Looking Ahead Independent School Issues And Answers:

On Privilege, Fraudulence, and Teaching As Learning Peggy McIntosh, 2019-07-04 From one of the world's leading voices on white privilege and anti-racism work comes this collection of essays on complexities of privilege and power. Each of the four parts illustrates Peggy McIntosh's practice of combining personal and systemic understandings to focus on power in unusual ways. Part I includes McIntosh's classic and influential essays on privilege or systems of unearned advantage that correspond to systems of oppression. Part II helps readers to understand that feelings of fraudulence may be imposed by our hierarchical cultures rather than by any actual weakness or personal shortcomings. Part III presents McIntosh's Interactive Phase Theory highlighting five different world views or attitudes about power that affect school curriculum, cultural values, and decisions on taking action. The book concludes with powerful insights from SEED, a peer-led teacher development project that enables individuals and institutions to work collectively toward equity and social justice. This book is the culmination of forty years of McIntosh's intellectual and organizational work.

Tracing the threads Kelly J.D. Waldron, 2009-01-01 This text is a postmodern historical analysis that seeks to trouble the distinction between the private and the public that is traditionally drawn in educational history and theory by examining the histories of public schools and independent schools around the topics of identity, politics, accountability, and globalization. This work is unique in its focus on the histories of independent schoolings as being in dialogue with those of public schooling. Through a historical and theoretical examination of the dialogical space in between the private/public divide in education around these three interrelated topics, this work seeks to trouble the private/public distinction, exploring the possibilities and futurities for curriculum work and education in the postmodern space in between public schools and independent schools. It raises questions regarding what defines the structures of schooling in the United States as well as how contrasts between public and private spaces question traditional notions of democratic education.

Looking Ahead Patrick F. Bassett, Louis M. Crosier, 2004-06 From the fundamentals of hiring faculty to the adept management of complex social issues, gender bias in math class, meeting the needs of gay and lesbian students, discipline, this book stimulates important discussion by profiling model programs and suggesting paths toward improvement.

Love's Return Gail M. Boldt, Paula M. Salvio, 2012-11-12 The idea that teachers love children is often taken for granted in education. Rarely is the idea of love itself examined. Bringing together the work of educators, curriculum theorists, and clinical psychoanalysts and drawing upon autobiographical and narrative case studies, this groundbreaking collection examines the collision of love and learning, including the ways in which such intersections are provoked, repressed, and denied. Contributors turn to psychoanalysis to explore questions of love in all of its varying permutations: ambivalence, sexuality, hatred, desire, projection, and loss, in order to demonstrate how the social ramifications of such work are critical to the ways teachers are currently being prepared for life in the classroom.

Handbook of Research on Advancing Critical Thinking in Higher Education Wisdom, Sherrie, Leavitt, Lynda, 2015-07-17 The importance of

critical thinking has surged as academics in higher education realize that many students upon entering college lack the critical thinking skills necessary to succeed. While much has been written regarding the lack of critical thinking, less has been written on the success of methods implemented to develop this fundamental skill. *The Handbook of Research on Advancing Critical Thinking in Higher Education* explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies. Due to the difficulties associated with teaching critical thinking skills to learners of any age, this publication is a crucial addition to the scholarly reference works available to pre-service and early career teachers, seasoned educational professionals, professors across disciplines, curriculum specialists, and educational administrators.

Advanced Methodologies and Technologies in Modern Education Delivery Khosrow-Pour, D.B.A., Mehdi, 2018-09-21. Recent innovations and new technologies in education have altered the way teachers approach instruction and learning and can provide countless advantages. The pedagogical value of specific technology tools and the cumulative effects of technology exposure on student learning over time are two areas that need to be explored to better determine the improvements needed in the modern classroom. *Advanced Methodologies and Technologies in Modern Education Delivery* provides emerging research on educational models in the continually improving classroom. While highlighting the challenges facing modern in-service and pre-service teachers when educating students, readers will learn information on new methods in curriculum development, instructional design, and learning assessments to implement within their classrooms. This book is a vital resource for pre-service and in-service teachers, teacher education professionals, higher education administrative professionals, and researchers interested in new curriculum development.

Inquiry as Stance Marilyn Cochran-Smith, Susan L. Lytle, 2015-04-25. In this long-awaited sequel to *Inside/Outside Teacher Research and Knowledge*, two leaders in the field of practitioner research offer a radically different view of the relationship of knowledge and practice and of the role of practitioners in educational change. In their new book, the authors put forward the notion of inquiry as stance as a challenge to the current arrangements and outcomes of schools and other educational contexts. They call for practitioner researchers in local settings across the United States and around the world to ally their work with others as part of larger social and intellectual movements for social change and social justice. Part I is a set of five essays that conceptualize inquiry as a stance and as a transformative theory of action that repositions the collective intellectual capacity of practitioners. Part II is a set of eight chapters written by eight differently positioned practitioners who are or were engaged in practitioner research in K-12 schools or teacher education. Part III offers a unique format for exploring inquiry as stance in the next generation: a readers theatre script that juxtaposes and co-mingles 20 practitioners' voices in a performance-oriented format. Together, the three parts of the book point to rich possibilities for practitioner inquiry in the next generation.
