(musical terms and biography) Louis Charles Elson,1912 **Modern Times** Robert P Morgan,1993-11-02 This volume covers the development of modern music from World War I to the present Specific musical responses can be identified from the prevailing social economic and political circumstances Since World War II musical languages have tended to converge with developments in technology and communications Robert P Morgan is the author of Twentieth Century Music and co editor of Alban Berg Historical and Analytical Perspectives **The Sound of Beauty** Michael Kurek,2019-09-04 Music remains something of a mystery to many people This book begins with the basic question of what music actually is employing simple clear scientific explanations of waves and acoustics while appreciating them as part of God s natural creation It presents fascinating theories about how music is perceived and how it speaks to the mind emotions and spirit concepts rarely addressed outside academia and even more rarely examined through the lens of Catholic theology This comprehensive yet accessible theology of all things music is written by an internationally respected classical composer who teaches music at a top secular university It is groundbreaking in its treatment of music from a Christian perspective and it presents a most penetrating insider s view into the troubled waters of contemporary classical music It is particularly timely in advocating a return to the little known norms for liturgical music found in the documents of Vatican II **The Musical Times & Singing-class Circular** ,1910 Reconceiving Structure in Contemporary Music Judy Lochhead,2015-06-19 This book studies recent music in the western classical tradition offering a critique of current analytical theoretical approaches and proposing alternatives The critique addresses the present fringe status of recent music sometimes described as crossover postmodern post classical post minimalist etc and demonstrates that existing descriptive languages and analytical approaches do not provide adequate tools to address this music in positive and productive terms Existing tools and concepts were developed primarily in the mid 20th century in tandem with the high modernist

compositional aesthetic and they have changed little since then The aesthetics of music composition on the other hand have been in constant transformation Lochhead proposes new ways to conceive musical works their structurings of musical experience and time and the procedures and goals of analytic close reading These tools define investigative procedures that engage the multiple perspectives of composers performers and listeners and that generate conceptual modes unique to each work In action they rebuild a conceptual methodological and experiential place for recent music These new approaches are demonstrated in analyses of four pieces Kaija Saariaho's *Lonh* 1996 Sofia Gubaidulina's *Second String Quartet* 1987 Stacy Garrop's *String Quartet no 2 Demons and Angels* 2004 05 and Anna Clyne's *Choke* 2004 This book defies the prediction of classical music's death and will be of interest to scholars and musicians of classical music and those interested in music theory musicology and aural culture

selected writings by Kallmann five have never before been published many of the others are from difficult to locate sources They include critical and research essays reports reflections and memoirs Each chapter is prefaced with an introduction by the editors Two initial chapters offer a biography of Kallmann and an assessment of his contributions to Canadian music The variety breadth and scope of these writings confirm Kallmann s pioneering role in Canadian music research and the importance of his legacy to the cultural life of his adopted country In the current climate of cuts to archival collections and services the publication of these essays by and about a pre eminent collector and historian serves as a timely reminder of the importance of cultural memory

Handbook of Guitar and Lute Composers Hannu Annala,Heiki Matlik,2010-10-07 In compiling this landmark sourcebook Finnish guitarists Hannu Annala and Heiki Matlik consulted more than 70 music texts as well as dozens of composer resumes acquired from the musical information centers of several countries During the writing process which lasted for more than three years they received additional information from many modern composers including Leo Brouwer and Reginald Smith Brindle among others In addition several internationally renowned performing guitarists provided valuable information these include Magnus Andersson Sweden Remi Boucher Canada Margarita Escarpa Spain Aleksander Frauchi Russia and David Tanenbaum USA among others The authors aim was to write a well structured book with separate chapters for each instrument such as the Renaissance and Baroque guitar the Renaissance and Baroque lute the vihuela etc This unique structure enables the reader to easily discover which composers wrote for a certain instrument during any given period In addition to the composers one would expect to find in such a comprehensive listing the book documents several historical and modern composers for whom little previous information has been available the book s list of more than 400 guitar and lute concertos dating from the Baroque era to the present day is a totally unprecedented Short introductions regarding guitar and lute like instruments as well as their basic histories are provided at the beginning of the book the authors hope that the Handbook of Guitar and Lute Composers will serve as a practical guide for both amateurs and professionals encouraging further study of the history of these instruments and expanding the repertoire heard on today s concert stage
