Michael Manley Making Of A Leader:

Michael Manley Darrell E. Levi, 1989 **The Influence of Small States on Superpowers** Richard L. Bernal, 2015-07-22 The conventional wisdom is that small developing countries exert limited if any influence on the foreign policy of superpowers in particular the United States This book challenges that premise based on the experience of the small developing country of Jamaica and its relations with the United States It raises the question if the foreign policy of the United States can be influenced by even a small developing country should Washington be worried *Our Woman in Jamaica* James Ward, Sometimes the ballot box and the bullet aren't incompatible Jamaica 1980 A general election is in the offing The left of centre People's National Party stands a chance of winning a third term of radical social reform Ties with Russia and Cuba will likely be strengthened The IMF will be shown the door Newly hatched revolutionary movements like the Sandinistas in Nicaragua and the JRG in El Salvador will take firm encouragement The powers that be in London or Washington are not prepared to countenance any of that Not at all Unfortunately the only person available to address the situation is someone the Brits would rather not acknowledge At just twenty five Ruby Parker and MI6 have a fractious shared history She has already been written off by just about everyone in that organisation who matters Written as a prequel to the other books in the Tales of MI7 series *Our Woman in Jamaica* can be enjoyed by old and new readers alike Critical Interventions in Caribbean Politics and Theory Brian Meeks, 2014-11-27 These essays by Brian Meeks a noted public intellectual in the Caribbean reflect on Caribbean politics particularly radical politics and ideologies in the postcolonial era But his essays also explain the peculiarities of the contemporary neo liberal period while searching for pathways beyond the current plight In the first chapters titled Theoretical Forays Meeks makes a conscious attempt to engage with contemporary Caribbean political thought at a moment of flux and search for a relevant theoretical language and style to both explicate the Caribbean's recent past and confront the difficult conditions of the early twenty first century The next part Caribbean Questions both retrospective and biographical retraces the author's own engagement with the University of the West Indies UWI the short lived but influential Caribbean Black Power movement the work of seminal Trinidadian thinker and activist Lloyd Best Cuba's relationship with Jamaica and the crisis and collapse of the Grenadian Revolution As evident in its title *Jamaican Journeys* the concluding section excerpts and extracts from a longer more sustained engagement with Jamaican politics and society Much of Meeks argument builds around the notion that Jamaica faces a crucial moment as the author seeks to chart and explain its convoluted political path and dismal economic performance over the past three decades Meeks remains surprisingly optimistic as he suggests that despite the emptying of sovereignty in the increasingly globalized world windows to enhanced human development might open through policies of greater democracy and popular inclusion *The Fear Factor: an Analysis of Crime in Jamaica and the Search for Solutions* Don Barker, 2005-11 *Positive Vibrations* Stuart Borthwick, 2022-05-09 From Marcus Garvey and Rastafarianism to today's ubiquitous dancehall riddims a comprehensive and

impassioned exploration of reggae Positive Vibrations tells of how reggae was shaped by and in turn helped to shape the politics of Jamaica and beyond from the rudies of Kingston to the sexual politics and narcotic allegiances of the dancehall Insightful and full of incident it explores how the music of a tiny Caribbean island has worked its way into the heart of global pop From Marcus Garvey s dreams of Zion through ska and rocksteady roots riddims and dub the story closes with the Reggae Revival a new generation of Rastas as comfortable riding rhythms in a dancehall style as they are singing sweet melodies from times gone by Impeccably informed vibrant and heartfelt Positive Vibrations is a passionate and exhaustive account of the politics in reggae and the reggae in politics

Worldmaking After Empire Adom Getachew,2020-04-28 Decolonization revolutionized the international order during the twentieth century Yet standard histories that present the end of colonialism as an inevitable transition from a world of empires to one of nations a world in which self determination was synonymous with nation building obscure just how radical this change was Drawing on the political thought of anticolonial intellectuals and statesmen such as Nnamdi Azikiwe W E B Du Bois George Padmore Kwame Nkrumah Eric Williams Michael Manley and Julius Nyerere this important new account of decolonization reveals the full extent of their unprecedented ambition to remake not only nations but the world Adom Getachew shows that African African American and Caribbean anticolonial nationalists were not solely or even primarily nation builders Responding to the experience of racialized sovereign inequality dramatized by interwar Ethiopia and Liberia Black Atlantic thinkers and politicians challenged international racial hierarchy and articulated alternative visions of worldmaking Seeking to create an egalitarian postimperial world they attempted to transcend legal political and economic hierarchies by securing a right to self determination within the newly founded United Nations constituting regional federations in Africa and the Caribbean and creating the New International Economic Order Using archival sources from Barbados Trinidad Ghana Switzerland and the United Kingdom Worldmaking after Empire recasts the history of decolonization reconsiders the failure of anticolonial nationalism and offers a new perspective on debates about today s international order

Leftist Internationalisms Michele Di Donato,Mathieu Fulla,2023-01-26 This volume offers a new

perspective on the political history of the socialist communist and alternative political Lefts focusing on the role of networks and transnational connections Embedding the history of left wing internationalism into a new political history approach it accounts for global and transnational turns in the study of left wing politics The essays in this collection study a range of examples of international engagement and transnational cooperation in which left wing actors were involved and explore how these interactions shaped the globalization of politics throughout the 20th century In taking a multi archival and methodological approach this book challenges two conventional views that the left gradually abandoned its original international to focus exclusively on the national framework and that internationalism survived merely as a rhetorical device Instead this collection highlights how different currents of the Left developed their own versions of internationalism in order to adapt to the transformation of politics in the interdependent 20th century world Demonstrating the importance of political convergence alliance formation network construction and knowledge circulation within and between the socialist and communist movements it shows that the influence of internationalism is central to understanding the foreign policy of various left wing parties and movements
