Dhillion, 2009-10-26 Cradle to grave analyses are becoming the norm as an increasing amount of corporations and government agencies are basing their procurement decisions not only on initial costs but also on life cycle costs And while life cycle costing has been covered in journals and conference proceedings few if any books have gathered this information into an *The Philosopher's Stone for Sustainability* Yoshiki Shimomura, Koji Kimita, 2012-09-26 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher's stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Linköping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8-9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year's conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas **Enabling Manufacturing Competitiveness and Economic Sustainability** Michael F. Zaeh, 2013-09-12 The changing manufacturing environment requires more responsive and adaptable manufacturing systems The theme of the 5th International Conference on Changeable Agile Reconfigurable and Virtual production CARV2013 is Enabling Manufacturing Competitiveness and Economic Sustainability Leading edge research and best implementation practices and experiences which address these important issues and challenges are presented The proceedings include advances in manufacturing systems design planning evaluation control and evolving paradigms such as mass customization personalization changeability reconfigurability and flexibility New and important concepts such as the dynamic product

families and platforms co evolution of products and systems and methods for enhancing manufacturing systems economic sustainability and prolonging their life to produce more than one product generation are treated Enablers of change in manufacturing systems production volume and capability scalability and managing the volatility of markets competition among global enterprises and the increasing complexity of products manufacturing systems and management strategies are discussed Industry challenges and future directions for research and development needed to help both practitioners and academicians are presented About the Editor Prof Dr Ing Michael F Zaeh born in 1963 has been and is Professor for and Manufacturing Technology since 2002 and together with Prof Dr Ing Gunther Reinhart Head of the Institute for Machine Tools and Industrial Management iwb at the Technische Universitaet Muenchen TUM After studying general mechanical engineering he was doctoral candidate under Prof Dr Ing Joachim Milberg at TUM from 1990 until 1993 and received his doctorate in 1993 From 1994 to 1995 he was department leader under Prof Dr Ing Gunther Reinhart From 1996 to 2002 he worked for a machine tool manufacturer in several positions most recently as a member of the extended management Prof Dr Ing Michael F Zaeh is an associated member of the CIRP and member of acatech WGP and WLP His current researches include among others Joining and Cutting Technologies like Laser Cutting and Welding as well as Friction Stir Welding Structural Behaviour and Energy Efficiency of Machine Tools and Manufacturing Processes like Additive Manufacturing

NASA SP-7500 United States. National Aeronautics and Space Administration,1982 **Robust Adaptive Control** G.C. Goodwin,2014-05-23 The workshop brought together international experts in the field of robust adaptive control to present recent developments in the area These indicated that the theory of adaptive control is moving closer to applications and is beginning to give realistic guidelines useful in practical situations The proceedings also focused on the value of such practical features as filtering normalization deadzones and unification of robust control and adaptation **Scientific and Technical Aerospace Reports** ,1991 Management ,1984 **ECMLG 2021 17th European Conference on Management, Leadership and Governance** Professor Frank Bezzina ,Professor Vincent Cassar,2021-11-08

Management, a Continuing Literature Survey with Indexes ,1969 **Management, a Bibliography for NASA Managers** ,1984 **Functional Thinking for Value Creation** Jürgen Hesselbach,Christoph Herrmann,2011-03-18 After the IPS2 conferences in Cranfield and Link ping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems IPS2 2011 takes place in Braunschweig Germany IPS2 itself is defined as an integrated industrial product and service offering that delivers value in use The customers expect comprehensive solutions which are adapted to their individual needs IPS2 offers the possibility to stand out from competition and for long term customer loyalty Particularly in times of economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines The 3rd CIRP International Conference on

Industrial Product Service Systems IPS2 2011 serves as a platform for such collaborations and the discussion of new scientific ideas

Direct Microbial Conversion of Biomass to Advanced Biofuels Michael E Himmel, 2015-05-19 Direct Microbial Conversion of Biomass to Advanced Biofuels is a stylized text that is rich in both the basic and applied sciences It provides a higher level summary of the most important aspects of the topic addressing critical problems solved by deep science Expert users will find new critical methods that can be applied to their work detailed experimental plans important outcomes given for illustrative problems and conclusions drawn for specific studies that address broad based issues A broad range of readers will find this to be a comprehensive informational text on the subject matter including experimentalists and even CEOs deciding on new business directions Describes an important new field in biotechnology the consolidated conversion of lignocellulosic feedstocks to advanced fuels Up to date views of promising technologies used in the production of advanced biofuels Presents the newest ideas well designed experiments and outcomes Provides outstanding illustrations from NREL and contributing researchers Contains contributions from leaders in the field that provide numerous examples and insights into the most important aspects of the topic
