**Imagination in German Romanticism** Jeanne Riou, 2004 In German Romanticism the imagination is the site of the encounter between the subject and its environment this book examines that encounter Dealing with both literary and philosophical texts it argues that the Romantic imagination performs a critique of rationalism In reflecting on the fragmentary the Romantics require the reader to both imagine and to question this as a hermeneutic process As such they

understand writing to be an experiment in memory both individual and cultural This book is a study of the writings of E T A Hoffmann Novalis Tieck and also of the utopian project of Romanticism itself Methodologically it is informed by what Foucault termed the archaeological approach to discourse as well as by psychoanalysis and literary theory Examining points of contact as well of divergence between Kantian epistemology and Romantic nature philosophy it also highlights the correspondences between literature philosophy and science Above all it treats Romanticism as an experiment in the portrayal of ambivalent modern identity

*Tropics of Vienna* Ulrich E. Bach,2016-05 The Austrian Empire was not a colonial power in the sense that fellow actors like 19th century England and France were It nevertheless oversaw a multinational federation where the capital of Vienna was unmistakably linked with its eastern periphery in a quasi colonial arrangement that inevitably shaped the cultural and intellectual life of the Habsburg Empire This was particularly evident in the era s colonial utopian writing and *Tropics of Vienna* blends literary criticism cultural theory and historical analysis to illuminate this curious genre By analyzing the works of Leopold von Sacher Masoch Theodor Herzl Joseph Roth and other representative Austrian writers it reveals a shared longing for alternative social and spatial configurations beyond the concept of the nation state prevalent at the time

*Consuming the Body* Dawn Woolley,2022-09-08 *Consuming the Body* examines contemporary consumerism and the commodified construction of ideal gendered bodies paying particular attention to the new forms of interaction produced by social networking sites Describing the behaviours of an ideal neoliberal subject Woolley identifies modes of discipline forms of pleasure and opportunities for subversion in an examination of how individuals are addressed and the ways in which they are expected to respond Key modes of address that compel the

consumer to consume are sadistic commands communicated in adverts TV programmes and magazine articles a fetishistic gaze that dissects the body into parts to be improved through commodification and a hystericized insistent presence that compels the consumer to present their body for critique and appreciation that is exemplified in the selfie Woolley interprets the visual characteristics of different types of selfies including fitspiration thinspiration fatspiration and bodypositivity to understand how they relate to current body ideals Healthism and culture bound illnesses such as hysteria and eating disorders are examined to demonstrate the impact of commodified body ideals on consumers bodies An analysis of thinspiration images photographs of emaciated bodies shared on pro eating disorder blogs and websites suggests that the anorexic body represents the logical and fatal end point for the idealised body in consumer culture Fat acceptance selfies suggest there is a fourth mode of address empowering presence that has the potential to liberate consumers from the trap of visibleness produced by the other three modes of address In conclusion the book identifies some creative methods for producing selfies that evade commoditisation and discipline

### The Legacy of Nietzsche's Philosophy of Laughter Lydia

Amir, 2021-09-30 This book investigates the role of humor in the good life specifically as discussed by three prominent French intellectuals who were influenced by Nietzsche's thought Georges Bataille Gilles Deleuze and Clément Rosset Lydia Amir

