Spitz,2014-07-15 Developmental change and the related problems of modernization have attracted the attention of scholars in many disciplines In this bibliography derived and

expanded from an earlier compilation by Mr Spitz and Edward Weidner the author orders and annotates nearly 2 500 articles appearing between 1945 and 1969 in 234 journals from 25 countries Organized by subject and indexed by both author and journal the citations include studies of social problems economic factors political questions public administration and international cooperation and assistance Special emphasis has been given to new and little known sources In addition a selected bibliography of monographs and book length studies dealing with the modernization of underdeveloped countries and areas is included in the volume *Liberal Democracy and the Limits of Tolerance* Raphael Cohen-Almagor,2009-12-22 How to prevent the enemies of democracy from using its freedoms to attack its existence **Social Capital and European Democracy** Marco Maraffi,Kenneth Newton,Jan Van Deth,Paul Whiteley,2008-08-28 The authors of this work examine the dominant view that voluntary activity promotes social capital and hence good government but also explore alternative models for the creation of social capital Theoretical discussion is combined with detailed case studies to provide a new explanation of the origins and nature of social capital its effects on political participation and policy making the role of the voluntary sector Contributors go on to examine the possibility that current changes in the voluntary sector may in fact undermine social capital and consider the consequences This book is an important step forward in this rapidly growing field of research and adds a unique European perspective to a debate which has been largely US focussed
