Profession Architect Architekten Cie, 2002 Critical discussion about the work of the architectural firm de Architekten Cie Architecture is in their view not a form of personal artistic expression but rather a complex discipline which involves the community clients and engineering techniques Survey of their designs and buildings **Profession Architect**, 2002 20 Years 010 Hans Oldewarris, Peter de Winter, 2003 Published for 010 Publisher's twentieth anniversary in 2003 this volume celebrates the publishing vision of Hans Oldewarris and Peter de Winter 010's founders Besides hundreds of monographs by and about Dutch architects 010 has published books on architecture interior design photography industrial design graphic design and the visual arts Exhaustively annotated and illustrated 20 Years 010 provides not only the technical details of each book size format binding but also the authors editors photographers graphic designers and printers A brief description of the contents rounds off each entry Comprehensive indexes give insight into who contributed to which book and in what way In their introductory essay Ed Taverne and Cor Wagenaar give a picture of the practice of architectural publishing in the Netherlands during those years **The American Architect**, 1927 **Architecture**, 1929 **Gender Studies in Architecture** Dörte Kuhlmann, 2014-04-11 Analyzing a range of ideas from biological evolutionary and anthropological theories to a variety of feminist psychoanalytic poststructuralist and constructivist discourses this book provides a comprehensive introduction to the problematics of gender and power in architectural and urban design Topics range from conceptions of postulated matriarchal architecture in Old Europe to contemporary technologies of control from the mechanisms of gaze to architectural performatives from the underrepresentation of women in the planning profession to the integration of gender issues to the curriculum The particular strengths of the book lie in its inclusiveness and critical analysis It is not a partisan defence of feminism or any other theory but a critical introduction to the issues relating to gender Moreover the conclusions reach beyond a narrow gender studies perspective to social and ethical considerations that are unavoidable in any responsible architectural or urbanistic practice With its broad range and balanced analysis of different theories the book is suitable as an overview of gender studies in architecture and useful for any designer who is concerned with the social effects of the built environment **Architect**, 1870 *Architectural Colour in the Professional Palette* Fiona McLachlan, 2013-08-15 How do architects use color Do they adopt a different strategy or starting point for every project Do they gradually cultivate individual color palettes which develop alongside their body of built work Do they utilize or are they aware of the body of theoretical work that underpins the use of color in the past and forms the basis of most of the color systems commercially available today Informed by the author's thirty years in architectural practice and academia this book investigates documents and analyzes the work of a number of contemporary architects in order to respond to these questions and provide a clear reference of contemporary color use The book suggests a holistic approach to the integration of color in architecture through a series of thematic essays the text explores and reveals underlying principles in color design and

application Case studies include AHMM Caruso St John Erich Wiesner and Otto Steidle Gigon Guyer O Donnell Tuomey Sauerbruch Hutton Steven Holl UN Studio The book provides clear insights into how particular contemporary architects use color confidently and intelligently as an integral part of their design philosophy in conjunction with their choices of materials and finishes Offering a stimulating view of the history of color theory and pragmatic advice to practicing architects this book will be inspiring to both design professionals and students Papers Read at the Royal Institute of British Architects ,1857
