VERY practical on target for schools today. Good balance of theory with anecdotal connections. At first I was worried about the time involved. I discovered when given 5 minutes the time is a continuation to their work in progress. Realizing that creativity does not have to consume large chunks of time is more meaningful than tokens. I like the tone of the writing. It feels like there is a conversation going on. I like the stories of famous people and how their creativity influenced and changed their lives. CREATIVITY FOR 21ST CENTURY SKILLS describes what many creative people really do when they create. It focuses on the practical applications of a theoretical approach to creativity training the author has developed. Many suggestions for enhancing creativity focus on ideas that are over 60 years old. This new approach may be helpful for those seeking to develop 21st Century Skills of creativity. Five core attitudes: Naïveté, Risk taking, Self Discipline, Tolerance for Ambiguity and Group Trust. Seven I's: Inspiration, Intuition, Improvisation, Imagination, Imagery, Incubation and Insight and several General Practices. The use of ritual, meditation, solitude, exercise, silence and a creative attitude to the process of life with corresponding activities are described, discussed and illustrated. A discussion of how to be creative within an educational institution is also included. JANE PIIRTO is Trustee Distinguished Professor at Ashland University. Her doctorate is in educational leadership. She has worked with students pre-K to doctoral level as a teacher, administrator and professor. She has published 11 books, both literary and scholarly, and many scholarly articles in peer-reviewed journals and anthologies as well as several poetry and creative nonfiction chapbooks. She has won Individual Artist Fellowships from the Ohio Arts Council in both poetry and fiction and is one of the few American writers listed as both a poet and a writer in the Directory of American Poets and Writers. Wassily Kandinsky, 1866-1944 Hajo Düchting, Wassily Kandinsky, 2000. The founder of abstract art. The Russian painter Wassily Kandinsky 1866-1944 who later lived in Germany and France is one of the pioneers of twentieth-century art. Nowadays he is regarded as the founder of abstract art and is moreover the chief theoretician of this type of painting. Together with Franz Marc and others he founded the group of artists known as the Blaue Reiter in Munich. His art then freed itself more and more from the object eventually culminating in the First Abstract Watercolour of 1910. In his theoretical writings Kandinsky repeatedly sought the proximity of music and just as in music where the individual notes constitute the medium whose effect stems from harmony and euphony Kandinsky was aiming for a pure concord of colour through the interplay of various shades. Gauguin had demanded that everything must be sacrificed to pure colours. Kandinsky was the first to realise this and thus to influence a whole range of artists. About the Series.
