume Steven C Tracy has gathered a broad range of critics who look not only at Ellison's seminal novel but also at the fiction and nonfiction work that both preceded and

followed it focusing on important historical and cultural influences that help contextualize Ellison's thematic concerns and artistic aesthetic. These essays, all previously unpublished, explore how Ellison's various apprenticeships in politics as a Black radical, in music as an admirer and practitioner of European American and African American music, and in literature as heir to his realist, naturalist, and modernist forebears affected his mature literary productions, including his own careful molding of his literary reputation. They present us with a man negotiating the difficult sociopolitical, intellectual, and artistic terrain facing African Americans as America was increasingly forced to confront its own failures with regard to the promise of the American dream to its diverse populations. These wide-ranging historical essays, along with a brief biography and an illustrated chronology, provide a concise yet authoritative discussion of a twentieth-century American writer whose continued presence on the stage of American and world literature and culture is now assured. **Redacted** Jonathan Abel, 2012-09-13

At the height of state censorship in Japan, more indexes of banned books circulated; more essays on censorship were published; more works of illicit erotic and proletarian fiction were produced; and more passages were Xed out than at any other moment before or since. As censors construct and maintain their own archives, their acts of suppression yield another archive filled with documents on, against, and in favor of censorship. The extant archive of the Japanese imperial censor, 1923-1945, and the archive of the Occupation censor, 1945-1952, stand as tangible reminders of this contradictory function of censors. As censors removed specific genres, topics, and words from circulation, some Japanese writers converted their offensive rants to innocuous fluff after successive encounters with the authorities. But another coterie of editors, bibliographers, and writers responded to censorship by pushing back, using their encounters with suppression as incitement to rail against the authorities and to appeal to the prurient interests of their readers. This study examines these contradictory relationships between preservation, production, and redaction to shed light on the dark valley attributed to wartime culture and to cast a shadow on the supposedly bright, open space of free postwar discourse. Winner of the 2010-2011 First Book Award of the Weatherhead East Asian Institute, Columbia University. *Framing Blackness* Ed Guerrero, 2012-06-20

A challenge to Hollywood's one-dimensional images of African Americans. **Born in the U. S. A.** Timothy E. Scheurer, 2014-05-27 This is the first study to explore fully the myth of America as reflected in the nation's popular music. Beginning with the songs of the Pilgrims and continuing through more than two centuries of history and music, *Born in the U. S. A.* shows the emerging American myth and gives a close reading of the compositions of songwriters as diverse as William Billings, Henry Clay Work, Irving Berlin, Woody Guthrie, Bob Dylan, and Bruce Springsteen. So that the full and diverse narrative of this complex nation might be recorded, this insightful study is focused both upon the national myth and upon the songwriters and performers representing subcultures and alternative viewpoints that are the text of America's story. Through hymnlike paeans and through discordant lamentations protesting the realities of the contemporary workaday world, popular music is an astonishing mirror of American history. *Twentieth Century American Literature* Warren French, 1980-11-01
