It was time to return Life Probe to  
its Makers—all Earth had to do was find them.

## **Procyons Promise:**

**Procyon's Promise** Michael McCollum,2020-02-04 For millennia the Makers Life Probes explored the farthest reaches of space in search of the secret behind faster than light speed In the 22nd century the people of Earth made a pact with this far flung civilization all of the Makers intelligence in exchange for help in their mission Three hundred years later descendants of the original Procyon expedition have returned to Earth in a starship They find a world that has forgotten the generations old contract No matter The returning colonists have overcome far greater obstacles in their single minded drive to redeem a promise made before any of them were born **"Procyon ! Procyon !"** Igor A. Bagrov,2006-07-12 Procyon Procyon is a life

story of a man born in a Communist country the story of his struggle for his rights the story of searching for his social sexual and spiritual identity It is about any human being challenged by the rigid rules and regulations of society it is about friendship betrayal love hope Procyon Vincent H. Elfrey,2007-11-13 Michael is a dreamer reaching for the stars Procyon

a German Shepherd is Michael s best friend Living so happily on his parent s farm Michael was quite unprepared for the stars to reach back Everything in his placid life was about to change forever Even Michael couldn t have dreamed that he would be locked into a life and death struggle with forces beyond his reach yet as close as his dog Procyon Michael and his companion unwittingly set out to unravel the secrets hidden within thier own DNA that could expose a plot so sinister that even the opposing forces would be shocked Procyon is a story of survival faith and love **The Clouds of Saturn** Michael

McCollum,2020-10-01 When the sun flared out of control and boiled Earth s oceans humanity took refuge in a place that few would have predicted In the greatest migration in history the entire human race took up residence among the towering clouds and deep clear air canyons of Saturn s upper atmosphere Having survived the traitor star they returned to the all too human tradition of internecine strife The new city states of Saturn began to resemble those of ancient Greece with one group of cities taking on the role of militaristic Sparta **Life Probe** Michael McCollum,2020-02-04 The Makers are an advanced

intelligent alien species For hundreds of millennia they have been on the hunt for the secret to faster than light travel Their chosen instruments were the far reaching Life Probes in hopes of encountering other advanced civilizations out among the stars After a 10 000 year long journey one of these machines stumbles upon 22nd century Earth Upon arrival the probe isn t quite sure that this planet contains anything that could be considered advanced or intelligent But the Makers need help from humankind the probe is damaged and must be repaired if their search for knowledge is to continue Antares Dawn

Michael McCollum,2019-05-01 When the supergiant star Antares exploded in 2512 the human colony on Alta found their pathway to the stars gone isolating them from the rest of human space for more than a century When a powerful warship materializes in the system without warning the commanders of the Altan Space Navy are alarmed They dispatch one of Alta s most powerful ships to investigate only to discover the unknown behemoth is battered and helmed by a dead crew This is disturbing news for the Altans as the defeated battleship would have easily defeated the whole of the Altan navy on it s own

And if that ship was able to stumble into the Altan system so too could the force responsible for its destruction Something must be done *Lost Earth* Michael McCollum,2020-11-16 A Galaxy Reborn It is the 43rd century and humanity occupies a substantial chunk of the Orion Spur the small galactic arm in which Sol is located Homo sapiens Terra has become Homo sapiens Galactica Following the invention of faster than light travel in 2530 the Great Hegira went from a trickle to a flood as human occupied space expanded at an exponential clip Over the centuries rivalries grew as did star system navies When widespread war finally came it raged across entire sectors Mass bombardments of enemy planets took their toll Much that had been built during the preceding thousand years was smashed in flashes of nuclear fusion A dark age descended Eventually a new Pax Galactica took hold The return of stability brought with it a renaissance Much knowledge that had been lost was regained Much but not all On worlds across human space parents told their children stories of a place where once dwelt knights and princesses magicians and dragons where bold warriors sallied forth to victory or defeat What the children did not learn was where this magical place could be found The years of chaos had robbed them of that information The stellar coordinates of Sol were lost And with them the location of Planet Earth *Thunderstrike!* Michael McCollum,2020-10-01 The new comet found near Jupiter was an incredible treasure trove of water ice and rock Immediately the water starved Luna Republic and Sierra Corporation a leader in asteroid mining were squabbling over rights to the new resource But all thoughts of profit and fame were abandoned when a scientific expedition discovered that the comet's trajectory placed it on a collision course with Earth As scientists struggled to find a way to alter the comet's course world leaders tried desperately to restrain mass panic and two lovers quarreled over the direction the comet was to take all Earth waited to see if humanity had any future at all *Antares Victory* Michael McCollum,2019-05-01 After a century of warfare humanity finally discovered the Achilles heel of the Ryall their xenophobic reptilian foe Spica Alpha Virginis is the key star system in enemy space It is the hub through which all Ryall starships must pass and if Alta and their allies can just capture and hold it they will strangle the Ryall war machine and end its threat to humankind forever It all seemed so simple in the computer simulations Advance by stealth attack without warning strike swiftly with overwhelming power Unfortunately the logistics prove to be the easy part With the key to victory in hand Richard and Bethany Drake must temper the volatile role of human nature if they are to bring down the alien foe *Antares Passage* Michael McCollum,2019-05-01 After more than a century of isolation the paths between stars are again open and the people of Alta in contact with their sister colony on Sandar And yet the opening of the foldlines has not been the pure blessing the Altans had supposed The reestablishment of interstellar travel has brought with it news of the encroaching Ryall an alien race whose goal is the extermination of humanity If they are to avoid defeat at the hands of the alien forces Alta must seek out the military might of Earth The only suitable path however requires a journey into the heart of a supernova *An experimental cruise, single-handed, in the 'Procyon'.* Richard Turrell McMullen,1880 *Hereafter 1* Eina Mai,2025-07-01 Eli thinks he's leading a relatively normal life then he's brutally

