Babylon 5 chronicling the show's highs and lows and examining the legacy it left behind in genre television *From Starship Captains to Galactic Rebels* Kimberly Yost, 2013-12-12 Real world leaders hold the fates of companies, armies, and nations in their hands but the leaders portrayed in science fiction play for larger stakes. Their decisions determine the survival of species, planets, or reality itself. They tend therefore to be larger than life characters like Doc Savage, Obi Wan Kenobi, and Captain James T. Kirk. In *From Starship Captains to Galactic Rebels* Kimberly Yost brings the principles of leadership studies to bear on characters from a quarter century of classic science fiction television series, examining how their adventures can illuminate the challenges of real world leadership. These in-depth case studies cover a full range of science fictional leaders from conventional heroes such as Jonathan Archer of *Star Trek Enterprise* to William Adama and Laura Roslin, the dark conflicted protagonists of *Battlestar Galactica*. Charismatic rebels like Malcolm Reynolds of *Firefly* and the ragtag fugitives of *Farscape* stand alongside pillars of the establishment like John Sheridan of *Babylon 5*. In her analysis Yost considers emerging, flawed, and failed leaders as well as successful ones, women as well as men, and aliens as well as humans. An insightful examination of how leadership is represented on the small screen, *From Starship Captains to Galactic Rebels* will appeal not only to fans of televised science fiction but also to those grappling with the problems of leadership regardless of their species.

Tigerheart Peter David, 2009-05-12 Paul Dear is a good and clever boy but he's special in ways that even his adoring parents could never have imagined. For by day in London's Kensington Gardens he walks and talks with the pixies and sprites and other magical creatures that dwell among the living but are unseen by most. Then everything changes when tragedy strikes and a quest begins that will lead Paul to a curio shop where a magical ally awaits him and launches him into the starry skies bound for a realm where anything is possible. Far from home, Paul will run with fierce Indian warriors, cross swords with fearsome pirates, befriend a magnificent white tiger, and soar beside an extraordinary ageless boy who reigns in a boundless world of imagination.

Armies of Light and Dark Peter David, 2000 The Drakh have assaulted Earth with deadly Shadow technology but the worst is yet to come in this stunning continuation of the *Babylon 5* epic adventure. Centauri Prime has been infiltrated by malevolent allies of the Shadows, creatures known as the Drakh. While Centauri citizens continue to rebuild their war-torn planet, their secret masters work feverishly toward one ultimate goal: to crush the Interstellar Alliance once and for all. As the Drakh carry out their horrific plans, Emperor Londo Mollari languishes on his throne, a puppet of the Drakh, bred-keeper, an insidious creature that monitors his every thought, word, and action. While the emperor broods, the power-obsessed Lord Durla, an unwitting Drakh pawn, follows his own agenda. But Drakh control is not absolute. Vir Cotto, a most unlikely hero, has begun a resistance movement, and Alliance President John Sheridan has sent his most trusted troubleshooter, Michael Garibaldi, to investigate. Yet this move may prove costly, and though the Centauri continue to build a new military machine, the Alliance avoids any overt confrontation, hoping the problem will go away. They're about to discover how wrong they are.
