Process Theology C. Robert Mesle, 1993 *Process Theology* Robert C Mesle, 1993-01-01 Where is God when a child runs in front of a car This primer introduces the reader to a new way of understanding God that offers us a more meaningful and clearer vision of God and the world we live in *Process-Relational Philosophy* C. Robert Mesle, 2009-07-23 Process thought is the foundation for studies in many areas of contemporary philosophy theology political theory educational theory and the religion science dialogue It is derived from Alfred North Whitehead s philosophy known as process theology which lays a groundwork for integrating evolutionary biology physics philosophy of mind theology environmental ethics religious pluralism education economics and more In *Process Relational Philosophy* C Robert Mesle breaks down Whitehead s complex writings providing a simple but accurate introduction to the vision that underlies much of contemporary process philosophy and theology In doing so he points to a way beyond both reductive materialism and the traps of Cartesian dualism by showing reality as a relational process in which minds arise from bodies in which freedom and creativity are foundational to process in which the relational power of persuasion is more basic than the unilateral power of coercion Because process relational philosophy addresses the deep intuitions of a relational world basic to environmental and global thinking it is being incorporated into undergraduate and graduate courses in philosophy educational theory and practice environmental ethics and science and values among others *Process Relational Philosophy A Basic Introduction* makes Whitehead s creative vision accessible to all students and general readers *Process Theology* Bruce G. Epperly, 2014-02-17 Process theology is considered a very complex and difficult to understand system Is it possible to get a basic grasp of what it is and how it impacts our lives and service to others In this brief lively and engaging book Dr Bruce Epperly untangles the difficult concepts of process theology and shows how we can envision a God who is in relation to us throughout our lives here and in the next world He believes that God is present at the moment of our conception guides us through the adventures of this lifetime urging us to rejoice in embodiment and bring healing to our world and upon our final earthly breath receives us with open arms with visions of future adventures in communion with God and our fellow creatures Not only is this theology easy to understand but it also challenges us to live out God s adventure in with joy sharing God s life with all of God s creatures This book is an excellent introduction to process theology useful for small groups or individual study and includes a list of resources for further study **Process Theology: A Guide for the Perplexed** Bruce G. Epperly, 2011-03-24 This is an introductory guide to Process Theology for undergraduates As part of Continuum s Guide for the Perplexed series this text provides an accessible introduction to process theology aimed at nurturing the theological imagination of undergraduates pastors and interested laypersons It describes the major themes of process theology and relates them to the everyday lives and spiritual commitments of people today In addition to addressing traditional theological issues Epperly addresses cutting edge issues in theology and ethics such as pluralism and postmodernism matters of life and death science technology and

genetics and emerging forms of Christianity This text is designed for seminary and university classes as well as congregational study It will help readers to overcome the obstacles created by the technical language often employed by process theologians Continuum s Guides for the Perplexed are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging or indeed downright bewildering Concentrating specifically on what it is that makes the subject difficult to grasp these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material *PROCESS Theology* C. Cobb,David Ray Griffin,1976-01-01 This book offers an interpretation of the basic concepts of process philosophy and outlines a process theology based on it that will be especially useful for students of theology teachers ministers and those interested in theological trends World in Process John A. Jungerman,2000-11-02 Shows how modern physics supports basic claims of process philosophy **Encyclopedia of Time** H. James Birx,2009-01-07 With a strong interdisciplinary approach to a subject that does not lend itself easily to the reference format this work may not seem to support directly academic programs beyond general research but it is a more thorough and up to date treatment than Taylor and Francis s 1994 Encyclopedia of Time Highly recommended Library Journal STARRED Review Surveying the major facts concepts theories and speculations that infuse our present comprehension of time the Encyclopedia of Time Science Philosophy Theology Culture explores the contributions of scientists philosophers theologians and creative artists from ancient times to the present By drawing together into one collection ideas from scholars around the globe and in a wide range of disciplines this Encyclopedia will provide readers with a greater understanding of and appreciation for the elusive phenomenon experienced as time Features Surveys historical thought about time including those ideas that emerged in ancient Greece early Christianity the Italian Renaissance the Age of Enlightenment and other periods Covers the original and lasting insights of evolutionary biologist Charles Darwin physicist Albert Einstein philosopher Alfred North Whitehead and theologian Pierre Teilhard de Chardin Discusses the significance of time in the writings of Isaac Asimov Samuel Taylor Coleridge Fyodor M Dostoevsky Francesco Petrarch H G Wells and numerous other authors Contains the contributions of naturalists and religionists including astronomers cosmologists physicists chemists geologists paleontologists anthropologists psychologists philosophers and theologians Includes artists portrayals of the fluidity of time including painter Salvador Dali s The Persistence of Memory and The Discovery of America by Christopher Columbus and writers Gustave Flaubert s The Temptation of Saint Anthony and Henryk Sienkiewicz s Quo Vadis Provides a truly interdisciplinary approach with discussions of Aztec Buddhist Christian Egyptian Ethiopian Hindu Islamic Navajo and many other cultures conceptions of time Key Themes Biography Biology Evolution Culture History Geology Paleontology Philosophy Physics Chemistry Psychology Literature Religion Theology Theories Concepts Perfect Will Theology J. Martin Bac,2010-04-16 This book revisits four early modern debates of Reformed theology concerning the will of God Reformed scholasticism advocated a

particular relationship between divine knowledge will and power which was altered by Jesuits Remonstrants Descartes and Spinoza In all these debates modal categories like contingency and necessity play a prominent part Therefore these positions are evaluated with the help of modern modal logic including possible world semantics The final part of this study presents a systematic defense of the Reformed position which has been charged of theological determinism and of making God the author of sin In modern terms therefore the relation of divine and human freedom and the problem of evil are discussed

From Force to Persuasion Andrew M. Davis, 2024-08-01 At the heart of process relational theology in the tradition of Alfred North Whitehead 1861 1947 and Charles Hartshorne 1897 2000 is the rejection of coercive omnipotence and the embrace of divine persuasion as the patient and uncontrolling means by which God works with a truly self creative world According to Whitehead Plato's conviction that God is a persuasive agency and not a coercive agency constitutes one of the greatest intellectual discoveries in the history of religion According to Hartshorne omnipotence is a theological mistake What is behind these claims Why do process relational philosophers and theologians reject divine omnipotence How have they justified a commitment to divine persuasion and what kind of theoretical and practical implications are involved Featuring contributions from key process relational thinkers this book situates a shift from force to persuasion across multiple thresholds of discourse from philosophy and theology to spirituality and politics to pluralism axiology and apocalypse It aims to reawaken attention to the operations of divine persuasion as ever loving and inherently noncoercive but always at risk in an open and relational universe

The Love of God John C. Peckham, 2015-07-28 Theology has constantly wrestled with the nature of God's love and what it means for how God relates to the world In this comprehensive canonical theology of divine love John C Peckham argues for an account that avoids the errors of both voluntarist and experientialist theologies and faithfully represents the full biblical witness

Theological Cartographies Benjamin Valentin, 2015-03-14 Benjamin Valentin presents a substantive yet accessible introduction to the three central doctrines of Christian theology God humanity and Christ In an engaging style Valentin offers an overview of each of these doctrines delving into its tradition within the Christian community throughout history from the writing of Scripture forward He further explores what contemporary life tells us about this doctrine and how that compares to traditional understandings and then determines how we can reconstruct this doctrine in light of our new assessment of it Each chapter concludes with suggested readings for further study Throughout Valentin highlights the diversity of Christian thought bringing together past tradition and contemporary questions to arrive at a new understanding of what these important doctrines can mean for us today

Motherhood Connections Theodore Walker Jr., 2012-02-01 Bringing a black Atlantic approach to constructive postmodern efforts to understand and transcend modern worldviews and modern world orders Motherhood Connections draws upon the work of scholars in the tradition of W E B Du Bois Charles H Long Alfred North Whitehead and Charles Hartshorne The author shows that connections to the originating influences of transatlantic slavery and black Atlantic experiences are essential to any

adequate account of modernity and postmodernity He also argues that metaphysics is essential to theology and moral theory synthesizing neoclassical metaphysics and black theology to develop a black Atlantic account of metaphysical aspects of struggle power and ethical deliberation

Transforming Process Theism Lewis S. Ford, 2000-05-18 Process theism in a variety of manifestations and modifications stemming from Whitehead's original suggestions dominates discussions of philosophical and natural theology in Europe and America In Transforming Process Theism Ford argues that subsequent modifications of Whitehead's original line of thought mask a fundamental and unresolved aporia in that original proposal since only past or objectified determinate events can influence present experiences and since God as conceived by Whitehead is never fully determinate or objectifiable as a past event it is difficult to see how this divine persuasive power can have any influence on the present as a source of creativity and genuinely new possibilities for enactment Ford meticulously reconstructs and evaluates Whitehead's own versions of theism and he critically appraises the most influential subsequent modifications of these unrecognized variants by other process thinkers He recovers the original trajectory of Whitehead's continuous revision of his conception of God and forges an appropriate solution to this central aporia He concludes that consistent with Whitehead's overarching metaphysical principles there is another kind of causal influence that does not require objectification and is the opposite of past determinateness The future conceived as active offers an account of subjectivity which is both universal and transcendent God according to Ford's revisions must be understood as this particular but indefinite creativity or universal activity of the future bestowing subjectivity on each present occasion of experience without ever becoming determinate

Creator God, Evolving World Cynthia S. W. Crysdale, Neil Ormerod, 2013-01-01 Cynthia Crysdale and Neil Ormerod here present a robust theology of God in light of supposed tensions between Christian belief and evolutionary science Those who pit faith in an almighty and unchanging God over against a world in which chance is operative have it wrong on several accounts they insist Creator God Evolving World clarifies a number of confused assumptions in an effort to redeem chance as an intelligible force interacting with stable patterns in nature A proper conception of probabilities and regularities in the world's unfolding reveals neither random chaos nor a predetermined blueprint but a view of the universe as the fruit of both chance and necessity By clarifying terms often used imprecisely in both scientific and theological discourse the authors make the case that the role of chance in evolution neither mitigates God's radical otherness from creation nor challenges the efficacy of God's providence in the world

Organizational Routines Jennifer Howard-Grenville, Claus Rerup, Ann Langley, Haridimos Tsoukas, 2016-03-24 Over the past 15 years organizational routines have been increasingly investigated from a process perspective to challenge the idea that routines are stable entities that are mindlessly enacted A process perspective explores how routines are performed by specific people in specific settings It shows how action improvisation and novelty are part of routine performances It also departs from a view of routines as black boxes that transform inputs into organizational outputs and places attention on the actual actions and patterns that

comprise routines Routines are both effortful accomplishments in that it takes effort to perform sustain or change them and emergent accomplishments because sometimes the effort to perform routines leads to unforeseen change While a process perspective has enabled scholars to open up the black box of routines and explore their actions and patterns in fine grained dynamic ways there is much more work to be done Chapters in this volume make considerable progress through the three main themes expressed across these chapters These are Zooming out to understand routines in larger contexts Zooming in to reveal actor dispositions and skill and Innovation creativity and routines in ambiguous contexts

Broken Hallelujah Darren J. N. Middleton, 2007-01-01 Marking the fiftieth anniversary of Kazantzakis s death author Darren J N Middleton looks back on Kazantzakis s life and literary art to suggest that contrary to popular belief Kazantzakis and his views actually comport with the ideals of Christianity

Depths As Yet Unspoken Roland Faber, 2020-07-30 Whitehead s thought continues to attract attention in mathematics and metaphysics but few have recognized with Roland Faber the deeply mystical dimensions of his philosophy If you like to phrase it so Whitehead states philosophy is mystical For mysticism is direct insight into depths as yet unspoken Where however do these unspoken depths speak in Whitehead and what are their associated themes in his philosophy For the first time *Depths As Yet Unspoken* gathers together Faber s most compelling writings on Whitehead s mutually immanent themes of mysticism multiplicity and divinity In dialogue with a diversity of voices from process philosophers and theologians to mystical and poststructuralist thinkers Faber creatively articulates Whitehead s theopoetic process cosmogony in its relevance to metaphysics cosmology everyday experience religious pluralism and interreligious violence spirituality and longstanding concerns of the theological tradition including creation the Trinity revelation religious experience and divine mystery Although Whitehead s mystical inclinations may not be obvious at first they in fact constitute the apophatic backdrop to his entire philosophical corpus Through Faber s work Whitehead s philosophy is revealed to be nothing short of a remarkable endeavor to speak to the unfathomable depth of things
