Constructions of Cancer in Early Modern England Alanna Skuse, 2015-11-11 This book is open access under a CC BY licence Cancer is perhaps the modern world's most feared disease Yet we know relatively little about this malady's history before the nineteenth century This book provides the first in depth examination of perceptions of cancerous disease in early modern England Looking to drama poetry and polemic as well as medical texts and personal accounts it contends that early modern people possessed an understanding of cancer which remains recognizable to us today Many of the ways in which medical practitioners and lay people imagined cancer as a woman's disease or a beast inside the body remain strikingly familiar and they helped to make this disease a byword for treachery and cruelty in discussions of religion culture and politics Equally cancer treatments were among the era's most radical medical and surgical procedures From buttered frog ointments to agonizing and dangerous surgeries they raised abiding questions about the nature of disease and the proper role of the medical practitioner The Painted Closet of Lady Anne Bacon Drury H.L. Meakin, 2017-07-05 Lady Anne Bacon Drury 1572-1624 was the granddaughter and niece of two of England's Lord Keepers of the Great Seal Sir Nicholas Bacon and Sir Francis Bacon Lady Anne was also the friend and patroness of John Donne and Joseph Hall however she deserves to be remembered in her own right Within her massive country house Lady Anne created a tiny painted room that she seems to have used as a kind of three dimensional book The walls consisted of panels of pictures and mottoes grouped under Latin sentences These panels can still be viewed in a Suffolk museum Christchurch Mansion in Ipswich Some panels point to

classical and Biblical sources and to popular emblem books The sources of other panels are more recondite while still others are original compositions by Lady Anne The panels exhibit a contemptus mundi theme and reflect a struggle with ambition pride and even despair Some panels also appear to register carefully veiled but pointed critiques of political and religious events and figures Lady Anne's painted closet or architext is thus relevant to a wide range of early modern scholarship in various disciplines but is as yet largely unappreciated For the first time in four hundred years this book fully describes the closet and places it in its personal social intellectual and aesthetic contexts It argues for the painted closet's importance for understanding early modern conceptualizations of private and public spaces and for illuminating fundamental early modern habits of seeing and reading especially combinations of text and image Finally this book explores the closet as an example of the ingenious ways in which female subjectivity found ways to express itself even within the constraints of early modern patriarchal society in England

Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture

The New Alchemists Mariano Bizzarri, 2012 Fifteen years after the first genetically modified GM seeds and food only four GM plants have achieved significant market positions corn cotton rapeseed and soybeans Most of the other new constructs have caused unsolved problems or are only at the project stage demonstrating the complexity of the task facing biotech companies Doubts are also emerging about the real economic and agronomic benefits of genetically modified organisms Little is known about their potential for upsetting environmental biodiversity in an irreversible way Worries about their impact on human health have not been dispelled but have increased with the evident incapacity of current international standards to ensure controls and enforcement Reliable risk assessment models and methodologies have not yet been developed and cannot be expected soon this makes it impossible to assess the nature qualitative aspects and extent quantitative aspects of the risks and prevents estimates based on the risk benefit ratio In this situation it seems prudent to resort to the precautionary principle defined in the Cartagena Protocol and incorporated in the Rio Declaration The stakes

are high and discussion needs to be brought to a level of scientific proof that leaves no room for ambiguity or alibis Governments companies and scientists must be called to respond to the specific questions raised by the vast scientific literature There have been too many accusations of poor science and too many unproven claims and statements symptomatic of conflicts of interest It is time for fair debate with all sides on an equal footing Bodily and Spiritual Hygiene in Medieval and Early Modern Literature Albrecht Classen,2017-03-20 While most people today take hygiene and medicine for granted they both have had their own history We can gain deep insights into the pre modern world by studying its health care system its approaches to medicine and concept of hygiene Already the early Middle Ages witnessed great interest in bathing hot and cold swimming and good personal hygiene Medical activities grew over time but even early medieval monks were already great experts in treating the sick The contributions examine literary medical historical texts and images and probe the information we can glean from them The interdisciplinary approach of this volume makes it possible to view this large field in a complex and diversified manner taking into account both early medieval and early modern treatises on medicine water bathing and health Such a cultural historical perspective creates a most valuable bridge connecting literary and scientific documents under the umbrella of the history of mentality and history of everyday life The volume does not aim at idealizing the past but it definitely intends to deconstruct modern myths about the dirty and unhealthy Middle Ages and early modern age *Italian Literature since 1900 in English Translation* Robin Healey,2019-03-14 Providing the most complete record possible of texts by Italian writers active after 1900 this annotated bibliography covers over 4 800 distinct editions of writings by some 1 700 Italian authors Many entries are accompanied by useful notes that provide information on the authors works translators and the reception of the translations This book includes the works of Pirandello Calvino Eco and more recently Andrea Camilleri and Valerio Manfredi Together with Robin Healey s *Italian Literature before 1900 in English Translation* also published by University of Toronto Press in 2011 this volume makes comprehensive information on translations from Italian accessible for schools libraries and those interested in comparative literature *Maps and Travel in the Middle Ages and the Early Modern Period* Ingrid Baumgärtner,Nirit Ben-Aryeh Debby,Katrin Kogman-Appel,2019-03-04 The volume discusses the world as it was known in the Medieval and Early Modern periods focusing on projects concerned with mapping as a conceptual and artistic practice with visual representations of space and with destinations of real and fictive travel Maps were often taken as straightforward objective configurations However they expose deeply subjective frameworks with social political and economic significance Travel narratives whether illustrated or not can address similar frameworks Whereas travelled space is often adventurous and speaking of hardship strange encounters and danger city portraits tell a tale of civilized life and civic pride The book seeks to address the multiple ways in which maps and travel literature conceive of the world communicate a Weltbild depict space and or define knowledge The volume challenges academic boundaries in the study of cartography by exploring the links between mapmaking and artistic

practices The contributions discuss individual mapmakers authors of travelogues mapmaking as an artistic practice the relationship between travel literature and mapmaking illustration in travel literature and imagination in depictions of newly explored worlds **Scottish Art and Artists in Historical and Contemporary Context** Bill Hare,2024-03-31 In
