Gatekeeper John F. Sullivan,2007 John F Sullivan was a polygraph examiner with the CIA for thirty one years during which time he conducted more tests than anyone in the history of the CIA s program The lie detectors act as the Agency s gatekeepers preventing foreign agents unsuitable applicants and employees guilty of misconduct from penetrating or harming the Agency Here Sullivan describes his methods emphasizing the importance of psychology and the examiners skills in a successful polygraph program Sullivan acknowledges that using the polygraph effectively is an art as much as a science yet he convincingly argues that it remains a highly reliable screening device more successful and less costly than the other primary method background investigation In the thousands of tests that Sullivan conducted he discovered double agents applicants with criminal backgrounds and employee misconduct including compromising affairs and the mishandling of classified information But Gatekeeper is more than Sullivan s memoirs It is also a window to the often acrimonious and sometimes alarming internal politics of the CIA the turf wars over resources personnel and mandate the slow implementation of quality control the aversion to risk taking and the overzealous pursuit of disqualifying information In an age when the intelligence community s conduct is rightly being questioned Sullivan contributes a fascinating personal account of one of the Agency s many important tasks **The United States Intelligence Community** Robert Michael Gates,1988 **Boy Clinton** R. Living to Tell Eddy Douglas Brown, 2001 Spanning approximately forty years these memoirs are tied together with the thematic thread of a writer to be coming of age They chronicle his discoveries of nature family love community and self For several years he becomes immersed in music as a member of an R B and jazz band During the 1960s Civil Rights Movement he narrowly escapes but has a close look at death by the hands of law enforcement officers in of all places a college campus He drops out of college fights off drug abuse and winds up in the U S Army during the Vietnam War After regaining his equilibrium he continues his higher education and realizes some measure of personal success During this time he is recruited by the CIA The final piece Rewind reveals a mature stable self aware man who knows who he is and where he fits into the world as he now sees it a still racist world that is reluctant to embrace him but one in which he is determined and prepared to realize his long recurring dream of being a writer Engaging and articulate these memoirs go beyond being one person's life excerpts to reflecting American history and culture and human search for self *Subject Guide to Books in Print*, 1997
