News ,1892 Everyday Engineering Magazine ,1917 *Historical Dictionary of British Theatre* Darryll Grantley,2013-10-10 British theatre has a greater tradition than any other having started all the way back in 1311 and still going strong today But that is too much for one book to cover so this volume deals with early theatre and has a cut off date in 1899 Still this is almost six centuries centuries during which British theatre not only developed but produced some of the greatest playwrights of all time and anywhere including obviously Shakespeare but also Marlowe and Shaw And they wrote some of the finest plays ever which are known around the world So there is plenty for this book to cover just with the playwrights plays and actors but it also has information on stagecraft and theatres as well as the historical and political background This book has over 1 183 entries in the dictionary section these being mainly on playwrights and plays but others as well including managers and critics and also on specific theatres legislative acts and some technical jargon Then there are entries on the different genres from comedy to tragedy and everything in between Inevitably the chronology is quite long as it has a long period to cover and the introduction provides the necessary overview The Historical Dictionary of Early British Theatre concludes with a pretty massive bibliography That will be of use to particularly assiduous researchers but this book itself is a good place to start any research since it covers periods that are far less well known and documented and ordinary theatre goers will also find useful information Theatre Buildings Association of British Theatre Technicians (ABTT),Margaret Shewring,2024-02-20 In 2021 its Diamond Jubilee year the Association of British Theatre Technicians ABTT undertook to revise Theatre Buildings A Design Guide Routledge 2010 This new edition Routledge 2023 has substantially re written text with fresh images and entirely new reference projects providing essential guidance for all those engaged in the design of theatre buildings Edited by Margaret Shewring Emeritus Reader University of Warwick former Director of the Postgraduate Diploma and MA in Theatre Consultancy this new publication is written by a team of international experts architects theatre consultants acousticians engineers and industry professionals led by Tim Foster Foster Wilson Size and Robin Townley CEO of the ABTT It provides an invaluable resource for those looking to build remodel or conserve theatre buildings taking into account the significant changes which have taken place in the last twelve years in all aspects of theatre design and technical practice It locates those changes in the wider context of the need for sustainability in the theatre industry in response to the climate emergency inclusivity diversity of access placemaking and concerns for health and
