

The book cover features a dark, moody photograph of a forest. Tall, slender trees are silhouetted against a lighter, hazy background. A bright light source, possibly the sun or moon, is visible in the upper right corner, creating a lens flare effect. The overall tone is contemplative and spiritual.

Religions and the Truth Hendrik M Vroom, 1990 **Answers... to the Difficult Questions** Dennis Waite, 2020-03-27
All spiritual seekers encounter problems A question arises which appears to challenge the veracity of their chosen path If an answer is not found quickly there is a great danger that the particular teaching will be abandoned and another sought Dennis Waite draws on traditional Advaita teachings to answer all seeker related questions He first invited questions to his website in 2005 and this book collects questions and answers in a comprehensive volume for experienced and new spiritual seekers One answer often leads to a new worry and his website adavaita vision org continues to accept questions No question is too difficult for Advaita Vedanta and all answers are reasonable **Krsna and Christ** Steven Tsoukalas, 2011-09-01 This work compares the Krsnavatara Krsna in his avatara doctrines of Sankara and Ramanuja and the incarnation of Christ as represented by classical Christian orthodoxy and draws out comparative theological and soteriological implications It does so first by examining the epistemologies theologies and world views of Sankara and Ramanuja and the theology and world view of classical Christian orthodoxy so that second an adequate foundation and subsequent thorough representation of avatara and incarnation might be accomplished in order that third accurate comparisons may be drawn between avatara and incarnation The result of this study is a demonstration that many of the popularly held similarities between avatara and incarnation are superficial and that therefore careful consideration of epistemologies and ontologies should be undertaken when comparing theologies and soteriologies pertinent to avatara and incarnation *Mūlamadhyamakakārikā of Nāgārjuna* Nāgārjuna, David J. Kalupahana, 1991-01-01 This is completely new translation of Nagarjuna s major work accompanied by a detailed annotation of each of the verses The annotations identify the metaphysical theories of the scholastics criticized by Nagarjuna and trace the source material and arguments utilized in his refutation back to the early discourses of the Buddha

Plantingian Religious Epistemology and World Religions Erik Baldwin, Tyler Dalton McNabb, 2018-11-29 To what extent can non Christian religious traditions utilize Plantinga s epistemology And if there are believers from differing religious traditions that can rightfully utilize Plantinga s religious epistemology does this somehow prevent a Plantingian s creedal specific religious belief from being warranted In order to answer these questions Baldwin and McNabb first provide

an introduction to Plantinga's religious epistemology. Second they explore the prospects and problems that members of non-Christian religions face when they attempt to utilize Plantingian religious epistemology. Finally they sketch out possible approaches to holding that a Plantingian's creedal specific religious belief can be warranted even given believers from other religious traditions who can also rightfully make full use of Plantinga's religious epistemology.

Natural Realism and Contact Theory of Perception Chittaranjan Naik, 2019-09-27 If you were told that we perceive the world directly without the causal intervention of the physical brain or that we see the distant stars instantaneously without their light having to reach our sense organs would the idea sound incredible to you. Farfetched as it may seem this idea the author argues comes from the time tested contact theory of perception. Upheld by the Indian philosophical tradition for over 2000 years it unfolds a definitively coherent process of perception unlike the stimulus response theory of perception espoused by empirical science which suffers from a host of logical inconsistencies. The contact theory of perception is a paradigm changing theory and it has the potential to take us to a domain of knowledge beyond science and to cause a radical transformation in the way we look at the universe we live in. Although a serious philosophical work the language and lucid style of the presentation should appeal to a wide spectrum of people from academic philosophers to curious aspirants. If philosophy or the philosophical traditions of India interests you you cannot afford to ignore this book. But be forewarned it will challenge the deep rooted ideas that have become integral to your personal consciousness.

Know Then Thyself Herman Jank, 2020-10-01 Nostalgia for rural agrarian personalism has churches teaching as if the world at hand were not now impersonally profiteering urban industrial. This world can be saved from divisive devastation not by wishful wistful credence but only by world serving consecration that looks beyond both terrestrial consumption and celestial redemption.

The Book of One Dennis Waite, 2010-05-11 A comprehensive yet entertaining introduction to Advaita the non dual philosophy which provides a completely reasonable explanation for who we are and the nature of the universe. There are many self help approaches promising enlightenment and happiness but most are illogical and lack any proven capability. Advaita has a guru disciple tradition stretching back for several thousand years and can guarantee the sincere seeker a progressive path to self realization. A 21st Century treatment of this ancient eastern philosophy this book addresses all of the issues that are covered by both traditional teachers from the lineage of Shankara and by modern satsang teaching and Direct Path methods stemming from Ramana Maharshi and Krishna Menon. Topics are explained in an accessible and readable manner using amusing quotations and stories along with an abundance of metaphors from a wide variety of sources.
