Green, R. Meagher, T. Millon, 2012-12-06 We seek to throw down the gauntlet with this handbook challenging the hegemony of the behavioral medicine approach to the psychological study and treatment of the physically ill This volume is not another in that growing surfeit of texts that pledge allegiance to the doctrinaire purity of behavioristic thinking or conceptualize their subject in accord with the sterility of medical models Diseases are not our focus nor is the narrow band of behavioral assessment and therapy methodologies Rather we have sought to redefine this amorphous yet burgeoning field so as to place it squarely within the province of a broadly based psychology specifically the emerging substantive discipline of health psychology and the well established professionalism and diverse technologies of clinical psychology The handbook's title Clinical Health Psychology reflects this reorientation explicitly and Chapter 1 addresses its themes and provides its justifications more fully In the process of developing a relevant and comprehensive health assessment tool the editors were struck by the failure of clinical psychologists to avail themselves of the rich vein of materials that comprise the psychosocial world of the physically ill Perhaps more dismaying was the observation that this field was being mined less than optimally by physicians and nonclinical psychologists **The SAGE Handbook of Social Studies in Health and Medicine** Susan C. Scrimshaw, Sandra D. Lane, Robert A. Rubinstein, Julian Fisher, 2021-12-01 With new chapters on key topics such as mental health the environment race ethnicity and health and pharmaceuticals this new edition maintains its multidisciplinary framework and bridges the gap between health policy and the sociology of health It builds upon the success of the first by encompassing a range of issues studies and disciplines The broad coverage of topics in addition to new chapters present an engagement with contemporary issues resulting in a valuable teaching aid This second edition brings together a diverse range of leading international scholars with contributors from Australia Puerto Rico USA Guatemala Germany Sri Lanka
