Chung, 2024-07-19 People love their metaphors for the Bible The Bible is a sword a mirror a script a score a cathedral a rule book a user s manual a lamp a love letter But how did metaphor which in the eighteenth century was seen as a deceptive rhetorical trick become such a prominent tool for speaking of Scripture And how does one judge between a good metaphor and a bad one This book explores the theological use of metaphor to describe the nature and interpretation of Scripture It interrogates three such models the Bible as musical score Anthony Thiselton the Bible as theo dramatic script Kevin Vanhoozer and the Bible as light John Feinberg seeking to evaluate their faithfulness to

Scripture and church tradition their fittingness to the current culture and their fruitfulness for understanding and practicing the biblical text The author then proposes and explores what he considers a better model one drawn from the Bible itself namely that of Scripture as food **Models of God and Alternative Ultimate Realities** Jeanine Diller,Asa

God and the Processes of Reality David A. Pailin, 2024-12-06 Can belief in God be rational David A Pailin identifies the reasons behind this questioning of theistic faith in his book *God and the Processes of Reality* originally published in 1989 and demonstrates how the supposed incoherences in the concept of God are due to the generalization of partial insights He establishes the basic character of the concept of God and examines the nature of the major attributes of the divine and of the relationship of God to the processes of reality looking at God as creator the relation of God to historical events and the role of God as the basis for individual fulfilment The book takes up many of the insights developed by Whitehead and Hartshorne in what is commonly known as process thought Pailin explains these insights and counters common misapprehensions about them critically sometimes radically so to present a credible understanding of the God of theistic belief and a coherent understanding of the relationship of that God to the processes of reality This book will be of interest to students and

researchers of religion and philosophy **An Incarnational Model of the Eucharist** James Arcadi, 2018-05-31 Updates a neglected incarnational motif with contemporary conceptual resources to propose a novel model of Christ's presence in the Eucharist *Lectures in the History of Political Thought* Michael Oakeshott, 2011-10-24 Oakeshott's memorable lectures on the history of political thought delivered each year at the London School of Economics will now be available in print for the first time as Volume II of his *Selected Writings* Based on manuscripts in the LSE archive for 1966-67 the last year of Oakeshott's tenure as Professor of Political Science these thirty lectures deal with Greek Roman mediaeval and modern European political thought in a uniquely accessible manner Scholars familiar with Oakeshott's work will recognize his own ideas subtly blended with an exposition carefully crafted for an undergraduate audience those discovering Oakeshott for the first time will find an account of the subject that remains illuminating and provocative *A New Handbook of Christian Theologians* Donald W. Musser, 1996 In recent years the flow of Christian theology has been channeled in diverse streams represented by such trends and movements as black theology liberation theology feminist theology and womanist theology To survey this abundance and diversity of current Christian theology this book examines the theologies of representative theologians Particularly to help students navigate the sea of information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith *Pneuma and Logos* John W. Wyckoff, 2010-09-01 The role of the Holy Spirit in the writing of Scripture and the role of the Holy Spirit in the understanding of Scripture are corollary ideas The first one of these usually referred to as the Inspiration of Scripture has been extensively discussed by the Early Church Fathers theologians and other Bible scholars from the earliest centuries of the Church until the present Likewise the second of these corollary ideas the role of the Holy Spirit in the understanding of Scripture has been widely considered from the time of the Early Church Fathers However this idea usually referred to as the Illumination of Scripture has not been as extensively discussed as the corollary doctrine of Inspiration Consequently many aspects of the Holy Spirit's relationship to Biblical Hermeneutics remain open for fruitful discussion The notion that the Holy Spirit plays some role in the interpretative process of understanding Scripture raises many issues and questions Does the Holy Spirit even play any role at all in the interpretative process If so what then is the role of the human interpreter in relationship to that of the Holy Spirit Can the Holy Spirit's role be conceptualized in some meaningful way If and when the Holy Spirit plays a role in interpretation what difference does it make in the outcome of understanding This book intends to further the discussion of these and other issues related to the idea of the role of the Holy Spirit in Biblical Hermeneutics It briefly surveys both past and contemporary thought on this theme It then suggests how the Holy Spirit's role might be conceptualized Since this conceptualization is

necessarily metaphorical various models are presented as vehicles for furthering discourse on the subject Finally it attempts to describe the results of the Holy Spirit s activity of illumination and suggests areas for further study on the topic **The Sacred Cosmos** Terence L. Nichols,2009-01-07 Explores the synthesis of contemporary science basic Thomistic philosophy and Christian theology Back cover *Stages of Thought* Michael Horace Barnes,2009-07-15 This work approaches the question of the relationship of religious to scientific thought The author argues that they evolved together and are therefore complementary [A Theology of Luke and Acts](#) Darrell L. Bock,2015-04-28 This groundbreaking work by Darrell Bock thoroughly explores the theology of Luke s gospel and the book of Acts In his writing Luke records the story of God working through Jesus to usher in a new era of promise and Spirit enablement so that the people of God can be God s people even in the midst of a hostile world It is a message the church still needs today Bock both covers major Lukan themes and sets forth the distinctive contribution of Luke Acts to the New Testament and the canon of Scripture providing readers with an in depth and holistic grasp of Lukan theology in the larger context of the Bible I Howard Marshall A remarkable achievement that should become the first port of call for students in this central area of New Testament Theology Craig S Keener Bock s excellent exploration of Luke s theological approach and themes meets an important need in Lukan theology
