Paging God Wendy Cadge, 2013-01-18 While the modern science of medicine often seems nothing short of miraculous religion still plays an important role in the past and present of many hospitals When three quarters of Americans believe that God can cure people who have been given little or no chance of survival by their doctors how do today's technologically sophisticated health care organizations address spirituality and faith Through a combination of interviews with nurses doctors and chaplains across the United States and close observation of their daily routines Wendy Cadge takes readers inside major academic medical institutions to explore how today's doctors and hospitals address prayer and other forms of religion and spirituality From chapels to intensive care units to the morgue hospital caregivers speak directly in these pages about how

religion is part of their daily work in visible and invisible ways In Paging God Religion in the Halls of Medicine Cadge shifts attention away from the ongoing controversy about whether faith and spirituality should play a role in health care and back to the many ways that these powerful forces already function in healthcare today **How We Saved Texas Prison**

Religion and Medicine Jeff Levin, 2020-04-15 Though the current political climate might lead one to suspect that religion and medicine make for uncomfortable bedfellows the two institutions have a long history of alliance From religious healers and religious hospitals to religiously informed bioethics and research studies on the impact of religious and spiritual beliefs on physical and mental well being religion and medicine have encountered one another from antiquity through the present day In *Religion and Medicine* Dr Jeff Levin outlines this longstanding history and the multifaceted interconnections between these two institutions The first book to cover the full breadth of this subject it documents religion medicine alliances across religious traditions throughout the world and over the course of history Levin summarizes a wide range of material in the most comprehensive introduction to this emerging field of scholarship to date **Chaplains Investigate Their Practice** M. N. Walton, Jacques Korver, Niels den Toom, 2025-02-04 *Chaplains Investigate Their Practice* presents a collaborative study that analyzes more than a hundred instances of care by chaplains in various fields of chaplaincy in the Netherlands The research provides an answer to the question What do chaplains do why and with what results Part 1 describes the method of the project Part 2 consists of nine exemplary case studies illustrative of the project but also suited to educational purposes Part 3 explores themes that emerged in the case studies regarding rituals aesthetic means goal orientation chaplain roles and community Part 4 presents the results of the study by identifying a basic repertoire of chaplaincy care the values and the body of knowledge that guide the care and effects of the care on clients feelings behavior and worldview A secondary study examines the influence that participating in the study has had on the practices of these chaplain researchers The detailed study provides chaplains students and other professionals with a clear picture of what chaplains do and their contributions to the well being of clients It provides teachers and researchers with rich materials and methodological perspectives for their work **Love Me to Life** Veronica Sites, 2020-12-21 An unacknowledged crisis haunts the church as we fail to deal with the causes and aftermath of suicide and the stigma society often places on victims and their loved ones How can we stand up for life and love these people as the Body of Christ In *Love Me to Life* Veronica Sites responds from personal experience serious research and training and a biblical perspective Combining these crucial elements she presents a plan for responding with the gospel message as we live out the message of Jesus in our churches Crucial to this plan is involving leaders but also in educating and empowering all members to understand and positively impact those in need of support In support of this she

provides detailed information on the situation as we find it in most churches She then looks at scripture for guidance in how we should deal with those who most need our support and sometimes active intervention Finally she looks at how the church can follow up and build the lives and ministries of the church to those in need This book is filled with practical experience detailed data and scriptural support It can provide the basis for a church to plan how they will acknowledge and respond to the suicide crisis Individuals and small groups can benefit greatly as well but we recommend studying this issue at the congregational level so that everyone is prepared to love their neighbors whether down the pew or down the street into a life of restoration and identity in Christ and not identified by a tragic event Thus this book is for everyone *Religious and Theological Abstracts* ,2004
