Modern Masters Of The 20th Century Interior:

Modern Jonathan Glancey,1999 The term modern can be used to describe places as diverse as Fallingwater the Frank Lloyd Wright masterpiece of 1936 and John Pawson s Calvin Klein store of the early nineties Modernism encompasses many different styles designed over a number of years so what exactly is modern Author Jonathan Glancey answers this question by first exploring every facet of the modern from architecture to furniture to home design In a Who s Who of modern design style he then lists all of its greatest practitioners chronologically From the Art Nouveau style of Gaudi to the classicism of Michael Graves all of the sub styles that fall under the umbrella of modern are finally demystified Modern ventures beyond the interiors of lavish homes to showcase club and restaurant decor furniture product design and textiles It also features the apartments and homes of the designers and architects themselves offering a rare glimpse into the lives of these celebrated creators Succinct introductionsto each individual designer or architect s mission set the work in the context of related fields such as fashion or graphic design for a view of the real world impact of the modern With full color illustrations for each designer or architect Modern is not only an authoritative account of 20th century design but a striking testament to the masters who have shaped contemporary taste Includes a comprehensive directory of key designers and manufacturers

Classic Modern Deborah Dietsch,2000 There is no hotter style today than the cooler than cool work of modern designers and architects from the 1940s and 50s Endlessly inventive and eminently livable mid century modernism has an optimism and confidence born of postwar abundance and a spirited elegance that appeals powerfully fifty years later In CLASSIC MODERN design expert Deborah Dietsch introduces readers to the basic tenets of modern design and explains how the simple yet inspired forms typical of this style were so readily disseminated into mainstream American culture Filled throughout with enticing examples of mid century pieces from such timeless designers as Charles and Ray Eames Eero Saarinen Arne Jacobsen and George Nelson this beautiful book recaptures the excitement of the period s brilliant designs

Library,1973 **Interior Design Masters** Mark Hinchman,Elyssa Yoneda,2018-06-27 Interior Design Masters contains 300 biographical entries of people who have

significantly impacted design. They are the people historical and contemporary that students and practitioners should know. Coverage starts in the late Renaissance with a focus on the twentieth and twenty-first centuries. The book has five sections with the entries alphabetical in each so it can serve as a history textbook and a reference guide. The seventeenth and eighteenth-century section covers figures from Thomas Chippendale to Horace Walpole. The nineteenth-century section includes William Morris and Candace Wheeler. The early twentieth-century section presents modernism's design heroes including Marcel Breuer, Eileen Gray, and Gilbert Rohde. The post-World War II designers range from Madeleine Castaing to Raymond Loewy. The final contemporary section includes Ron Arad and the Bouroullec brothers. These are the canonical figures who belong to any design history. The book also contains less well-known figures who deserve attention such as Betty Joel, the British art deco furniture designer Paul Veyseyre, the Frenchman active in China in the 1930s, and more recently, Lanzavecchia Wai, the Italian-Singaporean duo whose work ranges from health care to helicopters. Global in its coverage, the book is richly illustrated with over 600 black and white and color photographs.

The New York Times Guide to the Arts of the 20th Century: 1900-1929, 2002. Reviews, news articles, interviews, and essays capturing 100 years of art, architecture, literature, music, dance, theater, film, and television.

The Modern Period Room. Penny Sparke, Brenda Martin, Trevor Keeble, 2006-08-21. With contributors drawn from a broad range of disciplines, *The Modern Period Room* brings together a carefully selected collection of essays to consider the interiors of the modern era and their more recent reconstructions from a variety of different viewpoints. Contributions from leading design historians, architects, and curators of the history of the domestic interior in the UK engage with the issues and conventions surrounding the modern period room to expose the conflicting tensions that lie beneath the conceptual and physical strategy of the modern period room's representational technique. Exploring themes and examples by prestigious architects such as Ern Goldfinger, Truus Schroeder, and Gerrit Rietveld, the authors reveal the specific coding of presented interior spaces. This illustrated new take on the historiography of twentieth-century show interiors enables historians and theorists of architecture, design, and social history to investigate the contexts in which this representational device has been used.
