

Concise Writing

- ▶ Concise writing is different from summarizing.
- ▶ When you summarize, you are taking a document, website, series of reports, or other large amount of text and condensing it down to its main points.
- ▶ When you write concisely, you maintain main ideas, supporting details, examples, description, etc.
- ▶ But, you are writing in short, clear sentences with active voice and strong verbs.
- ▶ In other words, when you write concisely, you keep the content but change the style

The paper presents a methodology for measuring the clarity of central bank communication, illustrating it with the case of the European Central Bank (ECB) in 1999-2007. The analysis identifies the ECB's written communication as clear about 95 percent of instances, which is comparable to or even better than other central banks for which a similar analysis is available. We also find that the additional information contained in the ECB's Monthly Bulletins helps to improve communication clarity compared to ECB's press releases. In particular, the Bulletins contain useful clarifying information on individual inflation factors and the overall forecast risk. In contrast, the bulletin's communication on monetary shocks has a negative, albeit small, impact on clarity.
