Modern Age 1890 196:

English Drama of the Early Modern Period 1890-1940 Jean Chothia, 2016-07-01 The period 1890 1940 was a particularly rich and influential phase in the development of modern English theatre the age of Wilde and Shaw and a generation of influential actors and managers from Irving and Terry to Guilgud and Olivier Jean Chothia s study is in two parts beginning with a portrait of the period setting the narrative context and considering the dramatic social and cultural changes at work during this time It then focuses on some of the main themes in the theatre from Shaw and comedy to the rise of political and radio drama providing an interpretative framework for the period This volume will be of great benefit to students and academics of English literature and drama as it covers the work of the major dramatists of the period as well as considering the dramatic output of literary figures such as James Eliot and Lawrence Germany and the Modern World, 1880-1914 Mark Hewitson, 2018-07-05 The German Empire before 1914 had the fastest growing economy in Europe and was the strongest military power in the world Yet it appeared from a reading of many contemporaries accounts to be lagging behind other nation states and to be losing the race to divide up the rest of the globe This book is an ambitious re assessment of how Wilhelmine Germans conceived of themselves and the German Empire s place in the world in the lead up to the First World War Mark Hewitson re examines the varying forms of national identification allegiance and politics following the creation and consolidation of a German nation state in light of contemporary debates about modernity race industrialization colonialism and military power Despite the new claims being made for the importance of empire to Germany s development he reveals that the majority of transnational networks and contemporaries interactions and horizons remained intra European or transatlantic rather than truly global Census Reports Eleventh Census: 1890 United States. Census Office. 11th census, 1890, United States. Census Office, 1895 *Elizabeth Bowen* Renee Carine Hoogland, 1994-06-01 Immensely popular during her lifetime the Anglo Irish writer Elizabeth Bowen 1899 1973 has since been treated as a peripheral figure on the literary map If only in view of her prolific outputten novels nearly eighty short stories and a substantial body of non fiction Bowen is a noteworthy novelist The radical quality of her work however renders her an exceptional one Surfacing in both subject matter and style her fictions harbor a subversive potential which has hitherto gone unnoticed Using a wide range of critical theories from semiotics to psychoanalysis from narratology to deconstruction this book presents a radical re reading of a selection of Bowen s novels from a lesbian feminist perspective Taking into account both cultural contexts and the author s non fictional writings the book s main focus is on configurations of gender and sexuality Bowen s fiction constitutes an exploration of the unstable and destabilizing effects of sexuality in the interdependent processes of subjectivity and what she herself referred to as so called reality Lesbian Configurations Renée C. of her publication tripling the known references to the poet during the nineties Much of this material drawn from scrapbooks of clippings rare journals and crumbling newspapers was on the verge of extinction Modern audiences will be struck by the impact of Dickinson's poetry on her first readers We learn much about the taste of the period and the relationship between publishers reviewers and the reading public It demonstrates that Dickinson enjoyed a wider popular reception than had been realized readers were astonished by her creative brilliance Catalogue of the Dayton Public Library Dayton Public Library and Museum, 1884 *The Agricultural Gazette and Modern Farming*, 1891 **Italy in the Modern World** Linda Reeder, 2019-12-12 Providing a comprehensive history of Italy from around 1800 to the present Italy in the Modern World traces the social and cultural transformations that defined the lives of Italians during the 19th and 20th century The book focuses on how social relations class gender and race science and the arts shaped the political processes of unification state building fascism and the postwar world Split up into four parts covering the making of Italy the liberal state war and fascism and the republic the text draws on secondary literature and primary sources in order to synthesize current historiographical debates and provide primary documents for classroom use There are individual chapters on key topics such as unification Italians in the world Italy in the world science and the arts fascism the World Wars the Cold War and Italy in the 21st century as well as a wealth of useful features for students including Comprehensive bibliographic essays covering each of the four parts 23 images and 12 maps Italy in the Modern World also firmly places both the nation and its people in a wider global context through a distinctly transnational approach It is essential reading for all students of modern Italian history **How New York Became American, 1890-1924** Art M. Blake, 2006-04-20 Originally published in 2006 For many Americans at the turn of the twentieth century and into the 1920s the city of New York conjured dark images of crime poverty and the desperation of crowded immigrants In *How New York Became American 1890-1924* Art M Blake explores how advertising professionals and savvy business leaders reinvented the city creating a brand image of New York that capitalized on the trend toward pleasure travel Blake examines the ways in which these early boosters built on the attention drawn to the city and its exotic populations to craft an image of New York City as America writ urban a place where the arts flourished diverse peoples lived together boisterously but peacefully and where one could enjoy a visit Drawing on a wide range of textual and visual primary sources Blake guides the reader through New York's many civic identities from the first generation of New York skyscrapers and their role in Americanizing the city to the promotion of Midtown as the city's definitive public face His study ranges from the late 1890s into the early twentieth century when the United States suddenly emerged as an imperial power and the nation's industry commerce and culture stood poised to challenge Europe's global dominance New York the nation's largest city became the de facto capital of American culture Social reformers and tourism boosters keen to see America's cities rival those of France or Britain jockeyed for financial and popular support Blake weaves a compelling story of a city's struggle for metropolitan and national status and its place in the national imagination *China and the*

International System, 1840-1949 David Scott, 2008-11-07 As China continues its rapid ascent within the international system questions of where it came from have particular relevance Combining history with international relations theory David Scott considers China's first substantive modern period of encounter with the West from 1840 through 1949 a period characterized as the Century of Humiliation During this time China fell from Middle Kingdom preeminence to a position in the international system that remained an enigmatic and challenging one too strong to be taken over as a colony yet not strong enough to shape its own destiny At the heart of Scott's study is encounter and with it questions of power presence and perceptions He examines the images hopes and fears that were evoked during China's century long subservience to external powers including opposing views of China as a threat or China as the sick man of Asia and the West as evil or the West as savior China and the Chinese are explored in terms of their interaction with the international system with a particular focus on America and Australia

Travel, Time, and Space in the Middle Ages and Early Modern Time Albrecht Classen, 2018-10-22 Research on medieval and early modern travel literature has made great progress which now allows us to take the next step and to analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual's self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women's movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen's activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis
