**Historical Dictionary of the World Bank** Sarah Tenney, Anne C. Salda, 2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies

**Independent Power Projects in Sub-Saharan Africa** Anton Eberhard, Katharine Gratwick, Elvira Morella, Pedro Antmann, 2016-04-18 Inadequate electricity services pose a major impediment to reducing extreme poverty and boosting shared prosperity in Sub Saharan Africa Simply put Africa does not have enough power Despite the abundant low carbon and low cost energy resources available to Sub Saharan Africa the region's entire installed electricity capacity at a little over 80 GW is equivalent to that of the Republic of Korea Looking ahead Sub Saharan Africa will need to ramp up its power generation capacity substantially The investment needed to meet this goal largely exceeds African countries already stretched public finances Increasing private investment is critical to help expand and improve electricity

supply Historically most private sector finance has been channeled through privately financed independent power projects IPP supported by nonrecourse or limited recourse loans with long term power purchase agreements with the state utility or another off taker Between 1990 and 2014 IPPs have spread across Sub Saharan Africa and are now present in 17 countries Currently there are 125 IPPs with an overall installed capacity of 10 7 GW and investments of 24 6 billion However private investment could be much greater and less concentrated South Africa alone accounts for 67 IPPs 4 3 GW of capacity and 14 4 billion of investments the remaining projects are concentrated in a handful of countries The objective of this study is to evaluate the experience of IPPs and identify lessons that can help African countries attract more and better private investment At the core of this analysis is a reflection on whether IPPs have in fact benefited Sub Saharan Africa and how they might be improved The analysis is based primarily on in depth case studies carried out in five countries including Kenya Nigeria South Africa Tanzania and Uganda which not only have the most numerous but also among the most extensive experience with IPPs

**Using Training to Build Capacity** World Bank,2008-03-20 The World Bank finances about US 720 million in training every year through both its lending projects and its in house World Bank Institute WBI The evaluation found that while most of the training reviewed resulted in demonstrable participant learning this learning frequently did not lead to real change in participants workplace performance Poor training outcomes most often resulted from training content that wasn t relevant to the needs and goals of the target institutions or from the trainees lack of incentives or resources to apply learning in their workplaces These findings highlight how important it is for training to be embedded in broader capacity building programs that identify and address organizational and institutional capacity constraints alongside human ones

Group's history organization mission and purpose      Public Procurement and Aid Effectiveness Annamaria La Chimia, Peter Trepte, 2019-08-08 This edited collection fills a significant gap in the literature by gathering contributions from the most prominent academics and practitioners of aid and procurement. It explores the economic, political, and legal relationship between procurement and aid effectiveness in developing countries and takes stock of current debates in the field. More specifically, the contributions analyse the failures and successes of current initiatives to foster effectiveness and streamline the aid procurement process and address current themes emerging in the literature related to development procurement and aid success. A pivotal and timely publication, *Public Procurement and Aid Effectiveness* will be of interest to a varied and multicultural international audience and a wide range of actors working on aid effectiveness, development procurement, and good governance initiatives in both donor and beneficiary countries.      *International Commerce*, 1970-04      **Corruption, Global Security, and World Order** Robert I. Rotberg, 2009-12-01 Never before have world order and global security been threatened by so many destabilizing factors, from the collapse of macroeconomic stability to nuclear proliferation, terrorism, and tyranny. *Corruption, Global Security, and World Order* reveals corruption to be at the very center of these threats and proposes remedies such as positive leadership, enhanced transparency, tougher punishments, and enforceable sanctions. Although eliminating corruption is difficult, this book's careful prescriptions can reduce and contain threats to global security.
