Ochoa, 2001-09-01 Winner of the 1998 Michael C Meyer Manuscript Prize Feeding Mexico The Political Uses of Food since 1910 traces the Mexican government's intervention in the regulation production and distribution of food from the days of Cardenas to the recent privatization inspired by NAFTA Professor Ochoa argues that the real goals of the government's food subsidies were political driven by presidential desires to court urban labor Many of the agencies and policies were hastily set in place in response to short term political or economic crises Since the goals were not to alleviate poverty but to provide modest subsidies to urban consumers the policies did not eliminate destitution or malnutrition in the country Despite the minimal achievements of these interventionist policies the State Food Agency provided a symbol of the state's concern for the workers The elimination of the Agency in the 1990s prompted social protest and unrest Feeding Mexico is the first study to examine the creation of networks to deliver food products the relationship of these channels of distribution to the food crisis and the role of the state in trying to ameliorate the problem Based on exhaustive research of new archival material and richly documented with statistical tables this book exposes the dynamics and outcome of social policy in twentieth century Mexico **The Politics of Property Rights**

Stephen Haber, Noel Maurer, Armando Razo, 2003-05-26 This book addresses a puzzle in political economy why is it that political instability does not necessarily translate into economic stagnation or collapse In order to address this puzzle it advances a theory about property rights systems in many less developed countries In this theory governments do not have to enforce property rights as a public good Instead they may enforce property rights selectively as a private good and share the resulting rents with the group of asset holders who are integrated into the government Focusing on Mexico this book explains how the property rights system was constructed during the Porfirio Diaz dictatorship 1876 1911 and then explores how this property rights system either survived or was reconstructed The result is an analytic economic history of Mexico under both stability and instability and a generalizable framework about the interaction of political and economic institutions

James, 2013-12-01 Although Mexico's Constitution of 1917 mandated the division of large landholdings provided land for the landless and guaranteed workers the rights to organize strike and bargain collectively it also guaranteed fundamental liberal rights to property and due process that enabled property owners and employers to resist the implementation of the new social rights by filing suit in federal

court Taking as its main focus the way new and old rights were adjudicated before the Supreme Court this book is the first to examine the subject through the lens of court documents and the writings and commentaries of jurists and other legal professionals The author asks and answers the question how did the judicial interpretation of the Constitution of 1917 become a barrier to implementing agrarian land rights and labor legislation in the years immediately following Mexico s social revolution of 1910
