**Ethnopsychiatry** Atwood D. Gaines,1992-08-17 This book outlines a new ethnopsychiatry one that considers popular or folk ethnomedicines and professional psychiatric systems in the same discourse effacing the traditional distinction between psychiatry and ethnopsychiatry The essays in this volume are from a diverse interdisciplinary group representing history psychology sociology and medicine as well as anthropology The author view both ethnomedical practices and illness as local cultural constructions They consider ideologies and institutions from both professional and popular ethnopsychiatric systems in America Western Europe South Africa the Caribbean Japan and India The book demonstrates that professional and popular psychiatric medicines lie along the same local cultural continua that professional scientific psychiatries and less formalized systems of local popular psychology are epistemological relatives aspects of common cultural discourses on normality and abnormality The essays reject the notion of a universal uniform reality of psychopathology beyond cultural boundaries but the data strongly support the cultural and historically constructed nature of ethnopsychiatry in its illness ideologies and institutions Contributors to this volume include Amy V Blue Thomas Csordas Ellen Dwyer Paul E Farmer M D Atwood D Gaines Helena Jia Hershel Janis Jenkins Pearl Katz Thomas Maretzki Naoki Nomura Charles Nuckolls Kathryn Oths Lorna Amarasingham Rhodes and Leslie Swartz

**Making Realism Work** Bob Carter,Caroline New,2005-10-09 In this innovative book theorists and researchers from various social science disciplines explore the potential of realist social theory for empirical research The examples are drawn from a wide range of fields health and medicine crime housing sociolinguistics development theory and deal with issues such as causality probability and reflexivity in social science Varied and lively contributions relate central methodological issues to detailed accounts of research projects which adopt a realist framework Making Realism Work provides an accessible discussion of a significant current in contemporary social science and will be of interest to social theorists and social researchers alike

Key Concepts in Mental Health David Pilgrim,2017-02-27 This bestselling text provides a complete and concise overview of mental health and all the issues that surround it from a theoretical and practical perspective

**Redeeming Marketplace Medicine** Abigail Rian Evans,2008-04-01 Asserting what most Americans already suspect that corporate based managed care places profits over patient care theologian Abigail Rian Evans points out that medical experts have reduced health care to medical treatment under arrangements with health insurance plans and HMOs Her reasoned practical alternative engages Christian theology proposing a much broader concept of health care An important contribution to a critical discussion

Tie a Knot and Hang on Teresa Scheid,2018-04-17 Tie a Knot and Hang On is an analysis of mental health care work that crosses the borders of diverse sociological traditions The work seeks to understand the theoretical and empirical linkages between environmental pressures and activities and how these intersect with organizations and individuals The work draws upon a

research tradition that sees the issue of mental health care in terms of institutional pressures and normative values The author provides a description and a sociological analysis of mental health care work emphasizing the interaction of professionally generated norms that guide the emotional labor of mental health care workers and the organizational contexts within which mental health care is provided She concludes with a discussion of emerging institutional forces that will shape the mental health care system in the future These forces are having greater impact than ever before as managed care comes to have a huge fiscal as well as institutional impact on the work of mental health professionals Scheid's book is a brilliant nuanced effort to explain the institutional demands for efficiency and cost containment with the professional ethics that emphasize quality care for the individual The book is essential reading for those interested in mental health care organizations and the providers responding to these seemingly larger abstract demands The work offers a rich mixture not just of the problems faced by mental health care personnel but the equilibrium currently in place u an equilibrium that shapes the theory of the field no less than the activities of its practitioners Teresa L Scheid is associate professor of sociology at the University of North Carolina at Charlotte She has published widely in the area including major essays in *Sociology of Health and Illness* *Sociological Quarterly* *Perspectives on Social Problems* and *The Journal of Applied Behavioral Science*

**History of Psychiatry and Medical Psychology** Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book's chapters e g Mora's Marx's D B Weiner's examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 *Short History of Psychiatry* discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease
