Probing In The Postmodern Academy:

The Trouble with Theory Gavin Kitching, 2020-07-23 Postmodern theory has engaged the hearts and heads of the brightest students because of its apparent political and social radicalism Despite this Professor Gavin Kitching claims that At the heart of postmodernism is very poor deeply confused and misbegotten philosophy As a result even the very best students who fall under its sway produce radically incoherent ideas about language meaning truth and reality This is not another conservative attack on postmodernism Rather it is a carefully considered analysis from a dedicated university teacher who is convinced that we have gone terribly astray He shows that postmodern theory is at best irrelevant to and at worst undermining of persuasive political arguments and reveals the basic philosophical confusion at its heart which makes this so Essential reading for any student writing a thesis in the humanities and the social sciences and for their teachers It is the strongest and best attack on the ravages of routine post modernism that I have ever read I applaud the way he lists the good causes that students warmly espouse and then suggests a simpler way to support them without the self destructive it s all just language that is implicit in their work Professor Sir Bernard Crick Emeritus Professor of Politics Birkbeck College University of London Gavin Kitching rattles the cages Will the inmates hear this They should if only for the reason that there is virtue in learning to argue against yourself This is a serious book Professor Peter Beilharz Sociology La Trobe University Required reading for anyone who wants to understand how and why postmodernism has had such disastrous pedagogical consequences Professor David G Stern Philosophy University of Iowa

The Postmodern Professional Karen Borgnakke, Marianne Dovemark, Sofia Marques da Silva, 2017-04-18 In the last two decades the teaching profession has increasingly lost autonomy and become subject to political change that has introduced a market orientation to both educational organisation and culture The book provides an international overview as well as deeper insight into national and local practices Based on ethnographic case studies each chapter makes its own unique contribution by exploring empirical data and discussing theoretical possibilities related to the common current question namely what it means to be a professional teacher in the postmodern era of professionalism

Postmodernism, Feminism, and Cultural Politics Henry A. Giroux, 1991-01-22 This book introduces central assumptions that govern postmodern and feminist theory offering educators a language to create new ways of conceiving pedagogy and its relationship to social cultural and intellectual life It challenges some of the major categories and practices that have dominated educational theory and practice in the United States and in other countries since the beginning of the twentieth century Rejecting the apolitical nature of some postmodern discourses and the separatism characteristic of some versions of cultural feminism the contributors take a political stand rooted in concern with cultural and social justice In so doing these essays represent a linguistic shift regarding how we think about ethics foundationalism difference and culture The selections present a concern with developing a language that is critical of master narratives racism sexism and those technologies of power in schools that subjugate infantilize and oppress

students The authors also develop a language of possibility that focuses on analyzing how power can be linked productively to knowledge how teachers can construct classroom social relations based on notions of equity and justice how critical pedagogy can contribute to an identity politics that is grounded in democratic relations and how teachers can develop analyses that enable students to become self reflective actors as they transform themselves and the conditions of their social existence *The Slow Professor* Maggie Berg,Barbara K. Seeber,2016-04-06 If there is one sector of society that should be cultivating deep thought in itself and others it is academia Yet the corporatisation of the contemporary university has sped up the clock demanding increased speed and efficiency from faculty regardless of the consequences for education and scholarship In *The Slow Professor* Maggie Berg and Barbara K Seeber discuss how adopting the principles of the Slow movement in academic life can counter this erosion of humanistic education Focusing on the individual faculty member and his or her own professional practice Berg and Seeber present both an analysis of the culture of speed in the academy and ways of alleviating stress while improving teaching research and collegiality *The Slow Professor* will be a must read for anyone in academia concerned about the frantic pace of contemporary university life **What Comes After**

Postmodernism in Educational Theory? Michael A. Peters,Marek Tesar,Liz Jackson,Tina Besley,2020-06-09 Marking the fiftieth anniversary of the *Educational Philosophy and Theory* journal this book brings together the work of over 200 international scholars who seek to address the question What happened to postmodernism in educational theory after its alleged demise Declarations of the death knell of postmodernism are now quite commonplace Scholars in various disciplines have suggested that if anything postmodernism is at an end and has been dead and buried for some time An age dominated by playfulness hybridity relativism and the fragmentary self has given way to something else as yet undefined The lifecycle of postmodernism started with Derrida s 1966 seminal paper *Structure Sign and Play in the Discourse of the Human Sciences* its peak years were 1973 1989 followed by uncertainty and reorientation in the 1990s and the aftermath and beyond McHale 2015 What happened after 2001 This collection provides responses by over 200 scholars to this question who also focus on what comes after postmodernism in educational theory This book was originally published as a special issue of the journal *Educational Philosophy and Theory* **A Sanctuary of Their Own** Raphael Sassower,2000-05-30 What is at stake in compromising the Enlightenment ideals of a liberal education with new educational policies engendered by a neo liberalized global marketplace Richly grounding his arguments in the social philosophy of European and American intellectuals Raphael Sassower explores Western culture s long standing ambivalence toward the life of the mind He shows how and why this historical legacy contributes to today s confusion over goals and values in contemporary education He sheds new light on many of today s controversies showing why the demands of technology and a global economy increase society s need for educational sanctuaries of liberal education intellectual play and social consciousness that may better serve the diverse and often conflicting needs of a changing world **Thinking Again** Nigel Blake,1998-04-30 The postmodern condition in which

instrumentalism finally usurps all other considerations has produced a kind of intellectual paralysis in the world of education The authors of this book show how such postmodernist thinkers as Derrida Foucault and Lyotard illuminate puzzling aspects of education arguing that educational theory is currently at an impasse They argue that we need these new and disturbing ideas in order to think again fruitfully and creatively about education

Teachers, Discourses, and Authority in the Postmodern Composition Classroom Xin Liu Gale,1996-01-04 Examines the teacher s role and the teacher s authority in postmodern academic settings

Education and the Postmodern Condition Michael Peters,1997-07-23 This collection of essays brings together a number of contributions on Lyotard s work made by philosophers educationalists and sociologists around the special focus of education Their intent is to examine Lyotard s notion of the postmodern condition and its relevance to education

EBOOK: Reflective Teaching in the Postmodern World Stuart Parker,1997-03-16 A well written and stimulating excursion into postmodern education Parker s challenge to critical educational theory can in the long run only help the left rethink and deepen its political project Peter McLaren University of California Los Angeles This is a book about two stories of education In one story there is a vocabulary of means efficiency bureaucracy inspection and science in the other one of autonomy democracy emancipation and action research One is the story of positivist managerialist approaches to education the other is the story of reflective teaching This book displaces both of these stories By applying the techniques of deconstruction Stuart Parker overturns the assumptions common to both of these positions and in doing so jettisons some widely cherished beliefs about education autonomy and rationality Moving beyond current debates this book articulates a new manifesto for education in postmodernity and highlights the implications for educational practices and institutions

Teaching the Postmodern Brenda K. Marshall,1992 Brenda Marshall s *Teaching The Postmodern* aims to provide an introduction to postmodernism accessible enough for the undergraduate reader and rigorous enough to inform and challenge the graduate student and professor Designed for the classroom *Teaching The Postmodern* reads both literary texts and theory Marshall introduces the reader to key terminology and concepts structuralism poststructuralism the critique of subjectivity the critique of representation intertextuality historiographic metafiction and counter memory Fiction by Italo Calvino J M Coetzee Michel Tournier Christa Wolf Salman Rushdie Timothy Findley and Toni Morrison roots the theory in practice Taking on the notoriously inaccessible *Teaching The Postmodern* sets out to demonstrate that postmodernism can be

comprehensible and even fun **Constructive Postmodernism** Martin Schiralli, 1999-11-30 Are indeterminacy and relativism the only possible consequences of embracing the uncertainties of the postmodern era Are other less deconstructive options to be found embedded in postmodernism's many ambiguities In arguing affirmatively to both questions this study points in a constructively postmodern way toward renewal in literary and cultural theory Divided into two parts this book first examines the two distinct sources constructive and deconstructive of the postmodern attitude The first exemplified in the work of Derrida Lyotard and Baudrillard is presented as a reaction against the reductive excesses of 20th century modernism and is characterized by ambivalent and indeterminate approaches to uncertainty The second source is more subtly discerned in the rejection by Wittgenstein and Dewey among others of the Cartesian or modern conception of rationality in favor of more situationally complex naturalistically grounded accounts of experience Although the two approaches overlap in their acceptance of uncertainty and complexity constructive postmodernism is shown to offer more scope for productive and cumulative study of meaning and value The second part applies the principles embedded in constructive postmodern thinking to the field of literary theory and criticism The constructively postmodern pursuit of ever more richly observed and detailed more ordinary and transparent situations is shown to be of particular relevance to literary studies What precisely does the achievement of a writer like Jane Austen or Henry James represent if not pointedly detailed observations of densely complex social and interpersonal relations mediated by a painfully acute and sophisticated sensibility and imaginatively represented as works of fiction The answer to this question is presented by exploring the concepts of social and emotional intelligence in the novels of Austen and James among four other novelists *Postmodernism and Education* Robin Usher, Richard Edwards, 1994 This book responds to the growing interest in postmodernism as a way of understanding social cultural and economic trends and explores the impact which postmodernism has had upon the theory and practice of education using a broad analysis of postmodernism and an in depth introduction to key writers in the field Contents Introduction 1 Postmodernism Postmodernity and the Postmodern Moment 2 Speaking Truthfully Science Psychology and Subjectivity 3 Knowing Oneself Subjectivity and Mastery 4 Subject Disciplines and Disciplining Subjects The Subject in Education 5 Examining the Case Competences and Management 6 The End of the Educational Project 7 Education and Textuality 8 Telling Stories The Legitimising of Knowledge 9 The End of the Story Education Efficiency and Resistance 10 The Cultivation of Desire 11 Catching the Last Post References Index **Killer English** Mary Alice Delia, 2024-10-17 This book is written for classroom teachers high school or college and anyone who teaches humanities or qualitative social sciences at whatever level and in whatever specialization who wish to understand the importance and power of theory as a way of transforming their own classrooms and curricula From the Foreword to the book Killer English is not just a how to book although it is rich in the best pedagogical strategies it is a profound inquiry into postmodern thought it offers the finest evidence that Foucauldian and Derridean thought and postmodern theory in general is itself profoundly pedagogical to make

her case Delia doesn't just do pedagogy she reads theorists like Derrida and Foucault as pedagogy and in so doing she shows their contributions in a newer and truer light at a time of precarious democracy and extraordinary threats to a culture of open inquiry inclusion and free thought Killer English offers a path toward the kind of education for critical thinking that is so crucial to a democratic society If you are a theorist you will understand theory in a new way If you are a teacher at whatever academic level from elementary school through graduate students you will find a myriad of ideas for teaching in new ways And if you allow it your classroom will never be the same
