Business Rhetoric in German Novels Ernest Schonfield, 2018 Argues on the evidence of nine major German novels that literature and business have in common a reliance on language understood in a creative performative and rhetorical sense Debating medieval Europe Stephen Mossman, 2025-06-24 Debating medieval Europe serves as an entry point for studying and teaching medieval history Rather than simply presenting foundational knowledge or introducing sources it provides the reader with frameworks for understanding the distinctive historiography of the period digging beneath the historical accounts provided by other textbooks to expose the contested foundations of apparently settled narratives This second volume addresses the central and later Middle Ages covering the period c 1050 c 1450 The chapters cover such topics as the papacy the Empire and the German lands the British Isles the Crusades and the Latin East and incorporates the very latest epidemiological research in its presentation of the Black Death It features a highly distinguished selection of medieval historians including Graham Loud Amy Livingstone and Len Scales

Technology in Modern German History Karsten Uhl, 2022-01-27 People often associate postwar Germany with technology and with its products of mass consumption such as luxury cars Even pop music most notably Kraftwerk literally power station with songs such as Autobahn Radioactivity or We are the Robots disseminates the stereotype of a close link between German culture and technology Technology in Modern German History explores various forms of technology in 200 years of German history and explains how technology has been fundamental to the shaping of modern Germany The book investigates the role technology played in transforming Germany's culture society and politics during the 19th and 20th centuries Key topics covered include the different stages of industrialization the growth of networked cities and the triumph of a teleological narrative of technology as progress Moreover it provides a critical revision of the history of high technology which reveals how high tech euphoria determined certain paths in history regardless of whether the respective technology proved to be successful In its second part the volume introduces new avenues in scholarship Karsten Uhl examines neglected areas such as rural technologies or the often overlooked importance of everyday technologies How did consumers or workers use new technologies How did they appropriate and modify them Lastly the book considers the final decades of the 20th century and asks if they provided a significant new quality of technological

change To what degree and effects did computerization transform professional and private life in Germany In culture and politics reinforced by the German variety of environmentalism the idea of progress was challenged as the once prevailing vision of progress gave way to new apprehensions of uncertainty evident to this day Technology in Modern German History brings fascinating insight into a much neglected area of German history for students and scholars alike Dictatorship and Daily Life in 20th-Century Europe Lisa Pine,2022-11-03 Bringing together leading scholars from across the UK North America and mainland Europe this book provides a uniquely comparative exploration of daily life under dictatorship in 20th century Europe With coverage of well known regimes and some that are relatively underrepresented in the literature from right across the continent it examines the impact felt on people s lives amidst political administrations characterised by some or all of the following a one party state in which opposition or multiple parties were banned a cult surrounding the leader the censorship of the press and other publications the widespread use of propaganda and political persuasion and the threat or use of force by the regime and its agents The chapters investigate crucial questions in relation to life under dictatorships as follows What was the impact of censorship on access to news or entertainment How was leisure time conducted What was the impact of the regime on working life What was the scope for dissent and resistance To what extent were these possible How much did the regime coerce the population and how much did it try to indoctrinate What was the difference for Party leaders comrades and members in terms of the possibilities and opportunities that opened up compared to everyone else in society With the shutting down to a large extent of civil society and state intrusion into private life what restrictions were placed on ordinary and day to day activities What happened to religious life and to cultural life and the arts How were personal choices in aspects of life such as reproduction education and even eating affected by these regimes What was the impact of different political ideologies on people s way of life whether Fascist Nazi or Communist Dictatorship and Daily Life in 20th Century Europe addresses these issues and more striking to the heart of European life in the darkest episodes of its recent history German Literature as World Literature Thomas O. Beebee,2014-07-31 This new collection investigates German literature in its international dimensions While no single volume can deal comprehensively with such a vast topic the nine contributors cover a wide historical range with a variety of approaches and authors represented Together the essays begin to adumbrate the systematic nature of the relations between German national literature and world literature as these have developed through institutions cultural networks and individual authors In the last two decades discussions of world literature literature that resonates beyond its original linguistic and cultural contexts have come increasingly to the forefront of theoretical investigations of literature One reason for the explosion of world literature theory pedagogy and methodology is the difficulty of accomplishing either world literature criticism or world literary history The capaciousness as well as the polylingual and multicultural features of world literature present formidable obstacles to its study and call for a collaborative approach that conjoins a variety of expertise To that end this collection contributes to the critical study of world literature in

its textual institutional and translatorial reality while at the same time highlighting a question that has hitherto received insufficient scholarly attention what is the relation between national and world literatures or more specifically in what senses do national literatures systematically participate in or resist world literature

