Modern Perspectives In The Psychiatry Of Middle Age:

Modern Perspectives in the Psychiatry of Middle Age John G. Howells, 1981 Current Catalog National Library of Medicine (U.S.), 1992 First multi year cumulation covers six years 1965 70 *Developmental Psychology For The Health Care Professions, Part Ii* Howard. S. Feldman, 2020-01-17 First published in 1982 Since the 1960s there has been growing interest in and research on the adult years of the life cycle Previously developmental studies had focused on childhood and adolescence in which an orderly relationship between age and growth was assumed This volume looks at three periods of adulthood identified on the basis of chronological age young adulthood from 18 to 40 middle adulthood from 40 to 65 and later adulthood from 65 until death The authors of the series volumes are behavioral scientists with considerable experience in the education of health care professionals Most of them are also clinicians and their varied experience enables them to present their topics in a readable fashion The content of the texts presumes only a very basic knowledge of the behavioral sciences and emphasis is placed on the practical implications of research findings for health care delivery Life-Span and Change in a Gerontological Perspective Joep M. A. Munnichs, Paul Mussen, Erhard Olbrich, 2014-05-10 Life Span and Change in a Gerontological Perspective provides a critical evaluation of different methodological and theoretical approaches to the study of behavioral development in a life span perspective This book addresses the need for more integrated knowledge in the field of gerontological and life span psychology Organized into three parts encompassing 12 chapters this book begins with an overview of the most significant longitudinal studies in a life span perspective This text then examines the developmental research in adulthood and old age which provide insights into processes specific to the later periods of the life span and theoretical conceptualizations of development and its determinants during the whole life span Other chapters consider the connection between the age of longitudinal studies and the theory used implicitly This book discusses as well data on the intelligence of the elderly The final chapter deals with the problems and processes involving family networks and aging This book is a valuable resource for psychologists social scientists and gerontologists **Developmental Psychology For The Health Care Professions** Howard S. Feldman, 2019-03-01 In this book the first of a two volume set focusing on normal psychological development throughout the life span Katherine A Billingham discusses the basics of normal development and presents specific research findings in developmental psychology sociology and health care psychology that are especially relevant to the health care professional **Clinical Applications of Rational-Emotive Therapy** Michael E. Bernard, A. Ellis, 2013-11-11 Since its launching in 1955 rational emotive therapy RET has become one of the most influential forms of counseling and psychotherapy used by literally thousands of mental health practitioners throughout the world From its beginnings RET has dealt with problems of human disturbance It presents a theory of how people primarily disturb themselves and what they can do particularly with the help of a therapist or counselor to reduce their disturbances Ellis 1957a b 1958a b 1962 Almost immediately after the creation of RET it became obvious that the methodology could be used

in many other fields especially those involving human relations Ellis is optimistic because it provides people with the possibility and the means for change Showing to people how their attitudes and beliefs are responsible for their emotional distress and interpersonal problems and not some out of conscious early childhood experience awakens in them the hope that in reality they have some control over their destiny

Coping with Life Crises Rudolf Moos, 2013-12-20 This book examines new developments in the area of human competence and coping behavior It sets forth a conceptual framework that considers the interplay between environmental contexts and personal resources and their impact on how individuals cope with life transitions and crises The selections cover the tasks confronted in varied life crises and describe the coping strategies employed in managing them The material identifies the long term effects of such life events as divorce and bereavement as well as the way in which these stressors can promote personal growth and maturity The book contains a broad selection of recent literature on coping and adaptation integrative commentaries that provide the background for each of the areas as well as conceptual linkages among them and an introductory overview that presents a general perspective on human competence and coping Illustrative case examples are included The first part of the book is organized chronologically according to developmental life transitions confronted by many people from the childhood years through adolescence career choice and parenthood divorce and remarriage middle age and retirement and death and bereavement The second part covers unusual life crises and other hazards that typically involve extreme stress such as man made and natural disasters and terrorism The book highlights effective coping behavior among healthy individuals rather than psychological breakdown and psychiatric symptoms The emphasis is on successful adaptation the ability to cope with life transitions and crises and the process by which such

Men's Changing Roles in the Family Robert A Lewis, Marvin B

Sussman, 2014-05-01 How are men reacting to perceiving and behaving in light of the changes in gender roles Here is an important volume that provides new and interesting reading about contemporary husbands and fathers Men's Changing Roles in the Family offers an overview of the causes and consequences of changes in men's family roles in recent decades Experts introduce you to the issues problems and methods on the cutting edge of those disciplines that study men in the context of their families Until now relatively little has been known empirically about men in contemporary families and even less has been known about husbands and fathers from direct reports of the men themselves This groundbreaking volume successfully closes this gap in the literature with an examination of the effects that fathers' growing involvement with their children have on their wives and themselves a clinical assessment of some men's angry reactions to separation and divorce and those special therapeutic goals and strategies that may help reduce their distress examinations of the conflicting demands of the work world and the family upon some contemporary husbands and fathers and the negative effects of nonstandard work schedules upon men's family life and an examination of factors that make many men unhappy in patriarchal family structures Men's Changing Roles in the Family also contributes toward breaking new ground by examining

family roles now performed by special groups of men Finally this important volume reports empirical findings about men in family like relationships illustrating evidence for the unique roles that male caregivers can offer children in day care centers and reviewing current empirical studies of men s friendships and their development **Women's Mental Health** Susan G. Kornstein, Anita H. Clayton, 2004-12-15 This comprehensive reference and text synthesizes a vast body of clinically useful knowledge about women s mental health and health care Coverage includes women s psychobiology across the life span sex differences in neurobiology and psychopharmacology and psychiatric aspects of the reproductive cycle as well as gender related issues in assessment and treatment of frequently encountered psychiatric disorders Current findings are presented on sex differences in epidemiology risk factors presenting symptoms treatment options and outcomes and more Also addressed are mental health consultation to other medical specialties developmental and sociocultural considerations in service delivery and research methodology and health policy concerns **A History of Clinical Psychology** John M. Reisman, 1991 A second edition of this book which details significant further developments in clinical psychology in the intervening twenty years Some of these are personality functioning diagnostic techniques and formulation and professional development

Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age Albrecht Classen, 2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world

Buenos Aires 2022 - Analytical Psychology Opening to the Changing World: Contemporary Perspectives on Clinical, Scientific, Social, Cultural and Environmental Issues IAAP, 2023-08-03 The XXII International Congress for Analytical Psychology was held in Buenos Aires Argentina and for the first time in South America It was also the first such congress delivered in hybrid form bringing together IAAP members from all over the globe in person and on screens Guests interested in Jungian thinking from various other academic fields were invited and joined in the conversations The theme of Opening to the Changing World was explored as we come out of a pandemic and face the imperative of fast changes to our