begins by discussing Nietzsche's reception in France and she explains why and how he came to be considered a philosopher of laughter in the French academe. Each of the subsequent three chapters focuses on the significance of humor and laughter in the good life as advocated by Bataille, Deleuze, and Rosset. These chapters also explore the complex relationship between the comic and the tragic and of humor and laughter to irony, satire, and ridicule. *The Legacy of Nietzsche's Philosophy of Laughter* makes an invaluable contribution to recent interpretive work done on Bataille and Deleuze and offers further introduction to the relatively understudied Rosset. It illuminates the philosophies of these three thinkers, their connection to Nietzsche, and overall the significant role that humor plays in philosophy. *Bodycheck*, 2016-08-29. In ice hockey, the term body check refers to a specific move to gain control. It is a blow from body to body, a dynamic clash of physical strength which will determine the course of the game. In this book too, the body is checked and there is physical confrontation. Not in the hockey ring but on stage. This book deals with the body in contemporary performing arts. The focus is on exploring theoretical avenues and developing new concepts to grasp corporeal images more accurately. This theoretical research is confronted with the voice of artists whose work explicitly deals with the body. In-depth interviews with a.o. Meg Stuart, Wim Vandekeybus, Romeo Castellucci, Jérôme Bel, reveal a very broad range of views on the re-presentation of the body in today's performing arts. The combination of these two voices, the theoretician's and the artist's, shows that research by artists and cultural scientists is perfectly complementary. *Politics Out of History* Wendy Brown, 2018-06-05. What happens to left and liberal political orientations when faith in progress is broken when both the sovereign individual and sovereign states seem tenuous when desire seems as likely to seek punishment as freedom when all political conviction is revealed as contingent and subjective. *Politics Out of History* is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared. Wendy Brown diagnoses a range of contemporary political tendencies from moralistic high-handedness to low-lying political despair in politics, from the difficulty of formulating political alternatives to reproaches against theory in intellectual life as the consequence of this disorientation. *Politics Out of History* also presents a provocative argument for a new approach to thinking about history, one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present, by, for example, identifying the haunting and constraining effects of past injustices unresolved. Brown also argues for a revitalized relationship between intellectual and political life, one that cultivates the autonomy of each while promoting their interlocutory potential. This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers: Freud, Marx, Nietzsche, Spinoza, Benjamin, Derrida, to rethink democratic possibility in our time. **Law and the Visual** Desmond Manderson, 2018-01-01. In *Law and the Visual*, leading legal theorists, art historians, and critics come together to present new work examining the intersection between legal and visual discourses. Proceeding chronologically, the volume offers leading analyses of the juncture between legal and visual culture as witnessed from the fifteenth to the twenty

first centuries Editor Desmond Manderson provides a contextual introduction that draws out and articulates three central themes visual representations of the law visual technologies in the law and aesthetic critiques of law A ground breaking contribution to an increasingly vibrant field of inquiry Law and the Visual will inform the debate on the relationship between legal and visual culture for years to come *Deleuze and Anarchism* Chantelle Gray Van Heerden,2019-02-20 This provocative study forges new and creative connections between Deleuzian philosophy and contemporary film studies

**Lacan and Deleuze** Bostjan Nedoh,2016-10-26 It is often said that Lacan is the most radical representative of structuralism a thinker of negativity and alienation whereas Deleuze is pictured as a great opponent of the structuralist project a vitalist and a thinker of creative potentialities of desire It seems the two cannot be further apart This volume of 12 new essays breaks the myth of their foreignness if not hostility and places the two in a productive conversation By taking on topics such as baroque perversion death drive ontology topology face linguistics and formalism the essays highlight key entry points for a discussion between Lacan's and Deleuze's respective thoughts The proposed lines of investigation do not argue for a simple equation of their thoughts but for a disjunctive synthesis which acknowledges their differences while insisting on their positive and mutually informed reading **Philosophy and Kafka** Brendan Moran,Carlo Salzani,2013-04-19 The relationship of philosophy with Kafka's oeuvre is complex It has been argued that Kafka's novels and stories defy philosophic extrapolation conversely it has also been suggested that precisely the tendency of Kafka's writings to elude discursive solution is itself a philosophical tendency one that is somehow contributing to a wiser relationship of human beings with language These matters are the focus of the proposed volume on Philosophy and Kafka The proposed collection brings together essays that interrogate the relationship of philosophy and Kafka and offer new and original interpretations The volume obviously cannot claim completeness but it partially does justice to the multiplicity of philosophical issues and philosophical interpretations at stake This variety informs the composition of the volume itself A number of essays focus on specific philosophical commentaries on Kafka's work from Adorno's to Agamben's from Arendt's to Benjamin's from Deleuze and Guattari's to Derrida's A number of essays consider the possible relevance of certain philosophical outlooks for examining Kafka's writings here Kafka's name goes alongside those of Socrates Kant Kierkegaard Nietzsche Wittgenstein Buber Heidegger Blanchot and Levinas Finally a number of essays consider Kafka's writings in terms of a specific philosophical theme such as communication and subjectivity language and meaning knowledge and truth the human animal divide justice and freedom In all contributions to the volume such themes motifs and interpretations arise To varying degrees all essays are concerned with the relationship of literature and philosophy and thus with the philosophical significance of Kafka's writings
