What Is Contemporary Art? Terry Smith, 2012-08-10 Who gets to say what counts as contemporary art Artists critics curators gallerists auctioneers collectors or the public Revealing how all of these groups have shaped today's multifaceted definition Terry Smith brilliantly shows that an historical approach offers the best answer to the question What is Contemporary Art Smith argues that the most recognizable kind is characterized by a return to mainstream modernism in the work of such artists as Richard Serra and Gerhard Richter as well as the retro sensationalism of figures like Damien Hirst and Takashi Murakami At the same time Smith reveals postcolonial artists are engaged in a different kind of practice one that builds on local concerns and tackles questions of identity history and globalization A younger generation embodies yet a third approach to contemporaneity by investigating time place mediation and ethics through small scale closely connective art making Inviting readers into these diverse yet overlapping art worlds Smith offers a behind the scenes introduction to the institutions the personalities the biennials and of course the works that together are defining the contemporary The resulting map of where art is now illuminates not only where it has been but also where it is going

The Contemporary Museum Simon Knell,2018-10-11 The Contemporary Museum issues a challenge to those who view the museum as an artefact of history constrained in its outlook as much by professional institutional and disciplinary creed as by the collections it accumulated in the distant past Denying that the museum can locate its purpose in the pursuit of tradition or in idealistic speculation about the future the book asserts that this can only be found through an ongoing and proactive negotiation with the present the contemporary This volume is not concerned with any present but with the peculiar circumstances of what it refers to as the global contemporary the sense of living in a globally connected world that is preoccupied with the contemporary To situate the museum in this world of real and immediate need and action beyond the reach of history the book argues is to empower it to challenge existing dogmas and inequalities and sweep aside old hierarchies As a result fundamental questions need to be asked about such things as the museum s relationship to global time and space to systems and technologies of knowing to the life well lived to the movement and rights of people and to the psychology permanence and organisation of culture Incorporating diverse viewpoints from around the world The Contemporary Museum is a follow up volume to Museum Revolutions and as such should be essential reading for students in the fields of museum and heritage studies cultural studies communication and media studies art history and social policy Academics and museum professionals will also find this book a source of inspiration

A World Art History and Its Objects David Carrier,2008-11-28 Is writing a world art history possible Does the history of art as such even exist outside the Western tradition Is it possible to consider the history of art in a way that is not fundamentally Eurocentric In this highly readable and provocative book David Carrier a philosopher and art historian does not attempt to write a world art history himself Rather he asks the question of how an art history of all cultures could be written or whether it is even possible to do so He also engages the political and moral issues raised by the idea of a multicultural art history Focusing on a consideration of intersecting artistic traditions Carrier negotiates the way meaning and understanding shift or are altered when a visual object from one culture for example is inserted into the visual tradition of another culture A World Art History and Its Objects proposes the use of temporal narrative as a way to begin to understand a multicultural art history

Ambiguity in Contemporary Art and Theory Frauke Berndt,Lutz Koepnick,2018-04-06 It has become commonplace to associate art and aesthetic experience with the category of ambiguity Indeed when we talk about art we cannot do without the dynamic force of ambiguity just as the aesthetic itself cannot do without it The great efforts to disambiguate aesthetic practices and their associated theories and contexts would eliminate art s unique ability to reshape our knowledge of the world our sensory encounters with it and our moral or political positions in it The essays collected in this volume present different perspectives on this central category and develop interdisciplinary connections Contributors include Frauke Berndt Joy H Calico Stephan Kammer Lutz Koepnick Verena Krieger Richard Langston Rachel Mader Lily Tonger Erk Gabriel Trop and Thomas Wortmann

The Globalization of Renaissance Art Daniel Savoy,2017-12-11 In The Globalization of Renaissance Art A Critical Review Daniel Savoy assembles an interdisciplinary group of scholars to evaluate the global discourse on early modern European art Over the course of eleven chapters and a roundtable the contributors assess the discourse s goal of transcending Eurocentric boundaries reflecting on the strengths and weaknesses of current terms methods theories and concepts Although it is clear that the global perspective has exposed the artistic and cultural pluralism of early modern Europe it is found that more work needs to be done at the epistemological level of art history as a whole Contributors Claire Farago Elizabeth Horodowich Lauren Jacobi Thomas DaCosta Kaufmann Jessica Keating Stephanie Leitch Emanuele Lugli Lia Markey Sean Roberts Ananda Cohen Aponte and Marie Neil Wolff