murdered on a hot summer afternoon in 2019 But that s just the beginning when Eli suddenly finds himself in a rundown alley on a completely different Earth Faced with flying werewolves terrifying witches and gruesome ghosts Eli starts to resent this second chance at life until a gorgeous young man named Cyril rescues him Claiming that Eli is his long lost young master Cyril takes him back to a fairytale cottage in the woods and waits on him hand and foot Alone and terrified in this new world Eli has no choice but to accept his new identity and live with the clumsy soft spoken and fiercely loyal Cyril If Cyril has the energy of a clueless puppy then Eli is the embodiment of a grumpy kitten Together the chaotic duo unravels the mystery of their magical world by solving grisly crimes and connecting with eccentric characters from every side of the spectrum all while striving for their happily ever after which doesn t come easy at all      *Merchant Vessels of the United States...* United States. Coast Guard,1973      *Gibraltar Stars* Michael McCollum,2019-11-18 The great debate is over The human race has rejected the idea of retreating to Earth and that the Broa will continue to overlook them at least for a few more generations Instead the World Parliament by a 60 40 vote has decided to throw the dice and go for a win Brave words echo in Parliament Hall as members declare a victory inevitable While plans for war mount on Earth Mark and Lisa Rykand face grave danger as spies in enemy territory The Broa have begun to scrutinize these strange two legged interlopers and question their intentions It s only a matter of time before their identities are revealed But the Rykands mission is key to securing a victory With the number of forces favoring the enemy by roughly a million to one Earth will need all the help they can get      *Merchant Vessels of the United States* ,1976 From 1894 95 1935 36 pt 6 of each volume is issued separately with titles 1894 95 1902 03 Code list of merchant vessels of the United States 1903 04 1935 36 Seagoing vessels of the United States      **Gibraltar Earth** Michael McCollum,2019-11-18 It is the 24th Century Humanity is only just beginning to gain a toehold out among the stars While exploring the New Eden system the crew aboard Stellar Survey Starship Magellan encounters a pair of alien spacecraft A skirmish ensues and both sides exit the battle with heavy losses In picking through the wreckage of one of the alien ships the human crew stumbles upon a survivor with a fantastic story The alien hails from a million star Galactic Empire ruled over by a mysterious race known as the Broa As masters of this region of the galaxy they permit no challenge to their empire But as yet the Broa are ignorant of humanity s existence Armed with this vital information the human race must decide how best to proceed Do they cease all astral voyages and retreat to their corner of the universe quaking in fear at the thought of the Broa s discovery of Earth Or do they take a more aggressive approach      *What Do I Read Next?* 93 Gale Group,1993-09      *The Thousand Earths* Stephen Baxter,2022-09-29 In 2145AD John Hackett s adventure is just beginning In Year 30 Mela s story is coming to a close Hackett in his trusty ship the Perseus is not just a space traveller beginning his travels with an expedition to Neptune and back but thanks to the time dilation effect a time traveller as well His new mission will take him to Andromeda to get a close up look at the constellation which will eventually crash into the Milky Way and give humanity a heads up about the challenges which are coming A mission which will take him five million years to complete Not

only is Hackett exploring unknown space but he will return to a vastly different time Mela's world is coming to an end Erosion is eating away at the edges of every landmass first at a rate of ten metres a year but fast accelerating displacing people and animals as the rising Tide destroys everything in its path Putting more and more pressure on the people and resources which remain She and her people have always known that this long predicted end to their home one of the Thousand Earths is coming but that makes their fight to survive to protect each other no less desperate and no less doomed A beautiful page turning story which interweaves the tale of these two characters separated by both space and time in a hopeful exploration of humanities future this is Stephen Baxter at his best      The Sails of Tau Ceti Michael

McCollum,2020-10-01 Starhopper was humanity's first interstellar probe It was designed to search for intelligent life beyond the solar system Before it could be launched however intelligent life found Earth The discovery of an alien light sail inbound at the edge of the solar system generated considerable excitement in scientific circles With the interstellar probe nearing completion it gave scientists the opportunity to launch an expedition to meet the aliens while they were still in space The second surprise came when Starhopper's crew boarded the alien craft They found beings who despite their alien physiques were surprisingly compatible with humans That two species so similar could have evolved a mere twelve light years from one another seemed too coincidental to be true One human being soon discovered that coincidence had nothing to do with it

**The Shadow Things** Jennifer Freitag,2010-10-27 The Legions have left the province of Britain and the Western Roman Empire has dissolved into chaos With the world plunged into darkness paganism and superstition are as rampant as ever In the Down country of southern Britain young Indi has grown up knowing nothing more than his gods of horses and thunder so when a man from across the sea comes preaching a single God slain on a cross Indi must choose between his gods or the one God and face the consequences of his decision
