Musicians E. Douglas Bomberger, 1999-11-30 The series of biographical sketches published by Brainard's Musical World between 1877 and 1889 is notable for the diversity of the musicians profiled and for the entertaining personal information provided. This period witnessed the establishment of musical institutions and attitudes toward music that have shaped American music to the present day. The biographies present a cross section of American musicians in the late 19th century including singers, instrumentalists, writers, teachers, and composers. Among the musicians included are some of America's most prominent conductors such as Theodore Thomas and Leopold Damrosch, composers such as John Knowles Paine and George F. Root, writers such as John S. Dwight and Amy Fay, teachers such as William Mason and Erminia Rudersdorff, and performers such as Emma Abbott and Maud Powell. Scores of less familiar musicians who were also instrumental in shaping America's music are included as well. Originally intended for general readers, the biographical sketches not only shed light on musical topics but also include personal information that is seldom found in a traditional dictionary and which speaks to the attitudes and concerns of the late 19th century society. This work will be of value to scholars and researchers of 19th century American music and to those interested in the development of popular song. Entries are alphabetically arranged and include select bibliographies. A general bibliography and index are also included. **Finding List of the Free Public Library of Newark, N.J.** Newark Public Library, 1893 *Biennial Report* State Library of Iowa, 1904 **Host Bibliographic Record for Boundwith Item Barcode 30112118314308 and Others**, 1904 Biennial Report of the State Librarian to the Governor of the State of Iowa State Library of Iowa, 1904 **Legislative Documents** Iowa, 1904 Contains the reports of state departments and officials for the preceding fiscal biennium Legislative Documents Submitted to the ... M. Mancini, 2024-12-09 This book brings together a trail blazing collection of music scholars to explore the intersections, frictions, and resonances between nineteenth century American music and history. In the nineteenth century United States, music was everywhere, from places of worship to the workplace, the parlor, the stage, and the street. Music accompanied paths of reform, supported both radical and conservative agendas, and helped Americans of all kinds to express patriotism, identity, and resistance. The chapters in this volume unsettle longstanding assumptions about the types of music that were important to nineteenth century Americans, where that music was performed, why, and for whom. And they underline the ability of music and musical practices to shed new light on questions of race, class, gender, and memorialization in the United States across the long nineteenth century. The volume offers insights for how and why to integrate nineteenth century American music into history classrooms and highlights the need to embrace the challenge of interdisciplinary work to realize its greatest benefits. This book will be relevant for students and researchers of American music history, cultural