The Epistolary Renaissance Maria Löschnigg, Rebekka Schuh, 2018-09-10 Since the late twentieth century letters in literature have seen a remarkable renaissance The prominence of letters in recent fiction is due in part to the rediscovery by contemporary writers of letters as an effective tool for rendering aspects of historicity liminality marginalization and the expression of subjectivity vis vis an other it is also due however to the artistically challenging inclusion of the new electronic media of communication into fiction While studies of epistolary fiction have so far concentrated on the eighteenth century and on thematic concerns this volume charts the epistolary renaissance in recent literature entering new territory by also focusing on the aesthetic implications of the epistolary mode In particular the essays in this volume illuminate the potential of the epistolary including digital forms for rendering contemporary sensitivities The volume thus offers a comprehensive assessment of letter narratives in contemporary literature Through its focus on the aesthetic and structural aspects of new epistolary fiction the inclusion of various narrative forms and the consideration of both conventional letters and their new digital kindred The Epistolary Renaissance offers novel insight into a multi faceted re new ed genre

Corporate Policing, Yellow Unionism, and Strikebreaking, 1890-1930 Matteo Millan, Alessandro Saluppo, 2020-12-27 This book provides a comparative and transnational examination of the complex and multifaceted experiences of anti labour mobilisation from the bitter social conflicts of the pre war period through the epochal tremors of war and revolution and the violent spasms of the 1920s and 1930s It retraces the formation of an extensive market for corporate policing privately contracted security and yellow unionism as well as processes of professionalisation in strikebreaking activities labour espionage and surveillance It reconstructs the diverse spectrum of right wing patriotic leagues and vigilante corps which in support or in competition with law enforcement agencies sought to counter the dual dangers of industrial militancy and revolutionary situations Although considerable research has been done on the rise of socialist parties and trade unions the repressive policies of their opponents have been generally left unexamined This book fills this gap by reconstructing the methods and strategies used by state authorities and employers to counter outbreaks of labour militancy on a global scale It adopts a long term chronology that sheds light on the shocks and strains that marked industrial societies during their turbulent transition into mass politics from the bitter social conflicts of the pre war period through the epochal tremors of war and revolution and the violent spasms of the 1920s and 1930s Offering a new angle of vision to examine the violent transition to mass politics in industrial societies this is of great interest to scholars of policing unionism and striking in the modern era The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780429354243> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Single People and Mass Housing in Germany,

1850-1930 Erin Eckhold Sassin,2020-12-10 Unsettling traditional understandings of housing reform as focused on the nuclear family with dependent children Single People and Mass Housing in Germany 1850 1930 is the first complete study of single person mass housing in Germany and the pivotal role this class and gender specific building type played for over 80 years in German architectural culture and society the transnational Progressive reform movement Feminist discourse and International Modernism and its continued relevance Homes for unmarried men and women or Ledigenheime were built for nearly every powerful interest group in Germany progressive reactionary and radical alike from the mid nineteenth century into the 1920s Designed by both unknown craftsmen and renowned architects ranging from Peter Behrens to Bruno Taut these homes fought unregimented lodging in overcrowded working class dwellings while functioning as apparatuses of moral and social control A means to societal reintegration Ledigenheime effectively bridged the public private divide and rewrote the rules of who was deserving of quality housing pointing forward to the building programs of Weimar Berlin and Red Vienna experimental housing in Soviet Russia Feminist collective accommodations for postwar guestworkers and even housing for the elderly today Middle English Paul Strohm,2007-04-19 These original essays mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate Although major authors such as Chaucer and Langland are richly represented many little known and neglected texts are considered as well Analysis is devoted not only to self sufficient works but to the general conditions of textual production and reception Contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just coming into full view and whose perspectives will influence the terms of literary discussion in the decades to come Encouraged to speculate they have addressed topics that unsettle previous categories of investigation Each is oriented toward the emergent the unfinalized the yet to be done Each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised **Violence Elsewhere 2** Dr Clare Bielby,Professor Mererid Puw Davies,2024-11-12 Examines ideas of violence in German culture after 9 11 through the lens of violence elsewhere exploring works and discourses about violence in distant locations or times Following the Nazi era the Holocaust and the Second World War in postwar Germany thinking or speaking about that extreme violence seemed distinctively difficult even perhaps at times impossible Yet we can learn about understandings of violence in this period in novel ways by exploring images and constructions in German culture of faraway violence as shown in the recent volume Violence Elsewhere 1 Imagining Distant Violence in Germany 1945 2001 As of September 11 2001 violence came to appear transnationally spectacularly mobile in new ways Consequently Violence Elsewhere 2 explores ideas about violence elsewhere in German language culture since 2001 Here elsewhere can mean not only distant places it may also be violence

perceived as foreign or in the past Simultaneously this work suggests that the idea of 9 11 as a watershed in thinking about violence is more complex than meets the eye Here nine essays consider classic literary forms like poetry and prose fiction from the short story to the intergenerational German family novel to Black feminist speculative fiction Contributors examine too philosophy performance and multimedia art political and other forms of public discourse and film Topics include amongst others the war on terror slow environmental violence the Armenian genocide portrayals of refugees and migrants legacies of colonial violence space travel and the persistent resonance of the German past Contributors Sof a Forchieri Susanne C Knittel Marie Kolkenbrock Priscilla Layne Joanne Leal Francesca Lewis Frauke Matthes Lizzie Stewart Nicola Thomas and Kathrin Wunderlich This book is available as Open Access under the Creative Commons license CC BY NC ND **A Short History of German Literature** Gilbert Waterhouse,1962 *The Modern German Novel* Herbert M.
