Publisher description. Latin America, Second Edition Charles Gritzner, 2021-04-01 This eBook introduces readers to the geography of Latin America covering the culture region as a whole rather than individual countries. The volume emphasizes the region's people and their various ways of life, considering how they have adapted to, used, and changed the natural environments in which they live. Like other titles in the 10 volume Modern World Cultures set, Latin America Second Edition explores the geographical features, climate, and ecosystems, population, settlement, and culture, and the history and economy of the region at hand. Also covered are the region's diversity, challenges, and prospects.
