Teaching Excellence in Higher Education Alan Skelton,2005 What makes a university teacher excellent As debates rage about whether this is down to subject knowledge communication skills taking a research led approach or being a technological whiz this book provides the first in depth examination of teaching excellence in higher education Identifying and examining interpretations of teaching excellence it considers what excellent means and implies for practice *Practice and Profile* Johan Hegeman,Margaret Edgell,Henk Jochemsen,2011-02-28 Too many students are disappointed They want to make a difference in their chosen professions They are inspired by successful visionaries but they have little idea how to follow in their oversized footsteps Their colleges and universities promise more professional development than they can possibly deliver especially in terms of moral development for the professions Experts coming from a range of perspectives in higher education agree that moral formation for the professions must increasingly take place in higher education Tragically the recent evolution of teaching has stripped educators of much of the rationale for moral formation The recent record of moral lapses by managers testifies to this crisis of moral education The authors call for a revival of moral formation in higher education for the professions They supply the needed resources to redesign classic as well as cutting edge teaching and learning toward practical moral education in the professions This book is carefully designed to apply traditional Christian principles appropriately to evolving professional practices The authors strategies address the problems surrounding calling vocation and the growing need for virtue training in the professions In particular the authors provide clear direction for how to meet the need for professional profiles that meet the standards of the marketplace Practice and Profile provides the reader with a tested and proven model of faith formation appropriate to the professions It also goes into specific useful detail as to how the model mobilizes learning in classroom and professional settings It aids institutions of higher learning in their struggle with demands for new learning environments and new moral competencies Foremost it gives students a grasp of how to become dedicated professionals who make a difference Approaches To Learning: A Guide For Teachers Jordan, Anne,Carlile, Orison,Stack, Annetta,2008-07-01 This title aims to make life easier for educators by gathering together the theoretical approaches informing the modern principles and practices of western education The authors are committed to the view that theory has many practical implications and to its value in supporting confirming and optimising best practice

The Theory & Practice of Teaching Peter Jarvis,2002 This text will introduce teachers to the approaches techniques theories and methods of teaching It looks in detail at the teaching techniques that can be called upon at different times and in different situations and how they can be used Community Colleges and Workforce Preparation in the 21st Century:

Emerging Research and Opportunities Smith, Dimitra J., Lewis, Rhonda, Singleton, Leslie, 2021-04-02 Community colleges are essential in preparing the 21st century workforce Research has indicated that there is a shortage of individuals prepared for skilled workforce opportunities such as plumbers electricians and many others In fact while college is essential in workforce development it is not the only route that can lead to a successful livelihood Developing a skill that transfers into an essential trade is a route less taken Community colleges are ideally situated to respond to the shortage of a prepared workforce by providing an array of programs that reach a wide range of individuals with talents that may not include a college degree Community Colleges and Workforce Preparation in the 21st Century Emerging Research and Opportunities is a comprehensive reference source that covers the essential role of community colleges in developing a skilled workforce via varying educational opportunities that include degree completion workforce development and skill enhancement Readers will benefit from the book s ability to advocate for the need for individuals with skillful trade options provide different areas to consider as trade options discuss the role of community colleges in preparing a workforce examine the challenges that can arise for individuals with a trade and present a global outlook on the workforce of the 21st century Covering topics that include career pathways and STEM programs the book is especially valuable for academic institutions that are looking to provide options for talent expansion Leadership and education scholars leadership practitioners within community college and university settings leaders within workforce development sectors researchers and students will also find this reference useful for developing a skilled and competent workforce **The Challenge to Scholarship** Gill Nicholls, 2005-06-24 This book is a lively and engaging investigation that seeks to establish what it means to be a scholar and the value of scholarship

The Changing Academic Profession in Hong Kong Gerard A. Postiglione, Jisun Jung, 2017-05-05 Hong Kong s universities have been transformed by the move from elite to mass higher education from government support to market driven finance from academic management to professional management from local to cross border and international outreach from China s education bridge to China s education window and from a colonial model of curricular specialization to a postcolonial model emphasizing broader intellectual development and service As the landscape of Hong Kong higher education has undergone change so have the backgrounds specializations expectations and work roles of academic staff The academic profession is ageing increasingly insecure more accountable more international at the same time more Mainland focused and less likely to be organized only along disciplinary lines The academic profession today is expected to be more innovative in teaching more productive in research and more entrepreneurial in fundraising New approaches to governance have evolved and blurred the boundaries between academic and managerial roles within the university The power to appoint members to university councils has become an area of contention It has come increasing differentiation and changing expectations about knowledge creation and application This has expanded the role of the academy and challenged the coherence and viability of the traditional academic role and loyalties to original disciplines Based on the multitude of challenges in Hong Kong higher

education this book explores the future direction of Hong Kong academic profession Hong Kong has arguably one of the best higher education systems in the world At the heart of this system and indeed of any system is the academic profession The Changing Academic in Hong Kong provides a convincing and multifaceted analysis of the professoriate This book is essential for understanding Hong Kong's success and it has lessons for a broader understanding of the academic profession Philip G Altbach Research Professor Boston College USA The one book that has presented a complete portrait of recent changes and challenges to Hong Kong's academic profession the book should be recognized as a classic Futao Huang Professor of Higher Education Hiroshima University Japan Gerard Postiglione and Jisun Jung have successfully pulled together a strong team of researchers making significant contributions to the debates of changing academic profession especially as universities in Hong Kong are developing new performance indicators in response to the University Governance Review by Sir Howard Newby This volume is timely and highly relevant to researchers academics and policy makers in higher education with critical reflections on academic profession in Hong Kong Ka ho Mok Vice President Lingnan University Hong Kong b A very thorough analysis of the situation of the academic profession and its environment in Hong Kong A setting which calls for and provides opportunities for internationality of higher education in a unique way but concurrently is tempted to make it itself a victim of the world wide inclination of over emphasizing visible research productivity Thus the case of Hong Kong is presented as both exceptional and as prototypical for the search of the balance across the functions of higher education Ulrich Teichler Professor International Centre for Higher Education Research Kassel University Germany Hong Kong's higher education sector is a microcosm of many of the world's other systems intensely urban experiencing significant transformation attuned to rankings and peer comparison watchful toward government intervention anxious about funding and always on the lookout for new performance indicators for faculty Anyone interested in Hong Kong will find The Changing Academic Profession in Hong Kong a good read but so will those of us concerned about trends challenges and possibilities at university systems in the rest of the world particularly Asia William G Tierney Professor University of Southern California USA
