Michael Heizer:

Michael Heizer: The Once and Future Monuments William L. Fox, 2019-09-24 The most comprehensive account available of Michael Heizer's art by a writer and curator who has critical experience with the artist and his work Michael Heizer is among the greatest and often least accessible American artists As one of the last living figures who launched the Land Art movement his legacy of works that are literally and metaphorically monumental has an incalculable influence on the world of sculpture and environmental art But his seclusion in the remote Nevada desert as well as his notorious obduracy have resulted in significant gaps in our critical understanding Michael Heizer *The Once and Future Monuments* spans the breadth of Heizer's career uniquely combining fieldwork personal narrative and biographical research to create the first major assessment in years of this titan of American art Author William L. Fox founding director of the Center for Art Environment at the Nevada Museum of Art has alternately been a sponsor advocate and critic of Heizer's work for decades Fox's understanding of the artist's history and connection to landscape his time spent with Heizer at the remote ranch where Heizer is finishing his magnum opus the mile long sculpture *City* and his access to some of Heizer's key associates give him a unique position from which to discuss the artist's work Fox has also made numerous site visits to Heizer's work including early pieces in the Nevada desert now largely lost to the elements to correct the often inconsistent accounts of their locations Last Fox imparts a crucial new understanding of Heizer's work by elaborating on the artist's bond with his father the famed archaeologist and cultural ecologist Robert Heizer who enlisted his son on important digs in Mexico and Peru providing the young man with an appreciation of site landscape and geology that would thoroughly inform his work Michael Heizer *The Once and Future Monuments* is a long overdue addition to the critical and biographical literature of this major figure in American art Michael Heizer Michael Heizer, **Michael Heizer** Germano Celant, Michael Heizer, 1997 This artist's work modernist and bold often re problematizes the relation between man and nature challenging how space is demarcated and related to Largely known in the United States for work which involved driving a motorcycle in the desert to create massive mysterious patterns this publication is the first full scale presentation of his ideas Heizer's huge sculptures and semi geometrical patterns in the desert are a bold act of large scale markmaking while also suggesting the more troublesome aspects of man's use of nature With more than 500 pages of reproductions spanning all stages of his career this is the most extensive publication on the artist ever produced *Michael Heizer* Michael Heizer, Ruth Fine, 1988 **Michael Heizer** Michael Heizer, 1979 Michael Heizer Michael Heizer, Mark C. Taylor, 1991 Created with bulldozer and dynamite in 1969 in the vast expanse of the Nevada desert Michael Heizer's *Double Negative* was one of the first and remains among the most influential of the monumental earthworks sculptures in and of the land a 1 500 foot incision on the edge of a mesa 80 miles from Las Vegas its site is now officially part of the collection of The Museum of Contemporary Art in Los Angeles captured in this book with 25 oversized plates that document the sculpture's creation and impart a sense of its scale Cover Michael
