Isn't this the greatest time to be in the senior generation? We are the youngest looking, feeling, and thinking seniors that has ever graced the planet. These next years of our lives should be filled with peace, joy, and contentment, and we all have the capability to make them just that by using our attitude in the most upbeat and positive way. You can choose to have the most positive attitude in all areas of your life, which makes all the difference in how you feel. This guide is about making the most of our thoughts and how they can make our life peaceful and happy.

Anatomy of a Model Student Dr. Tyrone Bennett, 2015-09-24

The attempts of fixing our nation's school system since 1964 have not been a walk in the park. Several legislations and laws have been reformed to improve ways to implement the improvement plans in our school system. Looking back at the anatomy of our education system in the last fifty years brings up very few solutions as to what direction is righteously affordable for the next generation. Whether you talk about equality of education or legislation for the common standards for K12, what really matters is how well our next generation of youth is ready for the twenty-first century workforce and/or college pathways. This book was written on behalf of students, teachers, and parents who lack the understanding, guidance, stability, and hope in the twenty-first century educational system. This is a system of turmoil. We have seen changes over the last fifty years, yet millions of students from elementary to freshmen year in college are suffering academically. Many are failing, and few are making the grade. Our nation ranks below the top 20 worldwide in math and science, and we are not moving fast enough to change it. It is very important to note that students of all ages can benefit from this book to improve their education and get the much-needed support academically through counseling and mentoring. Parents and students need advisement. Students need to know what tools are available to succeed in their academic affairs, and parents need to know if those tools are adequate. Education is the key for success, and perseverance unlocks the door. This book opens the door to a rewarding career and best decision making for a prosperous future and allows students to grasp a better understanding of what it means to be educated. This book gives the essence of where we were and where we are headed. Many students don't know how to study and lack the understanding of why reading is important. Millions of students come to school with raw minds and starving brains. This book looks at the mind of a teenager and the brain. In this book, you'll learn about proper nutrition that will enhance the mind and spark the thinking cells. As you read this guide, you will learn more and more answers to readiness for the twenty-first century workplace and the needed skills to succeed. *Anatomy of a Model Student* dares to speak out on what's wrong with today's youth and behavior issues that hinder learning. This book is the bible of educational fitness for parents and educators alike. It will empower, encourage, and mesmerize its readers, so please read it to be wise, practice it to be educated.

Doing Educational Research, 2015-01-01

In the second edition of *Doing Educational Research*, we explore a variety of critical issues and methodologies. Authors include some of the most influential voices selected from across the spectrum of career disciplines. The scholars provide detailed insights into dimensions of the research process that engage both students and experienced researchers with key concepts and recent innovations in the art

of doing research The contributors adopt a stance that is practical as it introduces beginning scholars to social inquiry and innovative as it transforms the boundaries of conversations about educational research Doing Educational Research appears at a critical moment in which educational researchers are pushed to align with a pervasive scientism that embraces tenets of crypto positivism The book addresses logics of inquiry underpinning cutting edge approaches to educational research that extend far beyond limited visions that are presented through the lenses of positivism The chapters explore a variety of methodologies including action research bricolage ethnography hermeneutics historiography media based research psychoanalysis and conversation analysis in a matrix of social theory authentic inquiry critical pedagogy and differences in epistemology ontology and axiology A diverse array of complex topics are presented in accessible forms and will compel both scholars and students
