Latinidad in Chicago's highly segregated Near Northwest Side he links public discourse concerning the rising prominence of U.S. Latinidad to the institutional management and experience of raciolinguistic identities there. Anxieties surrounding Latinx identities push administrators to transform at-risk Mexican and Puerto Rican students into young Latino professionals. This institutional effort, which requires students to learn to be and importantly sound like themselves in highly studied ways, reveals administrators' attempts to navigate a precarious urban terrain in a city grappling with some of the nation's highest youth homicide, dropout, and teen pregnancy rates. Rosa explores the ingenuity of his research participants' responses to these forms of marginalization through the contestation of political, ethnoracial, and linguistic borders.

I Was a Tree Once
Honors English Iii, 2008-06

Why are we capable of such dignified ascension of the average and expected? It's probably because we have never been either. Our English class has a unique chemistry that rivals that of the Curies. Settling disputes through Jenga wars and daring to decry influential literature, we demand nothing less than passion. Emotions run high when Jenga blocks waver, swaying with our expectations. Every class member leans in with bated breath and often baiting words transfixed to the point of enchantment. However, we have learned to transfer our frustration at the toppling Jenga tower into driving excitement in Socratic forums. This driving emotion force has fueled our late-night reading and early-morning classes. Emotion-inspired dedication to the book you now grasp. It is the emotion of a class all its own, and this is ours.
